Michael Coultrip, Chief Investment Officer

Be advised that the committees of the Board of Retirement are forums in which consensus may emerge.
If you have an interest in a matter before a committee, you are advised to attend the committee meeting.
Committee meeting times are noted on the board agenda.

IN COMPLIANCE WITH THE CALIFORNIA GOVERNMENT CODE AND THE AMERICANS WITH DISABILITIES ACT:
SamCERA's facilities and board and committee meetings are accessible to individuals with disabilities. Contact David Bailey at (650) 363-4930 at least three business days prior to the meeting, if (1) you need special assistance or a disability-related modification or accommodation, including auxiliary aids or services, in order to participate in this meeting; or (2) you have a disability and wish to receive the agenda, meeting notice, agenda packet or other writings that may be distributed at the meeting in an alternative format. Notification in advance of the meeting will enable SamCERA to make reasonable arrangements to ensure full accessibility to this meeting and the materials related to it.

THE COMMITTEE MEETS IN 100 MARINE PARKWAY, SUITE 160,
WHICH IS LOCATED ON THE SE CORNER OF TWIN DOLPHIN & MARINE PARKWAY IN REDWOOD CITY.
Detailed directions are available on the “Contact Us” page of the website www.samicera.org
Free Parking is available in all lots in the vicinity of the building.
How to Find Us:

From Northbound 101 take the Ralston/ Marine World Parkway exit. Drive East on Marine Parkway toward the Bay.

From Southbound 101 take the Ralston/ Marine World Parkway exit. Drive East over the freeway on Marine Parkway toward the Bay.

From El Camino Real, turn East toward the Bay on Ralston and drive over the freeway on Marine Parkway. (Ralston becomes Marine Parkway at 101.)

Twin Dolphin Drive is two stoplights beyond the freeway. The “Shores Center” sign on the lawn is located in front of our new home.

Continue on Marine Parkway one block beyond Twin Dolphin to Lagoon Drive. Note the 100 Marine granite monument with SamCERA logo near curb as you approach Lagoon Drive.

From Marine Parkway turn Right on Lagoon Drive and then immediately take the next two Right turns into our parking lot.

Park in the Visitor spaces on the Marine Parkway side of our building near the North Entrance.

SamCERA is in Suite 125 on the first floor, on your left just inside the North Entrance on the Marine Parkway side of the building.

SamCERA’s Telephone Number: (650) 599-1234
From a County Extension: Dial 1234
From Outside the 650 Area Code: (800) 339-0761
Web Site: www.samcera.org

Our Office is Open Monday thru Thursday from 7:00 a.m. until 6:00 p.m.
MINUTES OF SAMCERA’S INVESTMENT COMMITTEE MEETING – FEBRUARY 26, 2013

1.0 Call to Order: Mr. David called the Public Session of the Investment Committee of the Board of Retirement to order at 10:03 a.m. February 26, 2013, in SamCERA’s Board Room, Suite 160, 100 Marine Parkway, Redwood City, California.

2.0 Roll Call:
Present: Lauryn Agnew, Mr. Ben Bowler, Mr. Al David, and Ms. Michal Settles. 
Alternates present: Mr. John Murphy and Mr. Christopher Miller.
Staff: Mr. David Bailey, Mr. Michael Coultrip, Ms. Brenda Carlson, Ms. Lilibeth Dames, Ms. Gladys Smith and Ms. Kristina Perez.
Consultants: Mr. Jonathan Brody and Mr. Patrick Thomas, of Strategic Investment Solutions.

3.0 Oral Communications From the Committee. Ms. Agnew reported her attendance at the CALAPRS Advanced Board Leadership Institute, at the UCLA Anderson School of Management January 29-31, 2013. Mr. David reported attending the NCPERS Legislative Conference, in Washington D.C. on January 26 – 28, 2013.

4.0 Oral Communications From the Public: None.

5.0 Approval of the Minutes: Mr. David asked if there were any corrections or changes to the minutes, and none were noted.
Action: Ms. Settles moved to approve the Investment Committee minutes from October 23, 2012. The motion was seconded by Mr. Bowler and carried unanimously.

6.1 Monthly Portfolio Performance Report: Mr. Coultrip presented the report and stated it was a strong month with SamCERA’s overall portfolio up 3.1%, and he reviewed and discussed the different asset classes with the Board.
Action: This agenda item was informational. It did not require committee action.
Item 6.3 was taken out of order, and Item 6.2 was postponed until later in the meeting.

6.3 Discussion and Review of Overlay Management – Further Discussion: Mr. Coultrip explained the State Street report and analysis showing the estimated results of implementing an overlay program, and the Committee discussed.
Action: Ms. Agnew moved to recommended Board approval to continue the process and return to the Board with a list of overlay management candidates. The motion was seconded by Mr. Bowler and carried unanimously.

6.4 Approval of Annual Review Questionnaires for International Managers: Mr. Coultrip reviewed the annual review process with the Committee, and let them know that the questionnaires will be sent to the managers once approved by the Board. Mr. Coultrip noted that ESG factor questions were added.
Action: Ms. Agnew moved to recommend Board approval of the proposed annual review questionnaires for SamCERA’s International Managers. The motion was seconded by Mr. Bowler and carried unanimously.

6.5 Approval of Large-Cap Growth Manager Finalist Candidates: Mr. Coultrip explained the search process with the Committee and stated that RFIs had been sent to six candidates, and all six had responded. John Nicolini of SIS, reviewed the selection criteria, and discussed each of the six finalists with the Committee.
Action: Ms. Settles moved to recommend Board approval to invite the selected three large cap growth manager candidates, Brown Advisory, Delaware and TCW, to SamCERA for interviews. The motion was seconded by Mr. Bowler and carried unanimously.

6.6 Approval of Changes to Fixed Income Policy Benchmark: Mr. Coultrip discussed changes proposed to the fixed income benchmark. He went over the structure changes and compared the current target with the proposed target.
Action: Ms. Agnew moved to recommend Board approval of the proposed fixed income benchmark. The motion was seconded by Ms. Settles and carried unanimously.

6.7 Discussion on Proposed Changes to the Investment Policy: This item will be discussed before the full Board of Retirement at the regular meeting.

The Chair returned to item 6.2 at this time, and it was determined that this item would be heard in open session, not in closed session as agendized.

6.2 Discussion and Approval of Alternative Asset Opportunity - D.E. Shaw 130/30 Manager Request for Information Responses: Mr. Coultrip and Patrick Thomas discussed and reviewed information provided by DE Shaw regarding their 130/30 strategy, with the Committee. Mr. Coultrip explained that D.E. Shaw had previously presented before the Board; and additional reports analyzing D.E. Shaw in comparison to other 130/30 managers were given to the Board last month.
Action: Ms. Settles moved to recommend Board approval to transition SamCERA’s current long-only strategy with D.E. Shaw to a 130/30 strategy, after appropriate due diligence is conducted. The motion was seconded by Ms. Agnew and carried unanimously.

7.0 Other Business: None
8.0 Chief Investment Officer’s Report: None
9.0 Adjournment: There being no further business, Mr. David adjourned the committee meeting at 11:32 a.m.
The Board of Retirement
of the San Mateo County Employees' Retirement Association will meet on

A copy of the Board of Retirement's open session agenda packet is available for review at the SamCERA offices and on our website unless the writings are privileged or otherwise exempt from disclosure under the provisions of the California Public Records Act. Office hours are Monday through Thursday 7 a.m. – 6 p.m.

IN COMPLIANCE WITH THE CALIFORNIA GOVERNMENT CODE AND THE AMERICANS WITH DISABILITIES ACT:

SamCERA's facilities and board and committee meetings are accessible to individuals with disabilities. Contact SamCERA at (650) 599-1234 at least three business days prior to the meeting if (1) you need special assistance or a disability-related modification or accommodation, including auxiliary aids or services, in order to participate in this meeting; or (2) you have a disability and wish to receive the agenda, meeting notice, agenda packet or other writings that may be distributed at the meeting in an alternative format. Notification in advance of the meeting will enable SamCERA to make reasonable arrangements to ensure full accessibility to this meeting and the materials related to it.
July 23, 2013

TO: Board of Retirement

FROM: Scott Hood, Assistant Executive Officer

SUBJECT: Administration of the Oath of Office to Newly Elected Trustees

In this agenda item, the Trustee Oath of Office will be given to:

- Third Member, Natalie Kwan-Lloyd, reelected by the General Membership;
- Eighth Member, Paul Hackleman, reelected by the Retiree Membership;
- Eighth Member Alternate, Alma Salas, Newly Elected by the Retiree Membership.
TO: Board of Retirement  
FROM: Scott Hood, Assistant Executive Officer  
SUBJECT: Ad Hoc Nominating Committee Report and Election of 2012-2013 Board Officers  

Staff Recommendation
Staff recommends that under this agenda item the Board Chair:

- Ask for a report from the chair of the ad hoc committee,
- Ask for a motion and a second to place the committee’s slate of candidates in nomination,
- Open the floor to additional nominations,
- Conduct a vote for the officer positions.

Background
Pursuant to the Regulations of the Board of Retirement, an election of board officers is to be held at the first meeting of each fiscal year. The board regulations regarding the election of officers are reprinted on the following page.

At the May 28, 2013, meeting, Board Chair Sandie Arnott appointed the following committee:

Ad Hoc Nominating Committee for Board Officers
Michal Settles, Chair,  
Sandie Arnott,  
Al David

At the July 23, 2013, meeting, the committee chair will report on the recommendations of the committee and place in nomination the names of the trustees the committee recommends for the three board officer positions.
1.1. **Election Of Chair:** At the first regular meeting in July, the Board of Retirement shall elect one of its members chair for a term of one year or until his or her successor is duly elected and qualified. The Chair shall preside at all meetings of the Board, shall appoint all committees and shall perform all duties incidental to that office.

1.2. **Election Of Vice Chair:** At the first regular meeting in July, the Board of Retirement shall elect one of its members vice chair for a term of one year or until his or her successor is duly elected and qualified. In the Chair's absence or inability to act, the Vice Chair shall take the place and perform the duties of that office.

1.3. **Election Of Secretary:** At the first regular meeting in July, the Board of Retirement shall elect one of its members secretary for a term of one year or until his or her successor is duly elected and qualified. The Secretary shall attest to Resolutions and other such documents for the Board. In the Chair's and Vice Chair's absence or inability to act, the Secretary shall take the place and perform the duties of the Chair.
Staff Recommendation

Staff recommends the Chair announce appointments to the Investment Committee, the Audit Committee, and the Ad Hoc Succession Planning Committee as the Chair deems appropriate.

Background

The Board Chair is authorized by the Regulations of the Board of Retirement to appoint all committees.

"1.1 Election Of Chair: At the first regular meeting in July, the Board of Retirement shall elect one of its members chair for a term of one year or until his or her successor is duly elected and qualified. The Chair shall preside at all meetings of the Board, shall appoint all committees (emphasis added) and shall perform all duties incidental to that office."

Committee assignments for FY12-13 were as follows:

- Investment Committee- Ben Bowler, Lauryn Agnew, Michal Settles and Albert David, Chair
- Audit Committee- Paul Hackleman, Natalie Kwan Lloyd, Sandie Arnott and Eric Tashman, Chair
- Ad Hoc Succession Planning Committee- Al David, Michal Settles, Ben Bowler, Paul Hackleman, Chair
May 28, 2013 – Special Meeting Agenda

PUBLIC SESSION – The Board will hold a special meeting in Public Session at 9:00 A.M. at 30 Twin Pines Lane, Belmont, CA

1 Call to Order
2 Roll Call
3 Oral Communications from the Public
4 Interview Finalists for SamCERA’s Strategic Overlay Manager (Regular Agenda Item 6.5)
   - 9:00 a.m. Black Rock
   - 10:00 a.m. Clifton Group
   - 11:00 a.m. State Street

5 Discussion and Selection of Strategic Overlay Manager (Regular Agenda Item 6.6)
6 Adjournment

May 28, 2013 – Special Meeting Minutes

1 Call to Order: Ms. Sandie Arnott, Chair, called the Special Meeting of the Board of Retirement to order at 9:05 a.m.

2 Roll Call:
   Present: Sandie Arnott, Lauryn Agnew, Ben Bowler, Albert David, Natalie Kwan Lloyd, Michal Settles, and David Spinello
   Excused: Paul Hackleman and Eric Tashman
   Alternates Present: Christopher Miller and John Murphy (for Paul Hackleman)
   Staff: David Bailey, Michael Coultrip, Brenda Carlson, Gladys Smith, and Kristina Perez.

3 Oral Communications from the Public: None

4 Interview Finalists for SamCERA’s Strategic Overlay Manager (Regular Agenda Item 6.5)
   Each of the finalists appeared before the Board of Retirement, for approximately 60 minutes each, in the order listed below. The finalists gave presentations about their respective strategies and answered questions from Board members.

   BlackRock - Anthony Freitas (Managing Director) and Timothy Murray (Director) represented Black Rock.

   Clifton Group - Jack Hanson (CIO), and Ben Lazarus, (Director-Institutional Relationships) represented the Clifton Group

   State Street - Megan Hart (Senior Relationship Manager), Ola Folarin (PM), Jerry Holly (PM), and Jay Doherty (Vice President – Portfolio Solutions) represented State Street.

   The presentations from the finalists concluded at 12:05 p.m., at which time Ms. Arnott adjourned the meeting for a lunch break and reconvened at 12:35 p.m.
5 Discussion and Selection of Strategic Overlay Manager (Regular Agenda Item 6.6)
The Board discussed the selection of a strategic overlay manager, and the attributes of each finalist.  
**Action:** A motion was made by Mr. David to eliminate BlackRock as a candidate. The motion was seconded by Ms. Kwan Lloyd and approved unanimously.  
Discussion continued regarding the selection of the Clifton Group or State Street.  
**Action:** Ms. Agnew moved to select the Clifton Group as SamCERA’s Strategic Overlay Manager and authorize the Chief Executive Officer to enter into an agreement with the Clifton Group contingent upon the completion of staff’s due diligence and finalization of the terms of the agreement. The motion was seconded by Mr. David and carried unanimously.

6 **Adjournment:** With no further business, Ms. Arnott adjourned the special meeting at 1:00 p.m.

May 28, 2013—Board Minutes

1305.1 Call to Order, Roll Call and Miscellaneous Business

Call to Order: Ms. Sandie Arnott, Chair, called the Public Session of the Board of Retirement to order at 1:00 p.m. The Board met at 30 Twin Pines Lane, Belmont, CA.

Roll Call:
Present: Sandie Arnott, Lauryn Agnew, Ben Bowler, Albert David, Natalie Kwan Lloyd, Michal Settles, David Spinello, John Murphy (sat in for Paul Hackleman) and Eric Tashman.
Excused: Paul Hackleman
Alternates: Christopher Miller
Staff: David Bailey, Michael Coultrip, Brenda Carlson, Gladys Smith, Tariq Ali, Mable Wong and Kristina Perez.

1305.1.1 Appointment of Ad Hoc Nominating Committee for Board Officers: Ms. Arnott announced the appointments to the Ad-Hoc Nominating Committee. The committee will include Ms. Arnott and Mr. David, with Ms. Settles as the Chair.

1305.2.1 Oral Communications From the Board:
Ms. Arnott reported her attendance at the SACRS Spring Conference, which was held May 12-17, 2013 in Napa. The SACRS conference was also attended by Mr. David, Ms. Settles, Ms. Agnew, and Mr. Spinello. Ms. Agnew reported her attendance, and participation as a featured speaker at the “Impact Investing in the Bay Area” conference, on May 7, 2013 in San Francisco. The conference was also attended by Ms. Arnott and Ms. Kwan Lloyd.

1305.2.2 Oral Communications From the Public: Mr. Miller also reported his attendance at SACRS.

1305.2.3 Recognition of Service of John Murphy: Mr. Bailey presented Mr. Murphy with a certificate of appreciation, and thanked him on behalf of the Board, members and staff for his service to SamCERA. The certificate stated that Mr. Murphy was the first Retired Alternate ever to serve in the position, which was created by the Board of Retirement in 2006. Mr. Murphy first served beginning with the July 25, 2006 meeting, and attended his last Board meeting as Retired Alternate on May 28, 2013.

1305.3.0 Approval of the Board Meeting Minutes:
Action: Ms. Agnew moved to approve the minutes from the Board meeting held on April 23-24, 2013. The motion was seconded by Mr. Spinello and carried unanimously.

1305.4.0 Approval of the Consent Agenda: The Chair asked if there were any items to be removed from the Consent Agenda, and the consideration of disability retirement for Clarita Bundalian and Jenny Foster were taken off.
Action: Mr. Tashman moved to approve the remaining items on the Consent Agenda, and the motion was seconded by Mr. David and carried unanimously.

1305.4.1 Disability Retirements

Consent Agenda

1. The Board found that Irma Barriga is (1) disabled from performing her usual and customary duties as a Benefits Analyst II, (2) found that her disability was a result of an injury arising out of and in the course of her employment and (3) granted her application for a service-connected disability retirement.
1305.4.1 **Consent Agenda**

**Disability Retirements**

2. The Board found that Jeffrey Edralin is (1) permanently incapacitated for the performance of his duties as an Associate Systems Engineer, (2) found that his disability was not a result of an injury arising out of and in the course of his employment and (3) denied his application for a service-connected disability retirement.

3. The Board found that Desiree Martinez is (1) disabled from performing her usual and customary duties as a Public Service Specialist, (2) found that her disability was a result of an injury arising out of and in the course of her employment and (3) granted her application for a service-connected disability retirement.

1305.4.1 **Service Retirements**

1305.5.1 **Consideration of Agenda Items, if any, Removed From the Consent Agenda:** Ms. Arnott adjourned the meeting into closed session at 1:08 p.m. to consider the application of Clarita Bundalian for service-connected disability retirement.

The member was not present but was represented by counsel Stephen Booth. After hearing presentations and argument from Mr. Booth and Kathryn Meola, Deputy County Counsel, a motion was made and seconded to accept the findings and recommendation of the Hearing Officer and to deny the application for service-connected disability. The motion was approved unanimously.

The Board met in closed session in regard to the application of Jenny Foster for service-connected disability retirement. Ms. Settles recused herself and left the room as she knew the applicant.

The member was present. A motion was made and seconded to refer the matter to a Hearing Officer for findings and recommendation. The motion was approved unanimously.
The Board reconvened in open session at 1:45 p.m. Ms. Carlson reported that application of Clarita Bundalian for service-connected disability retirement was denied, and the application of Jenny Foster for service-connected disability retirement was referred to a hearing officer for findings and recommendation.

1305.5.2 Approval of Actuarial Assumptions for the June 30, 2013, Actuarial Valuation: Mr. Bailey introduced Nick Collier, of Milliman, Inc. who reviewed the actuarial assumptions and demographics with the Board. Mr. Collier went through Milliman’s report page by page and answered questions from the Board. Discussion topics included lowering the assumed rate of return; the effect of the assumption rate on contributions; the schedule of amortization of the unfunded liability; and affects of prepayments and lump sum payments from the County. Reyna Farrales from the County Manager’s Office commented, as did Michael Barber from Supervisor Pine’s Office and Jim Saco, Budget Director. Action: Ms. Agnew moved to approve the economic and demographic actuarial assumptions to be used in the June 30, 2013, actuarial valuation, including maintaining the actuarial assumed rate of return at 7.5%. The motion was seconded by Ms. Settles and carried unanimously.

1305.6.0 Investment Services

1305.6.1 Preliminary Monthly Portfolio Performance Report: Mr. Coultrip presented the report. This item was for discussion only and no action was taken.

1305.6.2 Quarterly Investment Performance Report for the Period Ending March 31, 2013: Patrick Thomas of SIS reviewed the quarterly investment performance report with the Board, noting that new pages and additional information have been added to the report. This item was for discussion only and no action was taken.

1305.6.3 Report on Core Equity Manager Annual Reviews: Mr. Coultrip reported on the annual manager reviews for BlackRock and D.E. Shaw that were held on May 2, 2013. Recent changes to the investment team at D.E. Shaw were discussed. This item was for discussion only and no action was taken.

1305.6.4 Approval of Asset Liability Study Project Kick-off and Time-line: Mr. Coultrip reviewed and discussed with the Board the benefits of the proposed asset liability study, the reasons for undertaking this project, and the anticipated time-line for implementing the study. Action: Mr. David moved to approve the launching of a new Asset Liability Study and the associated time line. The motion was seconded by Ms. Kwan Lloyd and carried unanimously.

1305.6.5 Interview Strategic Overlay Managers (Special Meeting Item #4): This item was heard in the Special Meeting held before the Regular meeting.

1305.6.6 Discussion and Approval of Strategic Overlay Manager (Special Meeting Item #5): This item was heard in the Special Meeting held before the Regular meeting.

1305.6.7 Approval of Real Duration Hedging Proposal: Mr. Coultrip reviewed the analysis provided by Brown Brothers Harriman regarding hedging a portion of SamCERA’s TIPS portfolio. The Board discussed the report. Action: Mr. David moved to approve authorizing the Chief Investment Officer to direct Brown Brothers Harriman to hedge a portion of SamCERA’s TIPS portfolio. The motion was seconded by Ms. Agnew and carried unanimously.
Ms. Arnott adjourned the meeting for a break at 3:15 p.m., and the Board reconvened at 3:25 p.m. The next item was taken out of order.

**1305.8.1 Chief Executive Officer’s Report:** Mr. Bailey reported that the Request for Proposal for the PASS system was close to release. Tariq Ali, Chief Technology Officer and Will Morrow, LRWL Project Manager, gave the Board an update on the technology project, including a status report on the enterprise content management project, and reviewed the project completion schedule.

**1305.7.0 Board & Management Support Services**

**1305.7.1 Monthly Financial Report:** Ms. Wong presented the monthly financial report to the Board. This item was informational only and no action was taken.

**1305.7.2 Discussion and Approval of SamCERA 2013-2014 Budget:** Ms. Wong reviewed the 2013-2014 budget with the Board and answered questions. 

**Action:** Mr. David moved to adopt a resolution approving SamCERA’s 2013-2014 budget. The motion was seconded by Mr. Spinello and carried unanimously.

**1305.7.3 Overview of Annual Financial Audit:** Ms. Wong reviewed the schedule and the structure of the financial audit process with the Board. This item was informational only and no action was taken.

**1305.7.4 Approval of Audit Engagement Letter:** Ms. Wong discussed the audit engagement letter with the Board, which is signed annually by the CEO and Chair of the Audit Committee, and outlines the expectations and responsibilities of the audit firm Brown Armstrong. 

**Action:** Mr. Spinello moved to authorize the Chief Executive Officer and the Audit Committee Chair, Mr. Tashman, to execute the Audit Engagement Letter for June 30, 2013, Financial Statement Audit, upon approval by legal counsel. The motion was seconded by Mr. Bowler and carried unanimously.

**1305.7.5 Approval of Fiduciary Insurance:** Ms. Smith discussed fiduciary liability insurance with the Board. She stated that the current level is $10 million in coverage. She explained that coverage for trustees and certain staff was included, at the same rate as last year of $25 per person.

**Action:** Ms. Settles moved to authorize the County’s Risk Manager to renew fiduciary liability coverage with ACORD through May 27, 2014. The motion was seconded by Mr. David and carried unanimously.

**1305.7.6 Approval of Board of Retirement’s Response to 2012-13 Grand Jury Report:** Ms. Carlson discussed the proposed response to the Grand Jury report with the Board. Board members asked questions and gave comments.

**Action:** Ms. Settles moved to approve the Board of Retirement’s responses to the applicable findings and recommendations contained in the San Mateo County 2012-13 Grand Jury Report, with additional edits and discretionary changes to be reviewed and approved by Mr. Tashman, prior to delivery. The motion was seconded by Ms. Agnew and carried unanimously.

**1305.7.7 Approval to Reschedule the July Meeting of the Board of Retirement:** Mr. Bailey discussed a date change for the July meeting with the Board. No additional available dates could be found, and no motion was made. The July 23, 2013, meeting will be held as previously scheduled.

**1305.8.0 Management Reports**

**1305.8.1 Chief Executive Officer’s Report:** Mr. Bailey reported that staff was currently working on a new logo for SamCERA and he would bring it before the Board at a future meeting.
1305.8.2 **Assistant Executive Officer’s Report:** Ms. Smith gave an update on the elections, stating the ballots had been mailed out and the election day is June 10, 2013. Ms. Smith announced that Scott Hood would be returning to his duties as Assistant Executive Officer in June, and she thanked Mr. Bailey for the opportunity to serve in Mr. Hood’s absence.

1305.8.3 **Chief Investment Officer’s Report:** Mr. Coultrip reported attending the CIO breakout session at SACRS.

1305.8.4 **Chief Legal Counsel’s Report:** Ms. Carlson reported that Contra Costa County is still in litigation regarding AB197, and she will keep the Board posted on that issue.

1305.9 **Report on Actions Taken in Closed Session:** See item 5.1

1305.10 **Adjournment:** With no further business, Ms. Arnott adjourned the meeting at 4:52 p.m. in memory of the following deceased members:

Board of Retirement

July 23, 2013

To: Board of Retirement

From: Gladys Smith, Retirement Benefits Manager

Subject: Approval of Consent Agenda

ALL ITEMS ON THE CONSENT AGENDA ARE APPROVED BY ONE ROLL CALL MOTION UNLESS A REQUEST IS MADE BY A BOARD MEMBER THAT AN ITEM BE WITHDRAWN OR TRANSFERRED TO THE REGULAR AGENDA. ANY ITEM ON THE REGULAR AGENDA MAY BE TRANSFERRED TO THE CONSENT AGENDA.

Disability Retirements

1. The Board find that Stacey Adleson is (1) permanently incapacitated for the performance of her duties as a Nurse Practitioner, (2) find that her disability was a result of an injury arising out of and in the course of her employment and (3) grant her application for a service-connected disability retirement.

2. The Board find that Carol Bello is (1) permanently incapacitated for the performance of her usual and customary duties as a Criminal Records Technician, (2) find that her disability was not a result of an injury arising out of and in the course of her employment and (3) grant her application for a non-service-connected disability retirement.

3. The Board find that Robert Belmont is (1) permanently incapacitated for the performance of his usual and customary duties as a Deputy Sheriff, (2) find that his disability was a result of an injury arising out of and in the course of his employment and (3) grant his application for a service-connected disability retirement.

4. The Board find that John Flahavan is permanently disabled from the duties of a Sheriff Sergeant and grant survivor benefits, pursuant to Government Code Section 31762, to the member’s spouse, Jennifer Flahavan.

5. The Board find that Susan Hartmann is (1) permanently incapacitated for the performance of her usual and customary duties as an Office Assistant, (2) find that her disability was not a result of an injury arising out of and in the course of her employment, (3) deny her application for a service-connected disability retirement and (4) grant her a non-service-connected disability.

6. The Board find that Dennis Mayer is (1) permanently incapacitated for the performance of his usual and customary duties as an Deputy Sheriff, (2) find that his disability was not a result of an injury arising out of and in the course of his employment, (3) deny his application for a service-connected disability retirement and (4) grant him a non-service-connected disability.

7. The Board find that Debra McGlynn is (1) permanently incapacitated for the performance of her usual and customary duties as a Communication Dispatcher, (2) find that her disability was not a result of an injury arising out of and in the course of her employment,
(3) deny her application for a service-connected disability retirement and (4) grant her a non-service-connected disability.

8. The Board find that **Jasmeet Singh** is (1) permanently incapacitated for the performance of his duties as Registered Nurse, (2) find that his disability was a result of an injury arising out of and in the course of his employment and (3) grant his application for a service-connected disability retirement.

9. The Board find that **Pamela Thompson** is (1) permanently incapacitated for the performance of her duties as Revenue Collector II, (2) find that her disability was a result of an injury arising out of and in the course of her employment and (3) grant her application for a service-connected disability retirement.

July 23, 2013

TO: Board of Retirement

FROM: David Bailey, Chief Executive Officer

SUBJECT: Approval of Questions for Annual Review of SamCERA’s Actuarial Firm – Milliman, Inc.

Staff Recommendation

Staff recommends the board review, suggest changes, and then approve the questions in the attached document entitled, “Questions for Annual Actuarial Consultant Evaluation.”

Summary

The questions in the attached document will be submitted to SamCERA’s actuary, Milliman Inc., prior to the annual review, which will be scheduled for the September 24, 2013, board meeting.

An additional part of the annual review will be the result of a survey of trustees, staff and actuary regarding the performance of the actuarial firm. This year the survey will be in electronic form. You will receive an email with a link to complete the survey. We hope this will make completion more convenient. If you’d like a hard copy of the survey, please let us know.

Staff will provide Milliman’s responses to the questionnaire as well as the survey results at the September meeting.

Attachment

The questions in the attached document will be submitted to SamCERA’s actuary, Milliman Inc.
SAN MATEO COUNTY EMPLOYEES’ RETIREMENT ASSOCIATION
Board of Retirement

Questions for Annual Actuarial Consultant Evaluation
Fiscal Year 2012-13

Organizational Update

1) What is the ownership structure of your firm? Identify all owners with 5% ownership or more.

2) Provide an update on your firm’s organization, with particular emphasis on (a) changes to your management structure over the past eighteen months, and (b) clients gained or lost in the past eighteen months. All significant changes should be accompanied by an explanation. An organizational chart should accompany this response.

3) Provide a list of services available through your firm, including the number of staff supporting those services.

4) What are your firm’s philosophy and current policy regarding new business?

5) Specify separately the individuals (up to five) who you feel are key to the success of your firm. If the list has changed in the last eighteen months, identify and explain the change(s).

6) Update all significant personnel changes or expected changes to the "SamCERA Team".

7) Has your firm or any of its employees been involved in regulatory or litigation actions related to your business in the past eighteen months?

8) Has an actuarial audit been performed on any of your firm’s actuarial products in the past eighteen months? If yes, discuss the audit and the findings. Any material findings or recommendations must be accompanied by an explanation.

9) Describe the levels of insurance coverage maintained by your firm. E-mail a current certification of insurance to mwong@samcera.org.

10) Do you have a written policy on ethics? If so, please e-mail the policy to mwong@samera.org.

11) Describe the relative strength and longevity of your staff. Are any of your operations outsourced? If the answer is yes, provide details regarding the firm(s) with which your firm has contracted.

12) What are your mission critical systems? Has your firm experienced any problems with these systems in the past eighteen months? When were these systems implemented and when were they last upgraded? Do you anticipate any changes to these systems in the next eighteen months?

13) Provide an overview of your firm's business continuity plan.
Actuarial Process

14) Provide a description, in detail, of your actuarial process.

15) Describe your peer review procedures in detail.

16) Does your firm engage in peer review with other actuarial firms?

Outlook

17) What issues are other clients concerned with in regards to products, services, education and governance?

18) Describe your assessment of the relationship between your firm and SamCERA. How can SamCERA better assist you in accomplishing the goals it has established for your firm? How can we better utilize your firm’s capabilities?

19) What is your firm’s outlook and readiness regarding implementation of the enacted changes in GASB 67 and 68 accounting standards relative to the pension industry? Please list and discuss each proposal separately.

Conclusion

20) Is there any information that would be timely pursuant to SamCERA’s contract and this annual review?

21) Are your clients making significant changes in their asset mixes or economic and non-economic assumptions or other structural changes to the actuarial overview of their plans? Describe these changes.

22) What actuarial related changes should SamCERA consider?

23) Relative to your expertise, what trends are occurring in the retirement industry that SamCERA should be tracking?
July 23, 2013

Agenda Item 4.3

To: Board of Retirement

From: Mabel Wong, Retirement Finance Officer

Subject: Approval of Questions for Annual Review of SamCERA's Independent Financial Auditor – Brown Armstrong Accountancy Corporation

Staff Recommendation

Staff recommends the board review, suggest changes, and then approve the questions in the attached document entitled, “Questions for Annual Independent Auditor Evaluation.”

Summary

The questions in the attached document will be submitted to SamCERA’s independent auditor, Brown Armstrong Accountancy Corporation, prior to the annual review, which will be scheduled for the October 22, 2013, board meeting.

An additional part of the annual review will be the result of a survey of trustees, staff and auditor regarding the performance of the audit firm. This year the survey will be in electronic form. You will receive an email with a link to complete the survey. We hope this will make completion more convenient. If you’d like a hard copy of the survey, please let us know.

Staff will provide Brown Armstrong’s responses to the questionnaire as well as the survey results at the October meeting.

Attachment

The questions in the attached document will be submitted to SamCERA's independent financial auditor, Brown Armstrong Accountancy Corporation.
Questions for Annual Independent Auditor Evaluation  
Fiscal Year 2012-2013  

Organizational Update

1) What is the ownership structure of your firm? Identify all owners with 5% ownership or more.

2) Provide an update on your firm’s organization, with particular emphasis on (a) changes to your management structure over the past eighteen months, and (b) public clients gained or lost in the past eighteen months. All significant changes should be accompanied by an explanation. An organizational chart should accompany this response.

3) Provide a list of services available through your firm, including the number of staff supporting those services.

4) What are your firm’s philosophy and current policy regarding new business?

5) Specify separately the individuals (up to five) who you feel are key to the success of your firm. If the list has changed in the last eighteen months, identify and explain the change(s).

6) Update all significant personnel changes to the "SamCERA Team."

7) Has your firm or any of its employees been involved in regulatory or litigation actions related to your business in the past eighteen months?

8) Has a peer review been performed on any of your firm’s audit products? If yes, discuss the review and the findings. Any material findings or recommendations must be accompanied by an explanation.

9) Describe the levels of insurance coverage maintained by your firm. E-mail a current certification of insurance to mwong@samcera.org.

10) Do you have a written policy on ethics? If so, please e-mail the policy to mwong@samcera.org.

11) Describe the relative strength and longevity of your staff. Are any of your operations outsourced? If the answer is yes, provide details regarding the firm(s) with which your firm has contracted.

12) What are your mission critical systems? Has your firm experienced any problems with these systems in the past eighteen months? When were these systems implemented and when were they last upgraded? Do you anticipate any changes to these systems in the next eighteen months?

13) Provide an overview of your firm’s business continuity plan.
Audit Process

14) Provide a description, in detail, of your audit process.
15) What changes to the process resulted from going paperless?
16) Describe your internal peer review procedures in detail.
17) Does your firm engage in peer review with other audit firm? Please provide details.

Outlook

18) What issues are other clients concerned with in regards to products, services, education and governance?
19) What is your firm’s outlook and readiness regarding implementation of the enacted changes in GASB 67 and 68 accounting standards relative to the pension industry? Please list and discuss each proposal separately.
20) Describe your assessment of the relationship between your firm and SamCERA. How can SamCERA better assist you in accomplishing the goals it has established for your firm? How can we better utilize your firm’s capabilities?

Conclusion

21) Is there any information that would be timely pursuant to SamCERA’s contract and this annual review?
22) Are your clients making significant changes in their asset mixes or economic and non-economic assumptions? Describe these changes.
23) What audit related changes should SamCERA consider?
24) Relative to your expertise, what trends are occurring in the retirement industry that SamCERA should be tracking?
TO: Board of Retirement

FROM: David Bailey, Chief Executive Officer

SUBJECT: Ratification of Responses to the 2012-13 Civil Grand Jury Report

Staff Recommendation

Ratify the final version of the Board of Retirement’s responses to the applicable findings and recommendations contained in the San Mateo County 2012-13 Civil Grand Jury Report.

Background

On April 15, 2013, the Civil Grand Jury filed its report regarding SamCERA’s unfunded liability. The Board of Retirement is statutorily required to submit to the Court its responses to findings and recommendations pertaining to matters under the control of the Board by July 15th. At the May 23rd Board meeting, the Board approved the draft responses, directed staff to work on edits and to have Mr. Tashman approve the changes prior to timely submitting the final version to the Court.

Discussion

Pursuant to the Board’s direction, edits were made and approved by Mr. Tashman. During this process additional responses were added for two recommendations. These also were approved by Mr. Tashman. The final version of the report was submitted to the Court. Although staff was not directed to return the final version of the report to the Board for approval, staff is seeking the Board’s approval of the final version. If further changes are needed, an amended response can be filed.

Attachment

“Responses of the San Mateo County Employees’ Retirement Association Board of Retirement to Findings and Recommendations of the San Mateo County Civil Grand Jury In Its Report: SamCERA’s Unfunded Liability: The Elephant In The Room.”
RESPONSES
OF THE SAN MATEO COUNTY EMPLOYEES’ RETIREMENT ASSOCIATION
BOARD OF RETIREMENT
TO FINDINGS AND RECOMMENDATIONS OF THE SAN MATEO COUNTY
2012-13 CIVIL GRAND JURY REPORT:
SAMCERA’S UNFUNDED LIABILITY: THE ELEPHANT IN THE ROOM

FINDINGS

F1. Board of Supervisors has failed adequately to address SamCERA’s unfunded liability because it has not (i) properly monitored the performance of SamCERA’s investment portfolio, (ii) made contributions sufficient to cause SamCERA’s funding to be sound or (iii) taken steps to reduce the County’s retirement costs significantly.

Board of Retirement Response To F1: Disagree.

(i) The County and SamCERA have worked collaboratively and aggressively to manage retirement costs in the wake of the recession. In fact, the County has exceeded funding requirements and continues its unwavering commitment to meet or exceed its actuarial and legal commitments to the plan.

(ii) SamCERA works with an independent firm to annually perform an actuarial valuation of the fund. The valuation is conducted in compliance with the Actuarial Standards of Practice of the Actuarial Standards Board. Pursuant to Government Code section 31453, this actuarial valuation covers the mortality, service, and compensation experience of the members and beneficiaries, and evaluates the assets and liabilities of the retirement fund. The actuary makes a recommendation of the contribution rates for the employer and employees to ensure the soundness of the system.

In collaboration with the County, for the last two years the Board of Retirement has held the County’s average contribution rate at a level higher than called for by the actuarial process, thereby paying down the unfunded liability faster and further strengthening the fund. The County contributed an additional $11.5 million in the 2011-12 fiscal year and is contributing a projected additional $12.7 million in the 2012-13 fiscal year.

In addition:

• SamCERA employs a 15-year amortization period for it unfunded liability. No California plan has a shorter fixed amortization period. The County is supportive of the amortization period.

• SamCERA has one of the lowest assumed earnings rates of California plans. When SamCERA lowered its assumed earnings rate, the rate was reviewed and approved
by the Board of Supervisors. The rate is reviewed annually and will continue to receive attention as the U.S. and world economies evolve following the recession.

- In a recent actuarial study of California public pension plans, SamCERA ranked third most conservative in its funding approach. This was mainly due to SamCERA’s conservative assumed earnings rate and the shortness of its amortization period for unfunded liabilities (15 years).

(iii) In 2011, the County adopted lower benefit formulas for new employees, reducing long-term costs.

In 2013, the statewide PEPRA plan was made effective for new SamCERA members, again reducing plan costs.

Since the recession, the County has eliminated approximately 10% of its workforce, lowering the costs of the pension plan as well as other compensation costs.

The Public Pension Coordinating Council presented SamCERA its Public Pension Standards Award for 2012. The award recognizes that SamCERA has met professional standards for plan funding and administration as set forth in the Public Pension Standards of the Council. The standards judge retirement systems on their Funding Adequacy, Comprehensive Benefit Program, Actuarial Valuation, Independent Audit, Investments and Communications.

**F2. SamCERA’s Board of retirement has not adequately addressed SamCERA’s unfunded liability in that it has adopted an assumed rate of return that does not sufficiently recognize the guaranteed status of its participants’ benefits.**

Board of Retirement Response To F2: Disagree.

SamCERA, the County and other SamCERA employers will recognize the “guaranteed status” of SamCERA benefits in their accounting reports, as required by new statements from the Government Accounting Standards Board. But the GASB statements are not intended to have any impact on SamCERA’s assumed rate of return.

GASB has made it clear that its new statements are not to effect pension funding decisions and that such decisions should continue to be determined by the plans and their actuaries using actuarial standards of practice. In announcing its new accounting statements GASB noted, emphasis added:

“It should be emphasized up front that these new Statements relate only to accounting and financial reporting—that is, how pension costs and obligations are measured and reported in audited external financial reports. The new pronouncements do not address how governments approach pension plan funding—their policy regarding how much money to contribute to a pension plan each year. While for some time there has been a close relationship between how governments fund pensions and how they account for them, the new Statements decisively shift from a funding-based approach to an accrual accounting-based approach.”

The Actuarial Standards Board issues guidance regarding actuarial standards. SamCERA bases its funding on Actuarial Standards of Practice as well as California Law governing
the pension plan. Pursuant to Government Code section 31453, an actuarial valuation is made by an actuary and covers the mortality, service, and compensation experience of the members and beneficiaries, and evaluates the assets and liabilities of the retirement fund. The actuary makes a recommendation of the contribution rates for the employer and employees to ensure the soundness of the system.

Upon the basis of the investigation, valuation, and recommendation of the actuary, the Board of Retirement recommends to the Board of Supervisors the changes in the rates of interest, in the rates of contributions of members, and in county and district appropriations as are necessary. As previously stated, SamCERA has one of the lowest assumed earnings rates of California plans.

F3. SamCERA’s unfunded liability is materially greater than $962,282,000 as reported in the SamCERA CAFR for FY2012, and is probably closer to $2 billion.

Board of Retirement Response To F3: Disagree.

Again, this is a misunderstanding of the intent of GASB’s new accounting statements. One calls for a measure of the unfunded liability at a bond rate in order to recognize the guaranteed nature of SamCERA benefits in a way similar to other guaranteed government debt. This accounting measure will be shown along with all other accounting data in future annual financial reports. It is not to be used for pension funding purposes and will not have an influence on the costs of the retirement system. GASB has attempted to make that clear. (See response to F2 above.)

For the Grand Jury’s finding to be true, the entire SamCERA fund would have to be invested only in bonds. SamCERA manages a diversified portfolio of which, as of April 30, 2013, only about 20% is in bonds. The remainder is in asset classes expected to earn higher amounts than bonds over the long term.

Moreover, if SamCERA took the Grand Jury’s approach of estimating its liability as if the fund were only in bonds, SamCERA would be in violation of California law.

Government Code section 7503 provides that, “All state and local public retirement systems shall prepare an annual report in accordance with generally accepted accounting principles.”

The primary source of these principles is GASB, which provides that: “… the investment return assumption (discount rate) should be based on an estimated long-term investment yield for the plan, with consideration given to the nature and mix of current and expected plan investment ….” (GASB 25, paragraph 36c, emphasis added.) GASB 67, which will be effective in 2014, amends GASB 25, and as summarized by GASB, provides that:

“To the extent that a pension plan’s net position and projected contributions associated with active and inactive employees, including retirees, is expected to fully cover projected benefit payments for those individuals, the long-term expected rate of return will be used. If there comes a point in the projections when plan net position and contributions related to active and inactive employees is no longer projected to be greater than
or equal to projected benefit payments related to those employees and administrative expenses, then from that point forward a government would be required to discount the projected benefit payments using a municipal borrowing rate—a tax-exempt, high-quality (an average rating of AA/Aa or higher, including equivalent ratings) 20-year general obligation bond index rate.” (Emphasis added.)

SamCERA has not reached, nor is it anticipated to reach a point when plan net position and contributions related to active and inactive employees are no longer projected to be greater than or equal to projected benefit payments related to those employees and administrative expenses. Therefore, the long-term expected rate of return will continue to be used, in accordance with GASB.

Nor could SamCERA’s actuary use the approach taken by the Grand Jury. Actuarial Standards of Practice No. 27, paragraph 3.6 regarding the Selection of Economic Assumptions for Measuring Pension Obligations provides:

“The investment return assumption reflects anticipated returns on the plan’s current and future assets. The discount rate is used to determine the present value of expected future plan payments. Generally, the appropriate discount rate is the same as the investment return assumption.” (Emphasis added.)

As reflected above, the current standards set by GASB and the Actuarial Standards Board prevent SamCERA from using the approach on which the Grand Jury bases its finding. Moreover, even if the law allowed using a bond-based assumption, it would be illogical to do so considering that bonds make up only a minority portion of the SamCERA portfolio.

F4. SamCERA’s assumed rate of return of 7.5% is unrealistic given the actual rate of return of SamCERA’s investments over the past 10 years (5.54%) and the discount rate (4%) used by the 100 largest public companies in calculating their unfunded liabilities.

Board of Retirement Response To F4: Disagree.

As of March 31, 2013, the fund had earned a net preliminary return of 7.6% over the prior ten years (including the recession). These are the most recent quarterly figures available and exceed the current assumed earnings rate of 7.5%.

The discount rates for corporate pension plan liabilities are calculated under a separate set of federal laws and accounting rules designed to consider the risks of business-supported pension plans. Public sector pension plans operate under a different set of rules. (See the response to F3 above.)
F5. SamCERA’s investment performance over the past 10-year period has been poor.
Board of Retirement Response To F5: Disagree.
As of March 31, 2013, the fund had earned a net preliminary return of 7.6% over the prior ten years (including the recession). These are the most recent quarterly figures available and exceed the current assumed earnings rate of 7.5%.
SamCERA has been nominated for Small Plan of the Year two out of the last three years, due to the repositioning of its portfolio (adding alternative investments and further diversifying the fixed income and international equity portfolios. in recognition of the changes in the U.S. economy following the recession. Only three plans out of more than 100 nationwide are nominated. The awards program is sponsored by Money Management Letter. Below is an excerpt from the 2012 nomination statement:

“The $2.36 billion San Mateo (Calif.) Employees Retirement Association restructured its equities portfolio this year, significantly bolstering international exposure and cutting U.S. equities costs. As a result, it delivered returns of 11.74% as of Sept. 30, beating its peer group which returned on average 10.7% for the same period, according to the Independent Consultants Cooperative’s universe of funds over $100 million.”

F6. SamCERA’s Board of Retirement can create liabilities that are required by law to be paid by the Board of Supervisors.
Board of Retirement Response To F6: Disagree.
Pension liabilities are created by members earning pension benefits in accordance with the Government Code based on plans approved by the Board of Supervisors and/or mandated by state law. These costs are paid for by member contributions, employer contributions and investment earnings.

F7. County taxpayers, not SamCERA’s beneficiaries, bear the economic burden of SamCERA’s investment performance because reduced County services, tax increases, or both, are required to pay SamCERA’s unfunded liability.
Board of Retirement Response To F7: This finding should more appropriately be addressed by the County. Therefore, SamCERA submits no response.

F8. There is no assurance that SamCERA’s change in investment strategy to include a significant allocation to alternative investments will produce better returns than the previous strategy or reduce the risk of its portfolio.
Board of Retirement Response To F8: Agree.
There is no assurance regarding any diversified investment strategy. But investing the assets of the fund has significantly increased the value of the fund over the long term and thereby provided assets available to pay benefits that would otherwise have had to be
contributed by employers and members. Investing the assets of the fund lowers the cost of benefits.

In order to continue to help pay for benefits with investment returns, it is the role of the Retirement Board to determine the most appropriate investments for the fund. Working with its investment staff and investment-consulting firm, the Board has determined that an allocation of a portion of the fund to alternative assets will provide the best return for a reasonable level of risk.

F9. The Board of Supervisors has not committed to using any portion of Measure A sales tax revenues to increase contributions to SamCERA to pay down SamCERA’s unfunded liability.

Board of Retirement Response To F9: This finding is not directed to the Board of Retirement, and as such the Board of Retirement submits no response to this finding.

F10. The effects of the 2011 Changes and the adoption of PEPRA, both intended to reduce retirement costs, are minimal, apply principally to new hires, and will not yield significant savings when compared to the size of SamCERA’s unfunded liability.

Board of Retirement Response To F10: Partially Agree.

The words “minimal” and “significant” are subjective. It is unclear at what point in time these subjective conclusions are to be made. The Board cannot agree with the statement as worded.

(The county’s changes were only in effect for approx. one year before PEPRA, and those changes did not include elimination of airtime.)

That being said, as the 2011 Changes and the adoption of PEPRA will largely affect only new employees, the Board agrees that it will take time before the benefits of these changes become significant relative to the retirement system’s current unfunded liability. The reduction in retirement costs due to PEPRA and the 2011 changes will begin at a lower level and increase every year as the percentage of employees with these lower benefit plans increases.

F11. The longer the Board of Supervisors delays in eliminating SamCERA’s unfunded liability, the greater the cost will be to do so, and the more the burden of doing so will fall on the next generation.

Board of Retirement Response To F11: Disagree.

The Grand Jury’s statement is premised on an opinion that there has been a “delay” by the Board of Supervisors in eliminating the unfunded liability.

This has not been the case. The Board of Supervisors has made timely and appropriate payments to the system as recommended by the actuary and it has taken steps to reduce costs.
The statement also fails to consider the contributions of all employers taking part in the SamCERA system or that unfunded liabilities are eliminated by a combination of employer contributions and investment earnings.

**F12. The financial reporting in the SamCERA PAFR can be improved.**

Board of Retirement Response To F12: Agree.

SamCERA strives for continuous improvement. That said SamCERA is proud of its Popular Annual Financial Report (PAFR). The Government Finance Officers Association has honored the SamCERA PAFR with its Award for Outstanding Achievement in Popular Annual Financial Reporting for nine consecutive years.

**RECOMMENDATIONS**

The Grand Jury recommends that SamCERA’s Board of Retirement do the following:

**R1. Adopt a policy to reduce SamCERA’s assumed rate of return by 0.25% per year until such time as it has achieved a funded ratio of 90%.**

Board of Retirement Response To R1: The recommendation will not be implemented because it is not warranted and is not reasonable.

The Retirement Board sets the assumed earnings rate based on what the Board, in consultation with its actuarial and investment advisors and staff, projects the assets of the fund to earn in the future. The recommendation calls for an arbitrary rate, designed to manipulate contributions to the fund, unrelated to the Board’s projection of earnings.

In addition, actuarial and accounting rules prudently prevent such an arbitrary approach. As reflected by provisions cited in response to Finding 3 above, the current standards set by GASB (“the investment return assumption should be based on an estimated long-term investment yield for the plan, with consideration given to the nature and mix of current and expected plan investment”) and the Actuarial Standards Board (“The investment return assumption reflects anticipated returns on the plan’s current and future assets”) prevent SamCERA from taking the approach that the Grand Jury has recommended.

**R2. Once a funded ratio of 90% has been achieved, establish SamCERA’s assumed rate of return each year by taking into consideration the guaranteed nature of its participants’ benefits and relevant macro-economic factors while disregarding (i) the effect, if any, the assumed rate of return will have on required contributions to SamCERA and (ii) the assumed rates of return of other public pension funds.**

Board of Retirement Response To R2: The recommendation will not be implemented because it is not warranted and is not reasonable.

Using a rate that reflects the guaranteed nature of the retirement benefits is an accounting measure recommended by the Government Accounting Standards Board for accounting purposes only. GASB has recommended an accounting change to show the unfunded
liability of pension funds based on an assumed earnings rate commensurate with other guaranteed government debts. GASB has made it clear that this is an accounting change only.

As reflected by provisions cited in response to Finding 3 above, the current standards set by GASB (“the investment return assumption should be based on an estimated long-term investment yield for the plan, with consideration given to the nature and mix of current and expected plan investment”) and the Actuarial Standards Board (“The investment return assumption reflects anticipated returns on the plan’s current and future assets”) prevent SamCERA from taking the approach that the Grand Jury has recommended.

Moreover, establishing the assumed earnings rate at a rate lower that what the Retirement Board actually believes the fund is likely to earn would drive up employer contribution rates to levels that would not be considered necessary or prudent.

Finally, in regards to the statement that the assumed rate should be established by “taking into consideration the guaranteed nature of its participants’ benefits and relevant macro-economic factors,” by statute, SamCERA’s actuarial valuation is conducted in compliance with the Actuarial Standards Board and state law. Pursuant to Government Code section 31453, this actuarial valuation covers the mortality, service, and compensation experience of the members and beneficiaries, and evaluates the assets and liabilities of the retirement fund.

R3. Include in the SamCERA CAFR and SamCERA PAFR, the following information in tabular form:

a. For each of the past one, three, five, and ten fiscal years:
   i. Its annual investment earnings (or losses) stated as a percentage and in dollars, both net of investment costs
   ii. Its actual rates of return as compared with its assumed rates of return
   iii. Its peer rankings
   iv. The peer rankings of each of its investment managers for which such rankings are available
b. The unfunded liability amount for each of the past 10 years
c. The amount contributed by the County to SamCERA attributable solely to its unfunded liability for each of the past 10 years
d. The number of beneficiaries receiving annual benefits for each of the past five years in the following amounts:
   i. $100,000 - $149,999
   ii. $150,000 - $199,999
   iii. $200,000 and up
e. The average and median annual benefit paid to SamCERA beneficiaries for the past five years

Board of Retirement Response To R3: The recommendation will not be implemented because it is not warranted.
SamCERA provides information in its CAFR and PAFR in compliance with the recommendations of the Government Accounting Standards Board, an organization of financial professionals. SamCERA also produces a Monthly Financial Report, a Monthly Portfolio Performance Report, a Quarterly Portfolio Performance Report, a Comprehensive Annual Financial Report, and an annual Actuarial Valuation Report. Much of the information in the above recommendation is included in these reports as well as other significant data and information. All the reports are available to the public through SamCERA’s website or other means as requested.

**R4. Replicate on SamCERA’s website, modified to apply to SamCERA, CalPERS “Facts at a Glance.”**

Board of Retirement Response To R4: The recommendation will not be implemented because it is not warranted or reasonable.

Nearly all the information in the “Facts at a Glance” is produced regularly by SamCERA and is available on the SamCERA website.

**R5. Employ only investment managers for its alternative assets that rank in the top 10% of their peer group for at least the past five years.**

Board of Retirement Response To R5: The recommendation will not be implemented because it is not warranted and is not reasonable.

SamCERA reviews a vastly greater amount of information in making investment manager selections. Relying only on past performance and peer group rankings when selecting managers, especially within the alternatives universe, is a sub-optimal way to manage an investment portfolio. Instead, SamCERA, in addition to historical performance, also investigates such items as organization history, the quality and consistency of the team, investment process, sourcing of ideas, risk controls, etc. in order to assess the sustainability of future performance. Certain managers perform better in certain economic markets and such performance is not necessarily a predictor of performance in current or future markets. Historical performance is considered, but it is one of many factors used to determine whether or not to invest with a certain investment manager.

The Grand Jury recommends that SamCERA’s Board of Retirement and the County’s Board of Supervisors do the following:

**R14. Acknowledge that the reported unfunded liability of $962,282,000 is materially understated if either a risk free rate of return or SamCERA’s actual rate of return over the past 10 years is used in its calculation.**

Board of Response to R14. The recommendation will not be implemented because it is not warranted and is not reasonable.
SamCERA states its unfunded liability in accordance with the applicable standards of the Actuarial Standards Board and GASB. The recommendation is not in accordance with those standards. Accordingly, it would not be appropriate for the Board to state its unfunded liability using a different standard.

**R15. Annually compare SamCERA’s unfunded liability calculated in accordance with GASB Statement 68 with its unfunded liability calculated utilizing a risk free rate of return and SamCERA’s actual rate of return over the past 10 years.**

Board of Retirement Response To R15: The recommendation will not be implemented because it is not warranted and is not reasonable.

Comparing an accounting measure of future liability using the “risk-free rate” to a past period of investment earnings would not provide significant insights nor serve any purpose for the Board of Retirement.
July 23, 2013

TO: Board of Retirement

FROM: Lilibeth Dames, Investment Analyst

SUBJECT: Acceptance Of Semi-Annual Compliance Certification Statements For Period Ending June 30, 2013

Staff Recommendation:

Staff recommends that the Board review and accept the semi-annual Compliance Certification Statements for SamCERA's non-alternative investment managers, as of June 30, 2013.

Background:

The Compliance Certification Statement sets forth the status of certain pertinent guideline issues and provisions in SamCERA’s Investment Policy. In accordance with the policy and as part of SamCERA’s ongoing due diligence, the Compliance Certification Statement is completed by each of the association’s non-alternative investment managers on a semi-annual basis to attest its compliance with the policy’s provisions.

Discussion:

The attached Compliance Certification Statements report that SamCERA's investment managers are in compliance with SamCERA's Investment Policy as of June 30, 2013. No firm reported significant developments in portfolio construction, investment approach, firm ownership or organizational structure. Nor were there any notable issues regarding industry or regulatory actions that impact SamCERA. The managers were also requested to provide data regarding the characteristics and composition of each of their portfolios. No prominent issues arose during the review. Any items that raise concern will be brought to the manager’s attention and will be thoroughly vetted by staff.

Please note that Compliance Certification Statements for Brigade and D.E. Shaw were not received in time to be included in the mailing, but they will be included in the day-of folder for the July meeting or in the August board packet.

D. **Domestic Fixed Income:** Angelo Gordon, Brown Brothers Harriman, Pyramis, Western
E. **Global Fixed Income:** Franklin Templeton
F. **Real Estate:** INVECO
In accordance with the Investment Objectives and Policy Statement, the following compliance worksheet will be completed by each of SamCERA's investment managers on a semi-annual basis. These statements must be e-mailed to SamCERA's office (Investments@samcera.org) by Monday, July 15, 2013.

**General Compliance Issues**

1. Has the firm acted as a fiduciary and invested its assets for the sole benefit of SamCERA? (Section 19.4(a)) Yes/No: ___ If no, please explain. Yes.

2. Are SamCERA's market benchmarks in the respective asset class areas acceptable to the firm? (Section 6.3) Yes/No: ___ If no, please explain. Yes.

3. Has the firm’s insurance coverage been sustained? (Section 19.4(c)) Yes/No: ___ If no, please explain. Yes.

4. Does the firm consider any of SamCERA's investment objectives unreasonable? (Section 6.0) Yes/No: ___ If yes, please explain. No.

5. Have there been any significant portfolio developments, major changes in firm ownership, organizational structure and personnel? (Section 19.4(j)) Yes/No: _ If yes, please explain. No.

6. Have there been any changes in the firm’s investment approach? (Section 19.4(e)) Yes/No: ___ If yes, please explain. No.

7. Do SamCERA's guidelines require your firm to manage the portfolio significantly differently than other similar portfolios? (Section 9.1) Yes/No: ___ If yes, please explain. No.

8. Have there have been any industry or regulatory disciplinary actions taken against the firm? (Section 19.4(a)) Yes/No: ___ If yes, please explain. No.

9. Have there been any investment guideline breaches during the prior 6 months? If so, please provide more detail. No.

10. Have proxy ballots been voted in accordance with the best economic interest of SamCERA and in a manner consistent with the Board’s proxy policies? (Section 22.0) Yes/No: ___ If no, please explain. Yes.
Investment Management Fees

1. Is SamCERA’s investment management fee schedule higher than those charged other institutional clients who hold an account investment substantially similar to ours? If yes, please explain. No.

Derivative Investments

1. Are derivatives used in the management of the investment strategy? Yes/No: ___ If Yes, please answer the remaining questions in this section. If No, please skip the remaining questions in this section. N/A. We do not utilize derivatives.

2. Are derivative investments in compliance with SamCERA's investment policies? (Appendix C) Yes/No: ___ If no, please explain.

3. If the firm entered into a non-exchange traded derivative, was the general nature and associated risks of the counter-party fully evaluated? (Appendix C(5)) Yes/No: ___ If no, please explain.

4. For non-exchange traded derivative transactions, were the counter-parties broker/dealers? (Appendix C(5)) Yes/No: ___ If yes: Do the counter-parties have investment grade debt? Yes/No: ___ Are the counter-parties registered with the SEC and do they have net capital to protect against potential adverse market circumstances? Yes/No: ___ If no, please explain.

5. For non-exchange traded derivative transactions, were the counter-parties financial institutions (banks)? (Appendix C(5)) Yes/No: ___ If yes: Do the counter-parties have investment grade debt? Yes/No: ___ Do the counter-parties have total assets in excess of $1 billion, and significant net capital to protect against potential adverse market circumstances? Yes/No: ___ If no, please explain.

6. Is individual counter-party exposure well diversified? (Appendix C(5)) Yes/No: ___ If no, please explain. What is the largest exposure to a single counter-party within the portfolio? Please specify the name of the counter-party and the amount of exposure. Have there been any changes to the investment manager’s list of approved counter-parties over the past month?

7. Are the investment purposes for a derivative investment consistent with the four purposes stated in SamCERA's policies? (Appendix C(6)) Yes/No: ___ If no, please explain. Has the firm developed any new purposes for derivative investments? Yes/No: ___ If yes, please explain.

8. List all limited allocation derivative investments individually and the percentage of the portfolio’s assets represented by each investment. (Appendix C(7)) State if the firm has evaluated the exposure to market value losses that can occur from each of these derivatives. Yes/No: ___ If no, please explain. State if these derivative investments in total represent more than 5% of the portfolio’s market value. If more than 5%, please explain.
9. State if any restricted derivative investments are held in SamCERA’s portfolios. Yes/No: ___ If any are held, state the percentage of the portfolio’s assets held in such derivatives and why the firm is not in compliance with the investment policies. (Appendix C(7))

10. For derivative investments with allocation limits, has the firm tested and measured these investments’ sensitivities to changes in key risk factors? (Appendix C(8)) Yes/No: ___ If no, please explain.

11. Have all derivative investments been made in a manner consistent with the derivative investment process specified in the policy statement? (Appendix C(9)) Yes/No: ___ If no, please explain.

12. Specify the security pricing sources used when developing portfolio market value exposures for limited allocation derivatives. ((Appendix C(10 b))

13. Provide a statement regarding the liquidity of the derivative investments. Provide a general statement discussing the legal and regulatory risks associated with the portfolio manager's investments in derivatives.

14. State if the legal and regulatory risk associated with portfolio derivative investments have changed over the past six months. (Appendix C(10 g)) Yes/No: ___ If yes, please explain.

**Investment Manager Guidelines**

1. Are portfolio holdings well-diversified, and made in liquid securities? (Section 5.0) Yes/No: ___ If no, please explain. Yes.

2. Has the firm engaged in short selling, use of leverage or margin and/or investments in commodities? Yes/No: ___ If yes, please explain. No.

**Cash & Equivalents**

1. Does the firm directly invest in short term fixed income investments? Yes/No: ___ If yes, do the investments comply with the policies? (Section 11.0) Yes/No: ___ If no, please explain. No. We do not manage cash for our clients.

**Domestic Equity Portfolios (Large, Mid & Small)**

1. Please state the percentage of the portfolio held in each of the following types of securities (Section 19.4 j)
   
   At June 30, 2013, the portfolio held the following:
   
   Cash 1.4%
   Common Stock 98.6%
   Preferred Stock 0%
   Convertible Stock 0%
2. Specify the large, mid and small capitalization exposure of the portfolios? (Section 19.4 j) Please specify percentages.
At December 31, 2012, the firm’s allocation within equities is below:
- Large Caps: 79%
- Mid Caps: 9%
- Small Caps: 4%
- International*: 9%

*Includes Global & Emerging Markets

3. Specify the percentage of the portfolio that is invested in American Depository Receipts (ADR’s). (Section 19.4 j) Also, specify the percentage of the portfolio invested in ADR securities that are 144A securities. If greater than 10%, explain why.
At June 30, 2013, the portfolio held 6.24% ADR’s and none were 144A securities. (Cash positions are not used in the calculation).

3. Does the portfolio invest in emerging and/or frontier markets? Yes/No: ___ If yes, please specify the percentage(s) of the portfolio invested in emerging and/or frontier markets No.

4. What is the largest percentage of the portfolio represented by a single security? (Section 19.4 j) Specify the name of the security and percentage amount. If any securities were above 5% at the time of purchase, please list and explain why.
At June 30, 2013, the largest security holding was Capital One Financial Corp. with a weighting of 2.93%. (Cash positions are not used in the calculation).

5. Based on NAICS codes, what is the largest percentage of the portfolio represented by a single industry? (Section 10.3 a). Specify the industry and percentage amount. Please specify all industries above 15%.
BHMS uses the GICS classification system for our portfolio analysis. At June 30, 2013, the largest industry weighting was Consumer Finance, which held an 8.3% weighting. (Cash positions are not used in the calculation).

Title: Chief Compliance Officer
Dated: July 5, 2013
Name of Firm: Barrow, Hanley, Mewhinney & Strauss LLC
In accordance with the Investment Objectives and Policy Statement, the following compliance worksheet will be completed by each of SamCERA’s investment managers on a semi-annual basis. These statements must be e-mailed to SamCERA’s office (Investments@samcera.org) by Monday, July 15, 2013.

General Compliance Issues

1. Has the firm’s insurance coverage been sustained? (Section 19.4(c)) Yes/No: Yes If no, please explain.

2. Have there been any significant portfolio developments, major changes in firm ownership, organizational structure and personnel? (Section 19.4(j)) Yes/No: Yes If yes, please explain.

BlackRock announced on 10 January 2013 that it has entered into a definitive agreement to acquire Credit Suisse’s Exchange-Traded Fund (“ETF”) franchise, a European ETF platform with funds domiciled in Switzerland, Ireland and Luxembourg that will complement the existing iShares offering. The combined iShares platform will comprise 264 ETFs and $157.6 billion in assets under management as of December 2012. Following the appropriate regulatory approvals and satisfaction of customary closing conditions, the deal is expected to close in the second quarter of 2013.

3. Have there been any changes in the firm’s investment approach? (Section 19.4(e)) Yes/No: No If yes, please explain.

4. Have there have been any industry or regulatory disciplinary actions taken against the firm? (Section 19.4(a)) Yes/No: No If yes, please explain.

From time to time, BlackRock and its affiliates (collectively, “BlackRock”) are subject to examinations and inspections by the SEC, DOL, FINRA and the CFTC, among others. Our regulators routinely provide us with comment letters as a result of these examinations in which they request that BlackRock correct or modify certain of our practices. In all such instances, BlackRock has addressed these requests promptly to ensure that it continues to operate in compliance with applicable laws, statutes and regulations.

Additionally, from time to time, BlackRock receives subpoenas or requests for information in connection with regulatory inquiries and/or investigations by its various regulators, some of which are ongoing. Other than as noted below or as disclosed in the applicable Form ADVs of our various U.S.-registered advisers, none of these regulatory matters have resulted in any formal proceedings or any other sort of discipline against BlackRock that has had any adverse impact on our ability to manage our clients’ assets.

On 8 March 2012, BlackRock Institutional Trust Company, N.A. (“BTC”) entered into an Offer of Settlement (the “Agreement”) with the CFTC and consented to the entry of an Order, which makes findings and imposes remedial sanctions against BTC. Without admitting or denying wrongdoing, BTC agreed to the imposition of a $250,000 penalty and the entry of the Order to resolve allegations by the CFTC that two trades by BTC violated Section 4c(a)(1) of the Commodity Exchange Act and CFTC Regulation 1.38(a). BTC also agreed to refrain from any further violations of the above-mentioned statutory provisions. The CFTC did not allege that any clients of BTC, BlackRock or any related affiliate were harmed in any way in the execution of these two trades.
5. Have proxy ballots been voted in accordance with the best economic interest of SamCERA? Yes/No: Yes If no, please explain. Please provide a copy of your firm’s proxy policy to Investments@samcera.org.

Investment Management Fees

1. Is SamCERA’s investment management fee schedule less favorable than those charged other institutional clients who hold an account investment substantially similar to ours? Yes/No: __ If yes, please explain.

Per BlackRock’s agreement with SamCERA, SamCERA’s investment management marginal pricing fee schedule is more favorable than those charged other institutional clients who hold an account investment that is substantially similar.

Derivative Investments

This section is not applicable as derivatives are not used in the portfolios BlackRock managers for SamCERA.

1. Are derivatives used in the management of the investment strategy? Yes/No: ___ If Yes, please answer the remaining questions in this section. If No, please skip the remaining questions in this section.

2. Are derivative investments in compliance with SamCERA’s investment policies? (Appendix C) Yes/No: ___ If no, please explain.

3. If the firm entered into a non-exchange traded derivative, was the general nature and associated risks of the counter-party fully evaluated? (Appendix C(5)) Yes/No: ___ If no, please explain.

4. For non-exchange traded derivative transactions, were the counter-parties broker/dealers? (Appendix C(5)) Yes/No: ___ If yes: Do the counter-parties have investment grade debt? Yes/No: ___ Are the counter-parties registered with the SEC and do they have net capital to protect against potential adverse market circumstances? Yes/No: ___ If no, please explain.

5. For non-exchange traded derivative transactions, were the counter-parties financial institutions (banks)? (Appendix C(5)) Yes/No: ___ If yes: Do the counter-parties have investment grade debt? Yes/No: ___ Do the counter-parties have total assets in excess of $1 billion, and significant net capital to protect against potential adverse market circumstances? Yes/No: ___ If no, please explain.

6. Is individual counter-party exposure well diversified? (Appendix C(5)) Yes/No: ___ If no, please explain. What is the largest exposure to a single counter-party within the portfolio? Please specify the name of the counter-party and the amount of exposure. Have there been any changes to the investment manager’s list of approved counter-parties over the past month?

7. Are the investment purposes for a derivative investment consistent with the four purposes stated SamCERA’s policies? (Appendix C(6)) Yes/No: ___ If no, please explain. Has the firm developed any new purposes for derivative investments? Yes/No: ___ If yes, please explain.

8. List all limited allocation derivative investments individually and the percentage of the portfolio’s assets represented by each investment. (Appendix C(7)) State if the firm has evaluated the exposure to market value losses that can occur from each of these derivatives.
Yes/No: ___ If no, please explain. State if these derivative investments in total represent more than 5% of the portfolio’s market value. If more than 5%, please explain.

9. State if any restricted derivative investments are held in SamCERA’s portfolios. Yes/No: ___ If any are held, state the percentage of the portfolio’s assets held in such derivatives and why the firm is not in compliance with the investment policies. (Appendix C(7))

10. For derivative investments with allocation limits, has the firm tested and measured these investments’ sensitivities to changes in key risk factors? (Appendix C(8)) Yes/No: ___ If no, please explain.

11. Have all derivative investments been made in a manner consistent with the derivative investment process specified in the policy statement? (Appendix C(9)) Yes/No: ___ If no, please explain.

12. Specify the security pricing sources used when developing portfolio market value exposures for limited allocation derivatives. ((Appendix C(10 b))

13. Provide a statement regarding the liquidity of the derivative investments. Provide a general statement discussing the legal and regulatory risks associated with the portfolio manager’s investments in derivatives.

14. State if the legal and regulatory risk associated with portfolio derivative investments have changed over the past six months. (Appendix C(10 g)) Yes/No: ___ If yes, please explain.

Cash & Equivalents

1. Does the firm directly invest in short term fixed income investments? Yes/No: No If yes, do the investments comply with the policies? (Section 11.0) Yes/No: ___ If no, please explain.

Domestic Equity Portfolios (Large, Mid & Small)

1. Please state the percentage of the portfolio held in each of the following types of securities (Section 19.4 j)

Please note that BlackRock manages the Equity Index Fund (benchmarked to the S&P 500 Index) for SamCERA. The breakdown by security type is provided below.

<table>
<thead>
<tr>
<th>Security Type</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Common Stock</td>
<td>98%</td>
</tr>
<tr>
<td>Unit investment trust</td>
<td>2%</td>
</tr>
<tr>
<td>Preferred Stock</td>
<td>0%</td>
</tr>
<tr>
<td>Convertible Securities</td>
<td>0%</td>
</tr>
<tr>
<td>Cash &amp; Equivalents</td>
<td>0%</td>
</tr>
</tbody>
</table>

2. Specify the large, mid and small capitalization exposure of the portfolios? (Section 19.4 j) Please specify percentages.

The Equity Index Fund is comprised of large cap stocks.
3. Specify the percentage of the portfolio that is invested in American Depository Receipts (ADR’s). (Section 19.4 j) Also, specify the percentage of the portfolio invested in ADR securities that are 144A securities. If greater than 10%, explain why.

None

4. Does the portfolio invest in emerging and/or frontier markets? Yes/No: No If yes, please specify the percentage(s) of the portfolio invested in emerging and/or frontier markets

5. What is the largest percentage of the portfolio represented by a single security? Please specify the security and percentage amount. (Section 19.4 j) If any securities were above 5% at the time of purchase, please list and explain why.

Exxon Mobil – 2.81% (as of 6/30/13). Please note that the Equity Index Fund is passively managed and seeks to replicate the return of the S&P 500 Index. Exxon Mobil is the largest holding in the S&P 500 Index.

6. Based on NAICS codes, what is the largest percentage of the portfolio represented by a single industry? Specify the name of the industry and percentage amount (Section 10.3 a). Please specify all industries above 15%.

Information technology – 17.79% (as of 6/30/13). Please note that the Equity Index Fund is passively managed and seeks to replicate the return of the S&P 500 Index. Information technology is the largest sector in the S&P 500 Index.

2. Are derivative investments in compliance with SamCERA's investment policies? (Appendix C) Yes/No: ___ If no, please explain. **NA there were no derivatives in this portfolio.**

3. If the firm entered into a non-exchange traded derivative, was the general nature and associated risks of the counter-party fully evaluated? (Appendix C(5)) Yes/No: ___ If no, please explain. **NA there were no derivatives in this portfolio.**

4. For non-exchange traded derivative transactions, were the counter-parties broker/dealers? (Appendix C(5)) Yes/No: ___ If yes: Do the counter-parties have investment grade debt? Yes/No: ___ Are the counter-parties registered with the SEC and do they have net capital to protect against potential adverse market circumstances? Yes/No: ___ If no, please explain. **NA there were no derivatives in this portfolio.**

5. For non-exchange traded derivative transactions, were the counter-parties financial institutions (banks)? (Appendix C(5)) Yes/No: ___ If yes: Do the counter-parties have investment grade debt? Yes/No: ___ Do the counter-parties have total assets in excess of $1 billion, and significant net capital to protect against potential adverse market circumstances? Yes/No: ___ If no, please explain. **NA there were no derivatives in this portfolio.**

6. Is individual counter-party exposure well diversified? (Appendix C(5)) Yes/No: ___ If no, please explain. What is the largest exposure to a single counter-party within the portfolio? Please specify the name of the counter-party and the amount of exposure. Have there been any changes to the investment manager’s list of approved counter-parties over the past month? **NA there were no derivatives in this portfolio.**

7. Are the investment purposes for a derivative investment consistent with the four purposes stated in SamCERA's policies? (Appendix C(6)) Yes/No: ___ If no, please explain. Has the firm developed any new purposes for derivative investments? Yes/No: ___ If yes, please explain. **NA there were no derivatives in this portfolio.**
8. List all limited allocation derivative investments individually and the percentage of the portfolio’s assets represented by each investment. (Appendix C(7)) State if the firm has evaluated the exposure to market value losses that can occur from each of these derivatives. Yes/No: ___ If no, please explain. State if these derivative investments in total represent more than 5% of the portfolio’s market value. If more than 5%, please explain. **NA there were no derivatives in this portfolio.**

9. State if any restricted derivative investments are held in SamCERA’s portfolios. Yes/No: ___ If any are held, state the percentage of the portfolio’s assets held in such derivatives and why the firm is not in compliance with the investment policies. (Appendix C(7)) **NA there were no derivatives in this portfolio.**

10. For derivative investments with allocation limits, has the firm tested and measured these investments’ sensitivities to changes in key risk factors? (Appendix C(8)) Yes/No: ___ If no, please explain. **NA there were no derivatives in this portfolio.**

11. Have all derivative investments been made in a manner consistent with the derivative investment process specified in the policy statement? (Appendix C(9)) Yes/No: ___ If no, please explain. **NA there were no derivatives in this portfolio.**

12. Specify the security pricing sources used when developing portfolio market value exposures for limited allocation derivatives. ((Appendix C(10 b)) **NA there were no derivatives in this portfolio.**

13. Provide a statement regarding the liquidity of the derivative investments. Provide a general statement discussing the legal and regulatory risks associated with the portfolio manager's investments in derivatives. **NA there were no derivatives in this portfolio.**

14. State if the legal and regulatory risk associated with portfolio derivative investments have changed over the past six months. (Appendix C(10 g)) Yes/No: ___ If yes, please explain. **NA there were no derivatives in this portfolio.**

**Investment Manager Guidelines**

1. Are portfolio holdings well-diversified, and made in liquid securities? (Section 5.0) Yes/No: ___ If no, please explain. **YES**

2. Has the firm engaged in short selling, use of leverage or margin and/or investments in commodities? Yes/No: ___ If yes, please explain. **NO**
Cash & Equivalents

1. Does the firm directly invest in short term fixed income investments? Yes/No: ___ If yes, do the investments comply with the policies? (Section 11.0) Yes/No: ___ If no, please explain. NO

Domestic Equity Portfolios (Large, Mid & Small)

1. Please state the percentage of the portfolio held in each of the following types of securities (Section 19.4 j)

<table>
<thead>
<tr>
<th>Security</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Common Stock</td>
<td>99.20%</td>
</tr>
<tr>
<td>Preferred Stock</td>
<td>0%</td>
</tr>
<tr>
<td>Convertible Securities</td>
<td>0%</td>
</tr>
<tr>
<td>Cash &amp; Equivalents</td>
<td>0.61%</td>
</tr>
</tbody>
</table>

2. Specify the large, mid and small capitalization exposure of the portfolios? (Section 19.4 j) Please specify percentages.

<table>
<thead>
<tr>
<th>Market Cap</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>$1.5 B to $5.0 B</td>
<td>54.03%</td>
</tr>
<tr>
<td>&lt; $1.5 B</td>
<td>45.36%</td>
</tr>
<tr>
<td>Cash</td>
<td>0.61%</td>
</tr>
</tbody>
</table>

3. Specify the percentage of the portfolio that is invested in American Depository Receipts (ADR's). (Section 19.4 j) Also, specify the percentage of the portfolio invested in ADR securities that are 144A securities. If greater than 10%, explain why. NONE

4. Does the portfolio invest in emerging and/or frontier markets? Yes/No: ___ If yes, please specify the percentage(s) of the portfolio invested in emerging and/or frontier markets NO

5. What is the largest percentage of the portfolio represented by a single security? (Section 19.4 j) Specify the name of the security and percentage amount. If any securities were above 5% at the time of purchase, please list and explain why. The largest holding as of June 30, 2013 is 1.76% of the portfolio. No securities were above 5% at the time of purchase.

6. Based on NAICS codes, what is the largest percentage of the portfolio represented by a single industry? (Section 10.3 a). Specify the industry and percentage amount. Please specify all industries above 15%. We do not use NAICS codes. We use GICS for sector and industry. The largest GICS industry as of June 30, 2013 was 13.12% in Regional Banks.

Employees’ Retirement Association

In accordance with the Investment Objectives and Policy Statement, the following compliance worksheet will be completed by each of SamCERA’s investment managers on a semi-annual basis. These statements must be e-mailed to SamCERA’s office (Investments@samcera.org) by Monday, July 15, 2013.

General Compliance Issues

1. Has the firm acted as a fiduciary and invested its assets for the sole benefit of SamCERA? (Section 19.4(a)) Yes/No: Yes if no, please explain.

2. Are SamCERA’s market benchmarks in the respective asset class areas acceptable to the firm? (Section 6.3) Yes/No: Yes If no, please explain.

3. Has the firm’s insurance coverage been sustained? (Section 19.4(c)) Yes/No: Yes if no, please explain.

4. Does the firm consider any of SamCERA’s investment objectives unreasonable? (Section 6.0) Yes/No: No If yes, please explain.

5. Have there been any significant portfolio developments, major changes in firm ownership, organizational structure and personnel? (Section 19.4(j)) Yes/No: No If yes, please explain.

As of 1 March 2013, Lindsay Gold assumed the role of Chief Compliance Officer for Baillie Gifford Overseas Limited, in addition to his role as CCO of Baillie Gifford & Co. Lindsay replaced Graham Laybourn, the Head of Legal and Regulatory Risk however Graham remains with Baillie Gifford and retains oversight of the Compliance function.

On May 1st 2013 there were three promotions to the Partnership. Following these promotions, and the retirement of Angus McLeod (Director in the Clients Department responsible for clients in Asia and the Middle East), the total number of Partners increased to 39. The firm is wholly owned and managed by its Partners, all of whom work full time in the business.

The three new Partners are Kathrin Hamilton, Spencer Adair and Graham Laybourn. Kathrin is a Director in our Clients Department responsible for North American clients, Spencer is an Investment Manager for one of our Global equity strategies, and Graham Laybourn is our Director of Legal & Regulatory Risk.
None of the above changes have any direct effect on the management of your portfolio.

6. Have there been any changes in the firm's investment approach? (Section 19.4(e)) Yes/No: No If yes, please explain.

7. Do SamCERA's guidelines require your firm to manage the portfolio significantly differently than other similar portfolios? (Section 9.1) Yes/No: No If yes, please explain.

8. Have there have been any industry or regulatory disciplinary actions taken against the firm? (Section 19.4(a)) Yes/No: No If yes, please explain.

9. Have proxy ballots been voted in accordance with the best economic interest of SamCERA and in a manner consistent with the Board's proxy policies? (Section 22.0) Yes/No: Yes If no, please explain.

Derivative Investments

1. Are derivatives used in the management of the investment strategy? Yes/No: No If Yes, please answer the remaining questions in this section. If No, please skip the remaining questions in this section.

2. Are derivative investments in compliance with SamCERA's investment policies? (Appendix C) Yes/No: ___ If no, please explain.

3. If the firm entered into a non-exchange traded derivative, was the general nature and associated risks of the counter-party fully evaluated? (Appendix C(5)) Yes/No: ___ If no, please explain.

4. For non-exchange traded derivative transactions, were the counter-parties broker/dealers? (Appendix C(5)) Yes/No: ___ If yes: Do the counter-parties have investment grade debt? Yes/No: ___ Are the counter-parties registered with the SEC and do they have net capital to protect against potential adverse market circumstances? Yes/No: ___ If no, please explain.

5. For non-exchange traded derivative transactions, were the counter-parties financial institutions (banks)? (Appendix C(5)) Yes/No: ___ If yes: Do the counter-parties have investment grade debt? Yes/No: ___ Do the counter-parties have total assets in excess of $1 billion, and significant net capital to protect against potential adverse market circumstances? Yes/No: ___ If no, please explain.

6. Is individual counter-party exposure well diversified? (Appendix C(5)) Yes/No: ___ If no, please explain. What is the largest exposure to a single counter-party within the portfolio? Please specify the name of the counter-party and the amount of exposure. Have there been
any changes to the investment manager's list of approved counter-parties over the past month?

7. Are the investment purposes for a derivative investment consistent with the four purposes stated SamCERA's policies? (Appendix C(6)) Yes/No: ___ If no, please explain. Has the firm developed any new purposes for derivative investments? Yes/No: ___ If yes, please explain.

8. List all limited allocation derivative investments individually and the percentage of the portfolio's assets represented by each investment. (Appendix C(7)) State if the firm has evaluated the exposure to market value losses that can occur from each of these derivatives. Yes/No: ___ If no, please explain. State if these derivative investments in total represent more than 5% of the portfolio's market value. If more than 5%, please explain.

9. State if any restricted derivative investments are held in SamCERA's portfolios. Yes/No: ___ If any are held, state the percentage of the portfolio's assets held in such derivatives and why the firm is not in compliance with the investment policies. (Appendix C(7))

10. For derivative investments with allocation limits, has the firm tested and measured these investments' sensitivities to changes in key risk factors? (Appendix C(8)) Yes/No: ___ If no, please explain.

11. Have all derivative investments been made in a manner consistent with the derivative investment process specified in the policy statement? (Appendix C(9)) Yes/No: ___ If no, please explain.

12. Specify the security pricing sources used when developing portfolio market value exposures for limited allocation derivatives. (Appendix C(10 b))

13. Provide a statement regarding the liquidity of the derivative investments. Provide a general statement discussing the legal and regulatory risks associated with the portfolio manager's investments in derivatives.

14. State if the legal and regulatory risk associated with portfolio derivative investments have changed over the past six months. (Appendix C(10 g)) Yes/No: ___ If yes, please explain.

Investment Manager Guidelines

1. Are portfolio holdings well-diversified, and made in liquid securities? (Section 5.0) Yes/No: Yes If no, please explain.

2. Has the firm engaged in short selling, use of leverage or margin and/or investments in commodities? Yes/No: No If yes, please explain.
Cash & Equivalents

1. Does the firm directly invest in short term fixed income investments? Yes/No: No If yes, do the investments comply with the policies? (Section 11.0) Yes/No: ____ If no, please explain.

International Equity Portfolios - Developed

1. Specify the percentage of the portfolio held in each of the following types of securities. (Section 19.4 j):

<table>
<thead>
<tr>
<th>Security Type</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Foreign Ordinary Shares</td>
<td>91.0%</td>
</tr>
<tr>
<td>Domestic Ordinary Shares*</td>
<td>1.3%</td>
</tr>
<tr>
<td>ADR’s &amp; GDR’s</td>
<td>5.3%</td>
</tr>
<tr>
<td>Cash &amp; Equivalents (Foreign)</td>
<td>0.9%</td>
</tr>
<tr>
<td>Cash &amp; Equivalents (Domestic)</td>
<td>1.5%</td>
</tr>
</tbody>
</table>

*The weighting in Domestic Ordinary Shares relates to a holding in CocaCola Enterprises. Coca Cola Enterprises is a bottling company that focuses solely on business from Western Europe. While it remains listed in the US, 100% of its revenues are generated in Western Europe.

2. Specify the large, mid and small capitalization exposure of the portfolios. (Section 19.4 j)

<table>
<thead>
<tr>
<th>Capitalization</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Large-Cap</td>
<td>49.2%</td>
</tr>
<tr>
<td>Mid-Cap</td>
<td>43.1%</td>
</tr>
<tr>
<td>Small-Cap</td>
<td>5.3%</td>
</tr>
</tbody>
</table>

3. Is the firm monitoring the country, currency, sector and security selection risks associated with its portfolio? (Section 19.4 j) Yes/No: Yes If no, please explain.

4. Does the portfolio invest in emerging and/or frontier markets? Yes/No: Yes If yes, please specify the percentage(s) of the portfolio invested in emerging and/or frontier markets

<table>
<thead>
<tr>
<th>Market Type</th>
<th>Percentage of Fund</th>
</tr>
</thead>
<tbody>
<tr>
<td>Emerging Markets</td>
<td>8.5%</td>
</tr>
<tr>
<td>Frontier Markets</td>
<td>0.0%</td>
</tr>
</tbody>
</table>

5. Does the portfolio currently employ a currency hedging strategy? Yes/No: No

In accordance with the Investment Objectives and Policy Statement, the following compliance worksheet will be completed by each of SamCERA's investment managers on a semi-annual basis. These statements must be e-mailed to SamCERA's office (Investments@samcera.org) by Monday, July 15, 2013.

General Compliance Issues

1. Has the firm acted as a fiduciary and invested its assets for the sole benefit of SamCERA? (Section 19.4(a)) Yes/No: Yes If no, please explain.

2. Are SamCERA's market benchmarks in the respective asset class areas acceptable to the firm? (Section 6.3) Yes/No: Yes If no, please explain.

3. Has the firm's insurance coverage been sustained? (Section 19.4(c)) Yes/No: Yes If no, please explain.

4. Does the firm consider any of SamCERA's investment objectives unreasonable? (Section 6.0) Yes/No: No If yes, please explain.

5. Have there been any significant portfolio developments, major changes in firm ownership, organizational structure and personnel? (Section 19.4(j)) Yes/No: No If yes, please explain.

6. Have there been any changes in the firm’s investment approach? (Section 19.4(e)) Yes/No: No If yes, please explain.

7. Do SamCERA's guidelines require your firm to manage the portfolio significantly differently than other similar portfolios? (Section 9.1) Yes/No: No If yes, please explain.

8. Have there have been any industry or regulatory disciplinary actions taken against the firm? (Section 19.4(a)) Yes/No: No If yes, please explain.

9. Have proxy ballots been voted in accordance with the best economic interest of SamCERA and in a manner consistent with the Board’s proxy policies? (Section 22.0) Yes/No: Yes If no, please explain.
Derivative Investments

1. Are derivatives used in the management of the investment strategy? Yes/No: Yes If Yes, please answer the remaining questions in this section. If No, please skip the remaining questions in this section.

2. Are derivative investments in compliance with SamCERA’s investment policies? (Appendix C) Yes/No: Yes If no, please explain.

3. If the firm entered into a non-exchange traded derivative, was the general nature and associated risks of the counter-party fully evaluated? (Appendix C(5)) Yes/No: Yes If no, please explain.

4. For non-exchange traded derivative transactions, were the counter-parties broker/dealers? (Appendix C(5)) Yes/No: No If yes: Do the counter-parties have investment grade debt? Yes/No: ___ Are the counter-parties registered with the SEC and do they have net capital to protect against potential adverse market circumstances? Yes/No: ___ If no, please explain.

5. For non-exchange traded derivative transactions, were the counter-parties financial institutions (banks)? (Appendix C(5)) Yes/No: Yes If yes: Do the counter-parties have investment grade debt? Yes/No: Yes Do the counter-parties have total assets in excess of $1 billion, and significant net capital to protect against potential adverse market circumstances? Yes/No: Yes If no, please explain.

6. Is individual counter-party exposure well diversified? (Appendix C(5)) Yes/No: No If no, please explain. What is the largest exposure to a single counter-party within the portfolio? Please specify the name of the counter-party and the amount of exposure. Have there been any changes to the investment manager’s list of approved counter-parties over the past month?

*Derivatives exposure is only by way of Forward FX positions, which are currently traded exclusively with your custodian.*

7. Are the investment purposes for a derivative investment consistent with the four purposes stated SamCERA’s policies? (Appendix C(6)) Yes/No: Yes If no, please explain. Has the firm developed any new purposes for derivative investments? Yes/No: ___ If yes, please explain.

8. List all limited allocation derivative investments individually and the percentage of the portfolio’s assets represented by each investment. (Appendix C(7)) State if the firm has evaluated the exposure to market value losses that can occur from each of these derivatives. Yes/No: N/A If no, please explain. State if these derivative investments in total represent more than 5% of the portfolio’s market value. If more than 5%, please explain.
9. State if any restricted derivative investments are held in SamCERA's portfolios. Yes/No: No
   If any are held, state the percentage of the portfolio's assets held in such derivatives and why
   the firm is not in compliance with the investment policies. (Appendix C(7))

10. For derivative investments with allocation limits, has the firm tested and measured these
    investments' sensitivities to changes in key risk factors? (Appendix C(8)) Yes/No: N/A If no,
    please explain.

11. Have all derivative investments been made in a manner consistent with the derivative
    investment process specified in the policy statement? (Appendix C(9)) Yes/No: Yes If no,
    please explain.

12. Specify the security pricing sources used when developing portfolio market value exposures
    for limited allocation derivatives. (Appendix C(10 b)) N/A

13. Provide a statement regarding the liquidity of the derivative investments. Provide a general
    statement discussing the legal and regulatory risks associated with the portfolio manager's
    investments in derivatives.

    Mondrian only uses defensive forward currency contracts in an unleveraged and fully
    covered manner for the Fund. There should be no issues with liquidity with these
    instruments.

14. State if the legal and regulatory risk associated with portfolio derivative investments have
    changed over the past six months. (Appendix C(10 g)) Yes/No: No If yes, please explain.

Investment Manager Guidelines

1. Are portfolio holdings well-diversified, and made in liquid securities? (Section 5.0) Yes/No:
   Yes If no, please explain.

2. Has the firm engaged in short selling, use of leverage or margin and/or investments in
   commodities? Yes/No: No If yes, please explain.

Cash & Equivalents

1. Does the firm directly invest in short term fixed income investments? Yes/No: No If yes, do
   the investments comply with the policies? (Section 11.0) Yes/No: ___ If no, please explain.
International Equity Portfolios - Developed

1. Specify the percentage of the portfolio held in each of the following types of securities. (Section 19.4 j):

<table>
<thead>

Compliance Certification Statement
San Mateo County Employees’ Retirement Association

In accordance with the Investment Objectives and Policy Statement, the following compliance worksheet will be completed by each of SamCERA’s investment managers on a semi-annual basis. These statements must be e-mailed to SamCERA’s office (Investments@samcera.org) by Monday, July 15, 2013.

GENERAL COMPLIANCE ISSUES

1. Are SamCERA’s market benchmarks in the respective asset class areas acceptable to the firm? (Section 6.3) Yes/No: Yes. If no, please explain.

2. Has the firm’s insurance coverage been sustained? (Section 19.4(c)) Yes/No: Yes. If no, please explain.

3. Have there been any significant portfolio developments, major changes in firm ownership, organizational structure and personnel? (Section 19.4(j)) Yes/No: No. If yes, please explain.

No. However, with respect to personnel, the following organizational changes took place within Pyramis in the first quarter of 2013:

- Effective January 7, 2013, Pam R. Holding joined Pyramis as Head of Portfolio Management. In this newly created role, Pam leads many of the equity portfolio teams and oversee strategy and implementation of institutional clients’ investments. Pam joined Pyramis from Putnam Investments, where she was most recently managing director, global value equities. Prior to that, she was associate director, head of European research in Putnam’s London office.

4. Have there been any changes in the firm’s investment approach? (Section 19.4(e)) Yes/No: No If yes, please explain.

5. Have there been any industry or regulatory disciplinary actions taken against the firm? (Section 19.4(a)) Yes/No: ___ If yes, please explain.

From time to time, in the regular course of its business, PGATC (including any officer or principal thereof) may be involved in legal proceedings (including, but not limited to, litigation, arbitration, bankruptcy, receivership, or similar proceedings). There are no material legal proceedings currently pending against PGATC that might affect the investment management services contemplated herein.

In the regular course of its business, PGATC may also receive inquiries (including subpoenas and voluntary requests for information) from regulatory authorities or law enforcement; a regulator may conduct an on-site examination; or a regulator may commence an investigation.

The Firm does not make public comment about such inquiries, examinations, or investigations unless and until enforcement proceedings are initiated. To the extent that PGATC’s securities affiliates have been sanctioned, fined, or cited by the Securities and Exchange Commission (SEC), Financial Industry Regulatory Authority...
San Mateo County Employees’ Retirement Association I Compliance Certification Statement

(FINRA), or any other regulatory body, any such sanction, fine, or citation has been disclosed in its affiliates’ Forms BD and/or Forms ADV in accordance with the requirements of such forms.

We note that the FDIC issued a civil money penalty of $1,564.08 against PGATC in connection with an allegation that PGATC failed to ensure that authorized withdrawal limits on PGATC’s designated account as of June 30, 2009, were appropriately set to take into account PGATC’s increased deposit insurance assessment for the quarter ending March 31, 2009.

6. Have proxy ballots been voted in accordance with the best economic interest of SamCERA? (Section 22.0) Yes/No: Yes. All proxies have been answered in a manner consistent with the Pyramis proxy voting guidelines.

If no, please explain. Please provide a copy of your firm’s proxy policy to Investments@samcera.org.

DERIVATIVE INVESTMENTS

1. Are derivatives used in the management of the investment strategy? Yes/No: No. If Yes, please answer the remaining questions in this section. If No, please skip the remaining questions in this section.

The portfolio may make limited use of derivative instruments to manage and invest cash inflows. They are not used for hedging purposes. The Select International Small Cap Plus portfolio did not hold any derivative instruments as of June 30, 2013.

2. Are derivative investments in compliance with SamCERA’s investment policies? (Appendix C) Yes/No: ___ If no, please explain.

3. If the firm entered into a non-exchange traded derivative, was the general nature and associated risks of the counter-party fully evaluated? (Appendix C(5)) Yes/No: ___ If no, please explain.

4. For non-exchange traded derivative transactions, were the counter-parties broker/dealers? (Appendix C(5)) Yes/No: ___ If yes: Do the counter-parties have investment grade debt? Yes/No: ___ Are the counter-parties registered with the SEC and do they have net capital to protect against potential adverse market circumstances? Yes/No: ___ If no, please explain.

5. For non-exchange traded derivative transactions, were the counter-parties financial institutions (banks)? (Appendix C(5)) Yes/No: ___ If yes: Do the counter-parties have investment grade debt? Yes/No: ___ Do the counter-parties have total assets in excess of $1 billion, and significant net capital to protect against potential adverse market circumstances? Yes/No: ___ If no, please explain.

6. Is individual counter-party exposure well diversified? (Appendix C(5)) Yes/No: ___ If no, please explain. What is the largest exposure to a single counter-party within the portfolio? Please specify the name of the counter-party and the amount of exposure. Have there been any changes to the investment manager’s list of approved counter-parties over the past month?
7. Are the investment purposes for a derivative investment consistent with the four purposes stated in SamCERA’s policies? (Appendix C(6)) Yes/No: ___ If no, please explain. Has the firm developed any new purposes for derivative investments? Yes/No: ___ If yes, please explain.

8. List all limited allocation derivative investments individually and the percentage of the portfolio’s assets represented by each investment. (Appendix C(7)) State if the firm has evaluated the exposure to market value losses that can occur from each of these derivatives. Yes/No: ___ If no, please explain. State if these derivative investments in total represent more than 5% of the portfolio’s market value. If more than 5%, please explain.

9. State if any restricted derivative investments are held in SamCERA’s portfolios. Yes/No: ___ If any are held, state the percentage of the portfolio’s assets held in such derivatives and why the firm is not in compliance with the investment policies. (Appendix C(7))

10. For derivative investments with allocation limits, has the firm tested and measured these investments’ sensitivities to changes in key risk factors? (Appendix C(8)) Yes/No: ___ If no, please explain.

11. Have all derivative investments been made in a manner consistent with the derivative investment process specified in the policy statement? (Appendix C(9)) Yes/No: ___ If no, please explain.

12. Specify the security pricing sources used when developing portfolio market value exposures for limited allocation derivatives. (Appendix C(10 b))

13. Provide a statement regarding the liquidity of the derivative investments. Provide a general statement discussing the legal and regulatory risks associated with the portfolio manager’s investments in derivatives.

14. State if the legal and regulatory risk associated with portfolio derivative investments have changed over the past six months. (Appendix C(10 g)) Yes/No: ___ If yes, please explain.

INVESTMENT MANAGER GUIDELINES

1. Are portfolio holdings well-diversified, and made in liquid securities? (Section 5.0) Yes/No: Yes. If no, please explain.

2. Has the firm engaged in short selling, use of leverage or margin and/or investments in commodities? Yes/No: N/A. If yes, please explain.

CASH & EQUIVALENTS

1. Does the firm directly invest in short term fixed income investments? Yes/No: No If yes, do the investments comply with the policies? (Section 11.0) Yes/No: N/A If no, please explain.
INTERNATIONAL EQUITY PORTFOLIOS - DEVELOPED

1. Specify the percentage of the portfolio held in each of the following types of securities (Section 19.4 j)

<table>
<thead>
<tr>
<th>Security Type</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>FOREIGN ORDINARY SHARES</td>
<td>97.93%</td>

3. Is the firm monitoring the country, currency, sector and security selection risks associated with its portfolio? (Section 19.4 j) Yes/No: Yes. If no, please explain.

4. Does the portfolio invest in emerging and/or frontier markets? Yes/No: Yes. If yes, please specify the allocation of the portfolio invested in emerging and/or frontier markets

The portfolio invests in emerging markets. As of June 30, 2013, the portfolio’s allocation to emerging markets was 19.9%.

5. Does the portfolio currently employ a currency hedging strategy? Yes/No: No.
Signed by:

Dated: 7/15/13

Name of Firm: Pyramis Global Advisors
In accordance with the Investment Objectives and Policy Statement, the following compliance worksheet will be completed by each of SamCERA's investment managers on a semi-annual basis. These statements must be e-mailed to SamCERA’s office (Investments@samcera.org) by Monday, July 15, 2013.

General Compliance Issues

1. Are SamCERA's market benchmarks in the respective asset class areas acceptable to the firm? (Section 6.3) Yes/No: N If no, please explain.

   An appropriate benchmark for the Emerging Markets portfolio is the MSCI Emerging Markets (net of dividend withholding taxes) Total Return Index.

2. Has the firm’s insurance coverage been sustained? (Section 19.4(c)) Yes/No: Y If no, please explain.

3. Have there been any significant portfolio developments, major changes in firm ownership, organizational structure and personnel? (Section 19.4(j)) Yes/No: N If yes, please explain.

4. Have there been any changes in the firm’s investment approach? (Section 19.4(e)) Yes/No: N If yes, please explain.

5. Have there have been any industry or regulatory disciplinary actions taken against the firm? (Section 19.4(a)) Yes/No: N If yes, please explain.

6. Have proxy ballots been voted in accordance with the best economic interest of SamCERA? Yes/No: Y If no, please explain. Please provide a copy of your firm’s proxy policy to Investments@samcera.org.

Derivative Investments

1. Are derivatives used in the management of the investment strategy? Yes/No: Y If Yes, please answer the remaining questions in this section. If No, please skip the remaining questions in this section.

2. Are derivative investments in compliance with SamCERA's investment policies? (Appendix C) Yes/No: Y If no, please explain.
3. If the firm entered into a non-exchange traded derivative, was the general nature and associated risks of the counter-party fully evaluated? (Appendix C(5)) Yes/No: Y If no, please explain.

4. For non-exchange traded derivative transactions, were the counter-parties broker/dealers? (Appendix C(5)) Yes/No: Y If yes:

   Do the counter-parties have investment grade debt? Yes/No: Y

   Are the counter-parties registered with the SEC and do they have net capital to protect against potential adverse market circumstances? Yes/No: Y If no, please explain.

5. For non-exchange traded derivative transactions, were the counter-parties financial institutions (banks)? (Appendix C(5)) Yes/No: Y If yes:

   Do the counter-parties have investment grade debt? Yes/No: Y

   Do the counter-parties have total assets in excess of $1 billion, and significant net capital to protect against potential adverse market circumstances? Yes/No: Y If no, please explain.

6. Is individual counter-party exposure well diversified? (Appendix C(5)) Yes/No: Y If no, please explain.

   What is the largest exposure to a single counter-party within the portfolio? Please specify the name of the counter-party and the amount of exposure. The largest single counter-party is HSBC Bank, PLC. The exposure to this counter-party is 0.83% of the portfolio’s weight.

   Have there been any changes to the investment manager’s list of approved counter-parties over the past month? N

7. Are the investment purposes for a derivative investment consistent with the four purposes stated in SamCERA’s policies? (Appendix C(6)) Yes/No: Y If no, please explain. Has the firm developed any new purposes for derivative investments? Yes/No: N If yes, please explain.

8. List all limited allocation derivative investments individually and the percentage of the portfolio’s assets represented by each investment. (Appendix C(7)) State if the firm has evaluated the exposure to market value losses that can occur from each of these derivatives. Yes/No: N/A (none) If no, please explain. State if these derivative investments in total represent more than 5% of the portfolio’s market value. If more than 5%, please explain.
9. State if any restricted derivative investments are held in SamCERA's portfolios. Yes/No: N If any are held, state the percentage of the portfolio’s assets held in such derivatives and why the firm is not in compliance with the investment policies. (Appendix C(7))

10. For derivative investments with allocation limits, has the firm tested and measured these investments’ sensitivities to changes in key risk factors? (Appendix C(8)) Yes/No: N/A (none) If no, please explain.

11. Specify the security pricing sources used when developing portfolio market value exposures for limited allocation derivatives. ((Appendix C(10 b)) N/A

12. Provide a statement regarding the liquidity of the derivative investments. Provide a general statement discussing the legal and regulatory risks associated with the portfolio manager's investments in derivatives.

   The portfolio’s use of derivatives is limited to equity-substitution securities (also known as participation notes, or “p-notes”) for the purpose of gaining underlying equity exposures only where the portfolio is unable to invest directly in the local market. The liquidity of these instruments is directly correlated to the liquidity of the underlying security, as the derivative’s pricing and return characteristics are driven by the transactions on the underlying stock.

   As the equity-substitution securities (p-notes) are used as a replacement for the purchasing of local shares, and not to hedge or gain leveraged positions in the accounts, no additional material legal or regulatory risks are incurred beyond the normal course of portfolio management for this asset class.

13. State if the legal and regulatory risk associated with portfolio derivative investments have changed over the past six months. (Appendix C(10 g)) Yes/No: N If yes, please explain.

Investment Manager Guidelines

1. Are portfolio holdings well-diversified, and made in liquid securities? (Section 5.0) Yes/No: Y If no, please explain.

2. Has the fund engaged in short selling, use of leverage or margin and/or investments in commodities? Yes/No: N If yes, please explain.

Cash & Equivalents

1. Does the firm directly invest in short term fixed income investments? Yes/No: Y*
*The firm invests directly in short term fixed income investments, however the Fund does not.*

**International Equity Portfolios - Emerging**

Compliance Certification Statement
San Mateo County
Employees’ Retirement Association

In accordance with the Investment Objectives and Policy Statement, the following compliance worksheet will be completed by each of SamCERA’s investment managers on a semi-annual basis. These statements must be e-mailed to SamCERA’s office (Investments@samcera.org) by Monday, July 15, 2013.

Please note that SamCERA is invested in a co-mingled limited partnership and not a separately managed account.

General Compliance Issues

1. Are SamCERA’s market benchmarks in the respective asset class areas acceptable to the firm? (Section 6.3) Yes/No: N/A If no, please explain. The Fund targets an absolute return; not a return relative to a benchmark.

2. Has the firm’s insurance coverage been sustained? (Section 19.4(c)) Yes/No: Yes If no, please explain.

3. Have there been any significant portfolio developments, major changes in firm ownership, organizational structure and personnel? (Section 19.4(j)) Yes/No: No If yes, please explain.

4. Have there been any changes in the firm’s investment approach? (Section 19.4(e)) Yes/No: No If yes, please explain.

5. Have there have been any industry or regulatory disciplinary actions taken against the firm? (Section 19.4(a)) Yes/No: No If yes, please explain.

Derivative Investments

1. Are derivatives used in the management of the investment strategy? Yes/No: Yes If Yes, please answer the remaining questions in this section. If No, please skip the remaining questions in this section.

2. Are derivative investments in compliance with SamCERA’s investment policies? (Appendix C) Yes/No: ___ If no, please explain. Yes, to the best of our understanding of the policy.

3. If the firm entered into a non-exchange traded derivative, was the general nature and associated risks of the counter-party fully evaluated? (Appendix C(5)) Yes/No: Yes If no, please explain.
4. For non-exchange traded derivative transactions, were the counter-parties broker/dealers? (Appendix C(5)) Yes/No: Yes If yes: Do the counter-parties have investment grade debt? Yes/No: Yes Are the counter-parties registered with the SEC and do they have net capital to protect against potential adverse market circumstances? Yes/No: Yes If no, please explain.

We may not be trading directly with the broker-dealer.

5. For non-exchange traded derivative transactions, were the counter-parties financial institutions (banks)? (Appendix C(5)) Yes/No: Yes If yes: Do the counter-parties have investment grade debt? Yes/No: Yes Do the counter-parties have total assets in excess of $1 billion, and significant net capital to protect against potential adverse market circumstances? Yes/No: Yes If no, please explain.

6. Is individual counter-party exposure well diversified? (Appendix C(5)) Yes/No: Yes If no, please explain. What is the largest exposure to a single counter-party within the portfolio? Please specify the name of the counter-party and the amount of exposure. Have there been any changes to the investment manager’s list of approved counter-parties over the past month?

7. Are the investment purposes for a derivative investment consistent with the four purposes stated SamCERA’s policies? (Appendix C(6)) Yes/No: Yes If no, please explain. Has the firm developed any new purposes for derivative investments? Yes/No: No If yes, please explain.

8. List all limited allocation derivative investments individually and the percentage of the portfolio’s assets represented by each investment. (Appendix C(7)) State if the firm has evaluated the exposure to market value losses that can occur from each of these derivatives. Yes/No: Yes If no, please explain. State if these derivative investments in total represent more than 5% of the portfolio’s market value. If more than 5%, please explain.

(based on % of long market value)

**IOs:**
- CMBS 23322BCX4: 0.01%
- CMBS 23322BFC7: 0.04%
- CMBS 43786YAPO: 0.03%
- RMBS 25157GDP4: 1.35%

**POs:**
- RMBS 30261TAU1: 1.86%
- RMBS 36156NAF2: 0.93%
- RMBS 74966D207: 1.37%
- RMBS 74966EAA4: 1.84%
- RMBS 74966E205: 0.40%
- RMBS (no CUSIP) RMAT 2013 REO/LOAN: 0/12%
These positions fall within our strategy guidelines.

9. State if any restricted derivative investments are held in SamCERA's portfolios. Yes/No ___ If any are held, state the percentage of the portfolio’s assets held in such derivatives and why the firm is not in compliance with the investment policies. (Appendix C(7))

   There are no inverse floating rate notes and bonds. There are no structured notes; the Fund does have positions in CDOs.

10. For derivative investments with allocation limits, has the firm tested and measured these investments’ sensitivities to changes in key risk factors? (Appendix C(8)) Yes/No: Yes If no, please explain.

11. Have all derivative investments been made in a manner consistent with the derivative investment process specified in the policy statement? (Appendix C(9)) Yes/No: Yes If no, please explain. Yes, to the best of our understanding of the policy.

12. Specify the security pricing sources used when developing portfolio market value exposures for limited allocation derivatives. (Appendix C(10 b)) Attached please find the Firm’s Valuation Policy.

13. Provide a statement regarding the liquidity of the derivative investments. Provide a general statement discussing the legal and regulatory risks associated with the portfolio manager’s investments in derivatives. The fund invests in interest rate swaps which are generally very liquid.

14. State if the legal and regulatory risk associated with portfolio derivative investments have changed over the past six months. (Appendix C(10 g)) Yes/No: If yes, please explain. New regulations that impact the use of derivatives have been proposed or finalized but we do not believe there has been a material change to legal and regulatory risk.

Investment Manager Guidelines

1. Are portfolio holdings well-diversified, and made in liquid securities? (Section 5.0) Yes/No: ___ If no, please explain. We believe it is well diversified within the mandate of the fund.

2. Has the firm engaged in short selling, use of leverage or margin and/or investments in commodities? Yes/No: Yes If yes, please explain. The Fund has the ability to use leverage.

Cash & Equivalents

1. Does the firm directly invest in short term fixed income investments? Yes/No: ___ If yes, do the investments comply with the policies? (Section 11.0) Yes/No: ___ If no, please explain. To the best of our understanding of the policy, the short term investments comply.

Domestic Fixed Income Portfolios
1. State the percentage of the portfolio held in each of the following types of securities (Section 11.3):

<table>
<thead>
<tr>
<th>Security Type</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>Certificates of Deposit</td>
<td>%</td>
</tr>
<tr>
<td>Commercial Paper</td>
<td>%</td>
</tr>
<tr>
<td>Other High Grade Short-term securities</td>
<td>%</td>
</tr>
<tr>
<td>U.S. Government &amp; Agency securities</td>
<td>%</td>
</tr>
<tr>
<td>Corporate Bonds</td>
<td>%</td>
</tr>
<tr>
<td>Mortgage- and asset-backed securities</td>
<td>100%</td>
</tr>
<tr>
<td>Yankee bond securities</td>
<td>%</td>
</tr>
</tbody>
</table>

The fund also maintains positions in cash and interest rate swaps.

2. Is the firm monitoring its active investment management decisions relative to the Retirement Association’s investment benchmark? (Section 6.3) Yes/No: No. If no, please explain. As noted earlier, the focus is on an absolute return, not a return relative to a benchmark.

3. Does the firm conduct horizon analysis testing? (Section 19.4) Yes/No: N/A. If no, please explain.

4. Are any holdings below investment grade? (Section 11.3(b)) If yes, why are they held in the portfolio? Yes, the Fund’s investment guidelines do permit investments in below investment grade assets.

Excluding U.S. Government and Agency bond holdings, did any individual bond issue represent more than 5% of the market value of the portfolio? Yes/No: Yes (Section 11.3(b)) Please specify the bond issue and percentage amount. At the time of purchase, was there any single industry, based on NAICS codes, which represented more than 15% of the market value of the account. Please specify the name of the industry and percentage amount. N/A.

RMBS 36156NAA3: 6.16% (based on percentage of LMV)

5. What percentage of the portfolio is held in Rule 144A securities? (Section 11.3(c)) 42% (approximately – based on percentage of LMV).

Deputy Chief Compliance Officer and Associate General Counsel

Dated: July 16, 2013

Name of Firm: Angelo, Gordon & Co.
Compliance Certification Statement
San Mateo County
Employees’ Retirement Association

In accordance with the Investment Objectives and Policy Statement, the following compliance worksheet will be completed by each of SamCERA’s investment managers on a semi-annual basis. These statements must be e-mailed to SamCERA’s office (Investments@samcera.org) by Monday, July 15, 2013.

General Compliance Issues

1. Has the firm acted as a fiduciary and invested its assets for the sole benefit of SamCERA? (Section 19.4(a)) Yes/No: YES If no, please explain.

2. Are SamCERA’s market benchmarks in the respective asset class areas acceptable to the firm? (Section 6.3) Yes/No: YES If no, please explain.

3. Has the firm’s insurance coverage been sustained? (Section 19.4(c)) Yes/No: YES If no, please explain.

4. Does the firm consider any of SamCERA’s investment objectives unreasonable? (Section 6.0) Yes/No: NO If yes, please explain.

5. Have there been any significant portfolio developments, major changes in firm ownership, organizational structure and personnel? (Section 19.4(j)) Yes/No: NO If yes, please explain.

Through discussions with Michael Coultrip, CIO, we implemented a duration hedge through the use of Treasury futures to reduce the portfolio duration by approximately 3 years. We have agreed to maintain a duration consistent with the Barclays US Aggregate going forward.

6. Have there been any changes in the firm’s investment approach? (Section 19.4(e)) Yes/No: NO If yes, please explain.

7. Do SamCERA’s guidelines require your firm to manage the portfolio significantly differently than other similar portfolios? (Section 9.1) Yes/No: NO If yes, please explain.
8. Have there have been any industry or regulatory disciplinary actions taken against the firm? (Section 19.4(a)) Yes/No: NO If yes, please explain.

**Derivative Investments**

1. Are derivatives used in the management of the investment strategy? Yes/No: YES If Yes, please answer the remaining questions in this section. If No, please skip the remaining questions in this section.

2. Are derivative investments in compliance with *SamCERA's* investment policies? (Appendix C) Yes/No: YES If no, please explain.

3. If the firm entered into a non-exchange traded derivative, was the general nature and associated risks of the counter-party fully evaluated? (Appendix C(5)) Yes/No: YES If no, please explain.

4. For non-exchange traded derivative transactions, were the counter-parties broker/dealers? (Appendix C(5)) Yes/No: YES If yes: Do the counter-parties have investment grade debt? Yes/No: YES Are the counter-parties registered with the SEC and do they have net capital to protect against potential adverse market circumstances? Yes/No: YES If no, please explain.

5. For non-exchange traded derivative transactions, were the counter-parties financial institutions (banks)? (Appendix C(5)) Yes/No: YES If yes: Do the counter-parties have investment grade debt? Yes/No: YES Do the counter-parties have total assets in excess of $1 billion, and significant net capital to protect against potential adverse market circumstances? Yes/No: YES If no, please explain.

6. Is individual counter-party exposure well diversified? (Appendix C(5)) Yes/No: YES If no, please explain. What is the largest exposure to a single counter-party within the portfolio? Our only extended counterparty exposure is in currency forwards and the capital at risk, which would be any gains on the contract, is typically less than 1%. Please specify the name of the counter-party and the amount of exposure. Have there been any changes to the investment manager’s list of approved counter-parties over the past month? Please see the counterparty list below.
7. Are the investment purposes for a derivative investment consistent with the four purposes stated SamCERA’s policies? (Appendix C(6)) Yes/No: YES If no, please explain. Has the firm developed any new purposes for derivative investments? Yes/No: NO If yes, please explain.

8. List all limited allocation derivative investments individually and the percentage of the portfolio’s assets represented by each investment. (Appendix C(7)) State if the firm has evaluated the exposure to market value losses that can occur from each of these derivatives. Yes/No: ____ If no, please explain. State if these derivative investments in total represent more than 5% of the portfolio’s market value. If more than 5%, please explain.

We have not invested in “limited allocation derivative investments” in the SamCERA portfolio.
9. State if any restricted derivative investments are held in SamCERA's portfolios. Yes/No: NO
   If any are held, state the percentage of the portfolio’s assets held in such derivatives and why
   the firm is not in compliance with the investment policies. (Appendix C(7))

10. For derivative investments with allocation limits, has the firm tested and measured these
    investments’ sensitivities to changes in key risk factors? (Appendix C(8)) Yes/No: ____ If no,
    please explain.

    We have not invested in “limited allocation derivative investments” in the SamCERA
    portfolio.

11. Have all derivative investments been made in a manner consistent with the derivative
    investment process specified in the policy statement? (Appendix C(9)) Yes/No: YES  If no,
    please explain.

12. Specify the security pricing sources used when developing portfolio market value exposures
    for limited allocation derivatives. ((Appendix C(10 b))

    We have not invested in “limited allocation derivative investments” in the SamCERA
    portfolio.

13. Provide a statement regarding the liquidity of the derivative investments. Provide a general
    statement discussing the legal and regulatory risks associated with the portfolio manager's
    investments in derivatives.

    The foreign exchange market is highly liquid with several trillion dollars of currency
    traded daily and a wide variety of active market participants worldwide. Within the
    foreign exchange market, the currencies of the forwards used in the SamCERA
    portfolio are among the most actively traded.

    Hedging activity or use of forward currency contracts may reduce the risk of loss from
    currency revaluations, but also may reduce or limit the opportunity for gain and
    involves counter party risk, which is the risk that the contracting party will not fulfill its
    contractual obligation to deliver the currency contracted for at the agreed upon price.
    Because typically no money changes hands at the outset of a forward currency contract,
    the counter party risk is limited to the profit or loss on the contract, it is not the
    notional value of the contract.

14. State if the legal and regulatory risk associated with portfolio derivative investments have
    changed over the past six months. (Appendix C(10 g)) Yes/No: NO  If yes, please explain.
Investment Manager Guidelines

1. Are portfolio holdings well-diversified, and made in liquid securities? (Section 5.0) Yes/No: YES If no, please explain.

2. Has the firm engaged in short selling, use of leverage or margin and/or investments in commodities? Yes/No: NO If yes, please explain.

Cash & Equivalents

1. Does the firm directly invest in short term fixed income investments? Yes/No: NO If yes, do the investments comply with the policies? (Section 11.0) Yes/No: ___ If no, please explain.

Domestic Fixed Income Portfolios

1. State the percentage of the portfolio held in each of the following types of securities (Section 11.3)

<table>
<thead>
<tr>

1. Is the firm monitoring its active investment management decisions relative to the Retirement Association’s investment benchmark? (Section 6.3) Yes/No: YES If no, please explain.

2. Does the firm conduct horizon analysis testing? (Section 19.4) Yes/No: NO If no, please explain.

   *We largely manage the portfolio in line with the index duration and as a result do not conduct horizon analysis testing.*
3. Are any holdings below investment grade? **NO** (Section 11.3(b)) If yes, why are they held in the portfolio?

4. Excluding U. S. Government and Agency bond holdings, did any individual bond issue represent more than 5% of the market value of the portfolio? Yes/No: **NO** (Section 11.3(b)) Please specify the bond issue and percentage amount. At the time of purchase, was there any single industry, based on NAICS codes, which represented more than 15% of the market value of the account. Please specify the name of the industry and percentage amount. **NO**

5. What percentage of the portfolio is held in Rule 144A securities? (Section 11.3(c)) **0.00%**

Pyramis Global Advisors U.S. Core Bonds – June 30, 2013

Compliance Certification Statement
San Mateo County Employees’ Retirement Association

In accordance with the Investment Objectives and Policy Statement, the following compliance worksheet will be completed by each of SamCERA’s investment managers on a semi-annual basis. These statements must be e-mailed to SamCERA’s office (investments@samcera.org) by Monday, July 15, 2013.

GENERAL COMPLIANCE ISSUES
1. Are SamCERA’s market benchmarks in the respective asset class areas acceptable to the firm? (Section 6.3) Yes/No: Yes. If no, please explain.

2. Has the firm’s insurance coverage been sustained? (Section 19.4(c)) Yes/No: Yes If no, please explain.

3. Have there been any significant portfolio developments, major changes in firm ownership, organizational structure and personnel? (Section 19.4(j)) Yes/No: No. If yes, please explain.

No. However, with respect to personnel, the following organizational changes took place within Pyramis in the first quarter of 2013:

- Effective January 7, 2013, Pam R. Holding joined Pyramis as Head of Portfolio Management. In this newly created role, Pam leads many of the equity portfolio teams and oversee strategy and implementation of institutional clients’ investments. Pam joined Pyramis from Putnam Investments, where she was most recently managing director, global value equities. Prior to that, she was associate director, head of European research in Putnam’s London office.

4. Have there been any changes in the firm’s investment approach? (Section 19.4(e)) Yes/No: No If yes, please explain.

5. Have there have been any industry or regulatory disciplinary actions taken against the firm? (Section 19.4(a)) Yes/No: If yes, please explain.

From time to time, in the regular course of its business, PGATC (including any officer or principal thereof) may be involved in legal proceedings (including, but not limited to, litigation, arbitration, bankruptcy, receivership, or similar proceedings). There are no material legal proceedings currently pending against PGATC that might affect the investment management services contemplated herein.

In the regular course of its business, PGATC may also receive inquiries (including subpoenas and voluntary requests for information) from regulatory authorities or law enforcement; a regulator may conduct an on-site examination; or a regulator may commence an investigation.

The Firm does not make public comment about such inquiries, examinations, or investigations unless and until enforcement proceedings are initiated. To the extent that PGATC’s securities affiliates have been sanctioned, fined, or cited by the Securities and Exchange Commission (SEC), Financial Industry Regulatory Authority.
(FINRA), or any other regulatory body, any such sanction, fine, or citation has been disclosed in its affiliates' Forms BD and/or Forms ADV in accordance with the requirements of such forms.

We note that the FDIC issued a civil money penalty of $1,564.08 against PGATC in connection with an allegation that PGATC failed to ensure that authorized withdrawal limits on PGATC’s designated account as of June 30, 2009, were appropriately set to take into account PGATC’s increased deposit insurance assessment for the quarter ending March 31, 2009.

DERIVATIVE INVESTMENTS

1. Are derivatives used in the management of the investment strategy? Yes/No: Yes. If Yes, please answer the remaining questions in this section. If No, please skip the remaining questions in this section.

2. Are derivative investments in compliance with SamCERA’s investment policies? (Appendix C) Yes/No: Yes. If no, please explain.

3. If the firm entered into a non-exchange traded derivative, was the general nature and associated risks of the counter-party fully evaluated? (Appendix C(5)) Yes/No: Yes. If no, please explain.

4. For non-exchange traded derivative transactions, were the counter-parties broker/dealers? (Appendix C(5)) Yes/No: Yes. If yes: Do the counter-parties have investment grade debt? Yes/No: Yes. Are the counter-parties registered with the SEC and do they have net capital to protect against potential adverse market circumstances? Yes/No: Yes. If no, please explain.

5. For non-exchange traded derivative transactions, were the counter-parties financial institutions (banks)? (Appendix C(5)) Yes/No: Yes. If yes: Do the counter-parties have investment grade debt? Yes/No: Yes. Do the counter-parties have total assets in excess of $1 billion, and significant net capital to protect against potential adverse market circumstances? Yes/No: Yes. If no, please explain.

6. Is individual counter-party exposure well diversified? (Appendix C(5)) Yes/No: Yes. If no, please explain. What is the largest exposure to a single counter-party within the portfolio? Please specify the name of the counter-party and the amount of exposure.

5% (please note this refers to the exposure for each participant of the pool).

Have there been any changes to the investment manager’s list of approved counter-parties over the past month? No.

7. Are the investment purposes for a derivative investment consistent with the four purposes stated SamCERA’s policies? (Appendix C(6)) Yes/No: Yes. If no, please explain. Has the firm developed any new purposes for derivative investments? Yes/No: No. If yes, please explain.

8. List all limited allocation derivative investments individually and the percentage of the portfolio’s assets represented by each investment. (Appendix C(7)). State if the firm has evaluated the exposure to market value losses that can occur from each of these derivatives. Yes/No: Yes If no,
Please explain. State if these derivative investments in total represent more than 5% of the portfolio’s market value. If more than 5%, please explain.

As a participant in the Broad Market Duration pool, SamCERA will have a small amount of exposure to derivatives from time to time. As of 6/30/13 this exposure was comprised entirely of interest rate swaps. The portfolio held 14 interest rate swaps with an average notional of 0.2% of the portfolio and a total net exposure of 0.02%.

9. State if any restricted derivative investments are held in SamCERA’s portfolios. Yes/No: No. If any are held, state the percentage of the portfolio’s assets held in such derivatives and why the firm is not in compliance with the investment policies. (Appendix C(7))

10. For derivative investments with allocation limits, has the firm tested and measured these investments’ sensitivities to changes in key risk factors? (Appendix C(8)) Yes/No: Yes. If no, please explain.

11. Have all derivative investments been made in a manner consistent with the derivative investment process specified in the policy statement? (Appendix C(9)) Yes/No: Yes. If no, please explain.

12. Specify the security pricing sources used when developing portfolio market value exposures for limited allocation derivatives. (Appendix C(10 b))

Fidelity Pricing & Cash Management Services (FPCMS) utilizes a combination of sources for derivatives pricing. Wall Street brokers are our primary sources for swaps. Bloomberg is our primary pricing source for futures.
13. Provide a statement regarding the liquidity of the derivative investments. Provide a general statement discussing the legal and regulatory risks associated with the portfolio manager's investments in derivatives.

All derivative instruments used in the portfolio are liquid. Given the minimal role they play in the portfolio and the extensive research conducted by the Pyramis Counterparty Risk team and the large team of in-house and external lawyers that support these efforts we feel the legal and regulatory risks are minimal.

14. State if the legal and regulatory risk associated with portfolio derivative investments have changed over the past six months. (Appendix C(10 g)) Yes/No: Yes. If yes, please explain.

The Dodd-Frank Wall Street Reform and Consumer Protection Act (Dodd-Frank) was adopted in 2010 to create a more effective regulatory structure, address a number of regulatory gaps, and increase market transparency and accountability in the financial system. Dodd-Frank was intended, among other things, to create a comprehensive regulatory framework for derivative instruments, and to increase market accountability and transparency in the financial system. Regulatory implementation of a number of important rules has taken effect during the first half of 2013. In particular, certain derivatives transaction that customarily traded over-the-counter must now trade through a clearinghouse. This migration to clearing has had a meaningful impact on market access, pricing, reporting, and counterparty risk. We have taken the necessary steps on behalf of our clients to accommodate the current rules changes and will continue to work to prepare for future regulatory changes.

INVESTMENT MANAGER GUIDELINES

1. Are portfolio holdings well-diversified, and made in liquid securities? (Section 5.0) Yes/No: Yes.

2. Has the firm engaged in short selling, use of leverage or margin and/or investments in commodities? Yes/No: No.

CASH & EQUIVALENTS

1. Does the firm directly invest in short term fixed income investments? Yes/No: Yes. If yes, do the investments comply with the policies? (Section 11.0) Yes/No: Yes.
DOMESTIC FIXED INCOME PORTFOLIOS

1. State the percentage of the portfolio held in each of the following types of securities (Section 11.3):

<table>
<thead>
<tr>
<th>Security Type</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>CERTIFICATES OF DEPOSIT</td>

</tr>
</tbody>
</table>

2. Is the firm monitoring its active investment management decisions relative to the Retirement Association’s investment benchmark? (Section 6.3) Yes/No: Yes.

3. Does the firm conduct horizon analysis testing? (Section 19.4 j) Yes/No: Yes.

4. Are any holdings below investment grade? (Section 11.3(b)) If yes, why are they held in the portfolio?
   As of 6/30/13, 0.95% of the portfolio was allocated to below investment grade securities. These positions were purchased as investment-grade, but were subsequently downgraded to below investment-grade. The portfolio will continue to hold them until the risk/return profile of the securities no longer meets our fundamental research or relative value standards.

5. Excluding U. S. Government and Agency bond holdings, did any individual bond issue represent more than 5% of the market value of the portfolio? Yes/No: No. (Section 11.3(b)) Please specify the bond issue and percentage amount. At the time of purchase, was there any single industry, based on NAICS codes, which represented more than 15% of the market value of the account. No. Please specify the name of the industry and percentage amount.

6. What percentage of the portfolio is held in Rule 144A securities? (Section 11.3(c))
   As of 6/30/13, 3.1% of the portfolio was allocated to 144A securities.

Name of Firm: Pyramis Global Advisors
Compliance Certification Statement
San Mateo County
Employees’ Retirement Association

In accordance with the Investment Objectives and Policy Statement, the following compliance worksheet will be completed by each of SamCERA's investment managers on a semi-annual basis. These statements must be e-mailed to SamCERA’s office (Investments@samcera.org) by Monday, July 15, 2013.

General Compliance Issues

1. Has the firm acted as a fiduciary and invested its assets for the sole benefit of SamCERA? (Section 19.4(a)) Yes/No: Yes If no, please explain.

2. Are SamCERA's market benchmarks in the respective asset class areas acceptable to the firm? (Section 6.3) Yes/No: Yes If no, please explain.

3. Has the firm’s insurance coverage been sustained? (Section 19.4(c)) Yes/No: Yes If no, please explain.

4. Does the firm consider any of SamCERA’s investment objectives unreasonable? (Section 6.0) Yes/No: No If yes, please explain.

5. Have there been any significant portfolio developments, major changes in firm ownership, organizational structure and personnel? (Section 19.4(j)) Yes/No: Yes If yes, please explain.

In June of 2013 Mr. Paul Jablansky, Western Asset’s Head of Structured Products, left the Firm. His duties are being covered on an interim basis by Mr. Dennis J. McNamara, CFA.

6. Have there been any changes in the firm’s investment approach? (Section 19.4(e)) Yes/No: No If yes, please explain.

7. Do SamCERA's guidelines require your firm to manage the portfolio significantly differently than other similar portfolios? (Section 9.1) Yes/No: No If yes, please explain.

8. Have there have been any industry or regulatory disciplinary actions taken against the firm? (Section 19.4(a)) Yes/No: No If yes, please explain.
Derivative Investments

1. Are derivatives used in the management of the investment strategy? Yes/No: **Yes** If Yes, please answer the remaining questions in this section. If No, please skip the remaining questions in this section.

2. Are derivative investments in compliance with *SamCERA’s* investment policies? (Appendix C) Yes/No: **Yes** If no, please explain.

3. If the firm entered into a non-exchange traded derivative, was the general nature and associated risks of the counter-party fully evaluated? (Appendix C(5)) Yes/No: **Yes** If no, please explain.

4. For non-exchange traded derivative transactions, were the counter-parties broker/dealers? (Appendix C(5)) Yes/No: **Yes** If yes: Do the counter-parties have investment grade debt? Yes/No: **Yes** Are the counter-parties registered with the SEC and do they have net capital to protect against potential adverse market circumstances? Yes/No: **Yes** If no, please explain.

5. For non-exchange traded derivative transactions, were the counter-parties financial institutions (banks)? (Appendix C(5)) Yes/No: **Yes** If yes: Do the counter-parties have investment grade debt? Yes/No: **Yes** Do the counter-parties have total assets in excess of $1 billion, and significant net capital to protect against potential adverse market circumstances? Yes/No: **Yes** If no, please explain.

Western Asset’s Broker Review Committee (“the Committee”) maintains an Approved List of counterparties for client transactions. Each counterparty is reviewed by members of Western Asset’s credit group prior to approval. Credit review includes analysis of the counterparty’s capital adequacy, profitability, liquidity and other factors as may be appropriate. In addition to the credit review, counterparties are evaluated on execution capability, pricing, responsiveness, specialist credentials, research and back-office capabilities. The Committee reviews additions to the Approved Lists quarterly with a thorough re-evaluation of all counterparties annually.

The majority of Western Asset’s trades involve limited counterparty credit risk. Once a trade is done and settled the Firm’s exposure to the broker is over. Counterparty credit risk is only created when Western Asset relies on the broker to make future payments or forward settle a trade beyond the normal period. While this is obvious for multi-year swaps transactions, there are other transactions that also create counterparty credit risk. When aggregating Western Asset’s total credit exposure to each counterparty, it is important to also take into account all of these transactions.

Western Asset seeks to reduce risk and promote diversification in its use of counterparties when using credit default swaps as in all areas of investment. The use of multiple counterparties lends itself to a more competitive bidding process, and therefore
promotes best execution. Counterparty creditworthiness is a key factor that Western Asset’s front office reviews before entering into a derivative agreement.

Subsequent to a trade, Western Asset's Swaps Team monitors swap exposure on a periodic basis (e.g., daily, weekly) based on the terms of the credit support annex (CSA) and instructs cash and/or security movements via the custodian bank to satisfy the collateral requirements in order to mitigate counterparty risk.

Western Asset has a CSA with each counterparty with whom the Firm trades. The CSA protects the client's marked-to-market exposure against each counterparty for amounts exceeding the minimum collateral transfer threshold. The minimum transfer amount established in each CSA varies by counterparty but generally ranges from $250,000 to $750,000.

6. Is individual counter-party exposure well diversified? (Appendix C(5)) Yes/No: **No**
   If no, please explain. What is the largest exposure to a single counter-party within the portfolio? Please specify the name of the counter-party and the amount of exposure.
   Have there been any changes to the investment manager’s list of approved counterparties over the past month?

   Counterparty selection is a balance of diversification versus best execution. The lack of counterparty diversification in the SamCERA portfolio can be attributed to the relatively small amount of exposure on the whole, seven basis points of the portfolio’s market value. This can lead to one position making up the majority of the counterparty risk. With that said, we are concerned about concentration risks that breach 3% of the portfolio’s MV, and currently the largest exposure is only five basis points of the MV.

   The portfolio has the largest exposure to the Royal Bank of Scotland Group, PLC.

   In the past month (6/1/2013 – 6/30/2013) there were no changes to our approved counterparty list.

7. Are the investment purposes for a derivative investment consistent with the four purposes stated SamCERA’s policies? (Appendix C(6)) Yes/No: **Yes**
   If no, please explain. Has the firm developed any new purposes for derivative investments?
   Yes/No: **No**
   If yes, please explain.

8. List all limited allocation derivative investments individually and the percentage of the portfolio’s assets represented by each investment. (Appendix C(7)) State if the firm has evaluated the exposure to market value losses that can occur from each of these derivatives. Yes/No: **Yes**
   If no, please explain. State if these derivative investments in total represent more than 5% of the portfolio’s market value. If more than 5%, please explain.

   Please see the limited allocation derivatives file attached to find all limited derivatives as of 6/30/2013.
Western Asset uses derivatives only when allowed by client guidelines. The Firm's derivatives strategy is overseen by the Broad Market Committee under the oversight of the Chief Investment Officer, utilizing reporting provided by the Risk Management Department. Derivative risk is addressed through avoiding leverage and limiting exposure. Under no circumstances does Western Asset use leverage in its derivatives strategy. The Legal & Compliance Department monitors derivative usage and their adherence to guidelines continuously. Notional exposure limits are monitored daily. Western Asset uses industry-leading Charles River Development’s ComplianceMaster (CRD) as well as PCR, an in house derivative position monitoring system, to monitor derivative quantitative limits. Where an issue is identified, it is escalated to the portfolio manager and the client service executive assigned to the account. In addition, the Risk Management Department frequently monitors the extent of derivatives used by the Firm. Exposure limitations are addressed in the standard Derivatives Philosophy and Guidelines attached.

9. State if any restricted derivative investments are held in SamCERA's portfolios. Yes/No: **No** If any are held, state the percentage of the portfolio’s assets held in such derivatives and why the firm is not in compliance with the investment policies. (Appendix C(7))

10. For derivative investments with allocation limits, has the firm tested and measured these investments’ sensitivities to changes in key risk factors? (Appendix C(8)) Yes/No: **Yes** If no, please explain.

Stress testing, as part of Western Asset’s ongoing risk management process, is performed continuously to its portfolios in order to assess their behavior under a variety of interest rate and spread scenarios. The correlation assumptions used in these simulations are continually revised on the basis of historical experience and the judgment of senior investment professionals. Correlations can also be equal to one in certain scenarios. The objective of scenario analysis is to help ensure that portfolio risk is well-diversified and that tracking error will not exceed expectations. Scenario analyzes include a full revaluation of all securities. This is to help Investments professionals to understand the behavior of the portfolios under different tail metrics. Portfolio managers receive a report which estimates the likely performance behavior of all portfolios under their supervision under a variety of what-if scenarios (e.g., if interest rates rise 50 or 100 bps, if the yield curve steepens or flattens, if spreads widen by 50 bps).

11. Have all derivative investments been made in a manner consistent with the derivative investment process specified in the policy statement? (Appendix C(9)) Yes/No: **Yes** If no, please explain.

12. Specify the security pricing sources used when developing portfolio market value exposures for limited allocation derivatives. (Appendix C(10 b))
Pricing sources for derivatives vary depending upon the specific derivative instrument. Exchange traded futures and options are priced using closing prices from the primary exchange where they are traded, using closing levels pulled from Bloomberg. Over-the-counter (OTC) options are priced by obtaining current prices from broker/dealers or a Bloomberg model. Interest rate swaps and credit default swaps where possible are priced by a pricing vendor, Markit, otherwise Bloomberg swaps models or dealer quotations are used.

Most OTC derivative instruments are priced using external vendor Markit, otherwise Bloomberg swaps models or dealer quotations are used.

At the time of trade input, Western Asset captures the information for both the derivative and its underlying instrument. The Firm updates the price and analytics (duration, yield, etc) for the underlying instrument on a daily basis, even if it is not held, to ensure the quality of data for the derivative position. The risks of the derivative and its underlying physical are monitored concurrently using various reports.

Once Western Asset is satisfied it has highly accurate data at security level, the Firm commences the process of producing the various holdings, exposure, concentration, benchmark comparison and other risk management reports used by the Firm’s portfolio and risk management professionals on a daily basis. These reports show the net effects of derivatives on a portfolio. Such reports would show term structure, convexity, interest rate and spread sensitivity breakdown by sectors or maturity buckets. Western Asset’s portfolio management and risk management teams also coordinate with the compliance department to make sure that net exposure to derivatives are in line with a client’s investment guidelines.

13. Provide a statement regarding the liquidity of the derivative investments. Provide a general statement discussing the legal and regulatory risks associated with the portfolio manager's investments in derivatives.

Western Asset's management style focuses on adding incremental value without taking on excessive risk. Consequently, the Firm’s guidelines adhere to a value at risk of no
more than 25 basis points or less at risk in any derivatives investment. To ensure that its use of derivative investments is consistent with this investment philosophy, Western Asset has developed internal guidelines – listed below along with a brief description of their rationale – which form the basis of every decision to employ derivatives in investment portfolios, and which are used as a starting point for developing standard guidelines.

- Generally, the net duration contribution to the portfolio for long futures and interest rate swaps will not exceed 20% of the underlying portfolio duration. Net short positions, typically a hedge against other security holdings, will also be limited to a duration contribution of not more than 20% of the portfolio. In no case will the use of futures or swaps bring the portfolio's duration outside of the 80%-120% band.
- Index and credit default swaps will count their full notional value as exposure to the underlying asset. Concentration limits for a particular name or asset class will apply based on the sum of its cash and derivative security holdings.
- Short (written) options positions will always be hedged, either with current security holdings, other options or futures positions. Mortgage derivatives with significant short option characteristics will not exceed 5% of the portfolio, and will generally be a) offset by positions in other mortgage derivatives, or b) offset by other portfolio positions.
- Options positions will be limited so that under a reasonable range of market scenarios the portfolio's duration will not change by more than +/- 20%
- Structured notes with significant short option positions or increasing leverage will not be purchased, and in no case will structured notes exceed 5% of portfolio value.
- Futures and options contracts will be limited to liquid instruments actively traded on major exchanges, or, if over the counter, executed with major dealers.
- No more than 5% of the portfolio will be invested in original futures margin and options premiums, exclusive of any in the money portion of the premiums.
- Under no circumstances will the combination of derivative positions change the characteristics of the portfolio so that it violates any guideline set forth in the Investment Management Agreement.

14. State if the legal and regulatory risk associated with portfolio derivative investments have changed over the past six months. (Appendix C(10 g))  Yes/No:  No If yes, please explain.

**Investment Manager Guidelines**

1. Are portfolio holdings well-diversified, and made in liquid securities? (Section 5.0)  Yes/No: Yes If no, please explain.
2. Has the firm engaged in short selling, use of leverage or margin and/or investments in commodities? Yes/No: **No** If yes, please explain.

As of 6/30 there were no short positions held in the portfolio nor were there any investments in commodities. Short (sold) options are allowed in accordance to the Investment Management Agreement; Exhibit C dated October 25, 2004.

Western Asset’s standard approach to leverage is to cover forward securities and the mark-to-market value of interest rate swaps with cash and cash equivalent securities. Next the Firm’s investment professionals look to cover short and long futures, short puts, short calls and the notional value short credit default swaps with any excess cash not covering forwards, offsetting derivatives or investment grade liquid assets in the account. This methodology of determining leverage/coverage is consistent with the standards used for monitoring coverage requirements as prescribed under Section 18 of the Investment Company Act of 1940. Western Asset has used derivatives in portfolios since 1988, and most of the Firm's clients allow for derivatives authority.

**Cash & Equivalents**

1. Does the firm directly invest in short term fixed income investments? Yes/No: **Yes** If yes, do the investments comply with the policies? (Section 11.0) Yes/No: **Yes** If no, please explain.

This is in accordance to the Investment Management Agreement; Exhibit C dated October 25, 2004.

**Domestic Fixed Income Portfolios**

1. State the percentage of the portfolio held in each of the following types of securities (Section 11.3)

<table>

2. Is the firm monitoring its active investment management decisions relative to the Retirement Association’s investment benchmark? (Section 6.3) Yes/No: **Yes** If no, please explain.

3. Does the firm conduct horizon analysis testing? (Section 19.4 j) Yes/No: **Yes** If no, please explain.

Western Asset’s investment management team estimates horizon excess returns under various market scenarios, including best, worst and likely cases. Particular attention is paid to diversifying strategies under each scenario. The horizon for risk management is the same as that for investment management, as the risk effort is closely integrated into the investment process. The firm's tracking error model calculates predicted tracking errors based on 18 months of historical data. Western Asset also generates scenario analysis results daily for representative accounts. These results estimate horizon durations given various interest rate shocks. The horizon is generally instantaneous as Western Asset evaluates one day extreme movements in rates for duration hedging purposes. The Firm’s systems allow for any time horizon and can output a wide array of horizon performance or analytics related statistics.

Western Asset does not place a time frame on any of the Firm’s strategies or underlying security holdings. As value investors, Western Asset monitors positions regularly to insure that they are consistent with views of value within the context of a particular portfolio’s risk profile.

4. Are any holdings below investment grade? (Section 11.3(b)) If yes, why are they held in the portfolio?

Yes, total exposure to BIG @ 9.043%. Held per Exhibit C dated 10/25/2004

5. Excluding U.S. Government and Agency bond holdings, did any individual bond issue represent more than 5% of the market value of the portfolio? Yes/No: **No** (Section 11.3(b)) Please specify the bond issue and percentage amount. At the time of purchase, was there any single industry, based on NAICS codes, which represented more than 15% of the market value of the account. Yes/No: **No** Please specify the name of the industry and percentage amount.

6. What percentage of the portfolio is held in Rule 144A securities? (Section 11.3(c))

As of 6/30/2013 6.86% of the portfolio’s MV was held in Rule 144A securities.

APPENDIX 1
Franklin Advisers, Inc. Regulatory Summary

APPENDIX 2
Below Investment Grade List
GENERAL COMPLIANCE ISSUES

1. Has the firm acted as a fiduciary and invested its assets for the sole benefit of SamCERA? (Section 19.4(a))
   - Yes ☒ No ☐
   If no, please explain.

2. Are SamCERA’s market benchmarks in the respective asset class areas acceptable to the firm? (Section 6.3)
   - Yes ☒ No ☐
   If no, please explain.
   The benchmark for the SamCERA portfolio is the Barclays Capital Multiverse Index.
   There is no benchmark that perfectly captures Franklin Templeton Global Multi Sector Plus' benchmark unconstrained approach to global fixed income investing. The Barclays Capital Multiverse Index benchmark is used for performance comparison, the calculation of risk statistics, but not for portfolio construction. While it is recognized that the strategy will be compared to a benchmark for performance and risk measurement, from a portfolio construction standpoint, the strategy is benchmark unconstrained. The indifference to the benchmark implies an absolute return approach whereby the strategy will invest only in countries or securities that are deemed attractive.

3. Has the firm’s insurance coverage been sustained? (Section 19.4(c))
   - Yes ☒ No ☐
   If no, please explain.

4. Does the firm consider any of SamCERA’s investment objectives unreasonable? (Section 6.0)
   - Yes ☐ No ☒
   If yes, please explain.

5. Have there been any significant portfolio developments, major changes in firm ownership, organizational structure and personnel? (Section 19.4(j))
   - Yes ☒ No ☐
   If yes, please explain.
   
   Portfolio Developments
   There have been no significant developments to the SamCERA portfolio over the last six months ending June 30, 2012.
Firm Ownership
There have been no material changes to the ownership structure of the firm during the past six months ending June 30, 2013.

Organizational Structure
The following changes have taken place in the Franklin Templeton business organization since January 1, 2013:

In June 2013, Franklin Templeton completed its acquisition of alternative investments specialist Pelagos Capital Management, LLC, which began in November 2010. Pelagos, an independent investment advisor, was founded in 2005 and is based in Boston, Massachusetts. Pelagos, whose mission is to create alternative investment solutions that enhance overall returns and lower portfolio volatility, manages three distinct alternative investment capabilities, including a commodity strategy, a managed futures strategy, and a hedge fund replication strategy.

Senior Management
The following changes have taken place in the senior management structure of Franklin Templeton in the last six months ending June 30, 2013.

Chief Executive Officer and Chairman
From 1957 until 2013, Charles B. Johnson led Franklin Templeton Investments as its President, CEO and/or Chairman (or similar variation). Greg Johnson became co-CEO in 2004 and has proven his ability to lead the company. For more than a quarter of a century, Greg Johnson has had experience in all major aspects of Franklin Templeton’s business, including distribution and investment management.

In 2013, upon the retirement of Charles B. Johnson as Chairman, Greg Johnson was named Chairman. As Chairman of the Board, CEO and President, Mr. Johnson has full responsibility for leading the organization, devising the high-level strategy for the company and directing the group’s day-to-day business operations. He oversees all aspects of the organization working closely with the Board.

Personnel
The lead portfolio managers of the SamCERA portfolio are Dr. Michael Hasenstab and Canyon Chan, CFA. The lead portfolio managers are supported by the investment resources of the larger Franklin Templeton Fixed Income Group and more specifically, the Franklin Templeton Global Bond Team. There have been no changes to the lead portfolio managers over the past six months ending June 30, 2013.
6. Have there been any changes in the firm’s investment approach? (Section 19.4(e))
   - Yes  [ ] No

   If yes, please explain.

7. Do SamCERA’s guidelines require your firm to manage the portfolio significantly differently than other similar portfolios? (Section 9.1)
   - Yes  [ ] No

   If yes, please explain.

8. Have there have been any industry or regulatory disciplinary actions taken against the firm? (Section 19.4(a))
   - Yes  [ ] No

   If yes, please explain.

   No. During the past six months ended June 30, 2013, Franklin Advisers, Inc. (FAV), was not the subject of any investment-related proceedings, findings or orders brought or made by any U.S. federal or state regulatory agency, foreign financial regulatory authority or self-regulatory organization. For a summary of investment-related proceedings, findings or orders brought or made by any U.S. federal or state regulatory agency, foreign financial regulatory authority or self-regulatory organization against FAV and/or certain of its advisory affiliates in the past 10 years ended March 31, 2013, as well as certain other regulatory matters, please see Appendix 1 Franklin Advisers, Inc. Regulatory Summary. From time to time, FAV and its advisory affiliates receive subpoenas and inquiries from regulators, including requests for documents or information, and also may become the subject of governmental or regulatory examinations or investigations. Findings or orders resulting from such subpoenas, inquiries, examinations or investigations if any, will be reported, to the extent required and permitted by law, on FAV’s Form ADV filed with the U.S. Securities and Exchange Commission. (Italicized terms are as defined on Form ADV.)
DERIVATIVE INVESTMENTS

1. Are derivatives used in the management of the investment strategy?
   - Yes ☒ No ☐

   If Yes, please answer the remaining questions in this section. If No, please skip the remaining questions in this section.

2. Are derivative investments in compliance with SamCERA’s investment policies? (Appendix C)
   - Yes ☒ No ☐

   If no, please explain.

3. If the firm entered into a non-exchange traded derivative, was the general nature and associated risks of the counter-party fully evaluated? (Appendix C(5))
   - Yes ☒ No ☐

   If no, please explain.

4. For non-exchange traded derivative transactions, were the counter-parties broker/dealers? (Appendix C(5))
   - Yes ☒ No ☐

   If yes: Do the counter-parties have investment grade debt?
   - Yes ☒ No ☐

   Are the counter-parties registered with the SEC and do they have net capital to protect against potential adverse market circumstances?
   - Yes ☒ No ☐

   If no, please explain.

5. For non-exchange traded derivative transactions, were the counter-parties financial institutions (banks)? (Appendix C(5))
   - Yes ☒ No ☐

   If yes: Do the counter-parties have investment grade debt?
   - Yes ☒ No ☐
Do the counter-parties have total assets in excess of $1 billion, and significant net capital to protect against potential adverse market circumstances?

☒ Yes ☐ No

If no, please explain.

6. Is individual counter-party exposure well diversified? (Appendix C(5))

☒ Yes ☐ No

If no, please explain.

What is the largest exposure to a single counter-party within the portfolio? Please specify the name of the counter-party and the amount of exposure. Have there been any changes to the investment manager’s list of approved counter-parties over the past month?

The largest exposure to a single counter-party is Deutsche Bank AG, exposure is below 2.5%.

There have been no changes to the approved counter-parties list over the previous six months ending June 30, 2013.

7. Are the investment purposes for a derivative investment consistent with the four purposes stated in SamCERA’s policies? (Appendix C(6))

☒ Yes ☐ No

If no, please explain.

Has the firm developed any new purposes for derivative investments?

☐ Yes ☒ No

If yes, please explain.

8. List all limited allocation derivative investments individually and the percentage of the portfolio’s assets represented by each investment. (Appendix C(7)) State if the firm has evaluated the exposure to market value losses that can occur from each of these derivatives.

☐ Yes ☐ No

If no, please explain.

Not applicable. No limited allocation derivative investments are held in the SamCERA Portfolio.

State if these derivative investments in total represent more than 5% of the portfolio’s market value. If more than 5%, please explain.

Not applicable.
9. State if any restricted derivative investments are held in SamCERA's portfolios.

☐ Yes  ☒ No

If any are held, state the percentage of the portfolio’s assets held in such derivatives and why the firm is not in compliance with the investment policies. (Appendix C(7))

10. For derivative investments with allocation limits, has the firm tested and measured these investments’ sensitivities to changes in key risk factors? (Appendix C(8))

☐ Yes  ☐ No

If no, please explain.

Not applicable. No limited allocation derivative investments are held in the SamCERA portfolio.

11. Have all derivative investments been made in a manner consistent with the derivative investment process specified in the policy statement? (Appendix C(9))

☒ Yes  ☐ No

If no, please explain.

12. Specify the security pricing sources used when developing portfolio market value exposures for limited allocation derivatives. (Appendix C(10 b))

Not applicable. No limited allocation derivative investments are held in the SamCERA portfolio.

13. Provide a statement regarding the liquidity of the derivative investments. Provide a general statement discussing the legal and regulatory risks associated with the portfolio manager's investments in derivatives.

It is the policy of the Franklin Templeton Fixed Income Group, the investment platform of the SamCERA portfolio, to use derivatives only when client guidelines permit. Derivatives may be an efficient way to implement fixed income investment views on a particular sector in one transaction and also as a tool to help isolate risk exposures. Compared with cash bonds, derivatives can be more flexible and more liquid, and may have lower transaction costs. In those strategies that employ derivative instruments, or when clients request the use of derivatives to achieve certain investment objectives, we may also seek to gain exposure through the use of exchange-traded and/or over-the-counter derivatives.

As an opportunistic strategy, the Franklin Templeton Global Multi Sector Plus strategy (the investment strategy of the SamCERA portfolio) utilizes a wide variety of instruments to gain exposure to various fixed income sectors and achieve strategy objectives. For example, foreign exchange forward contracts are frequently used for hedging purposes and to express currency views. We may also engage in cross hedging as an efficient method of implementing the portfolio’s optimal currency structure. Interest rate futures and swaps may be used to implement views on interest rates, quickly adjust portfolio duration, or efficiently handle cash flows. Total return swaps can quickly add or reduce bond market exposure.

Franklin Templeton’s proprietary risk management systems enable us to properly model derivative instruments and fully understand portfolio risk. Derivatives are used only when portfolio guidelines permit and are not used to generate alpha.
14. State if the legal and regulatory risk associated with portfolio derivative investments have changed over the past six months. (Appendix C(10 g))

☐ Yes  ❏ No

If yes, please explain.
INVESTMENT MANAGER GUIDELINES

1. Are portfolio holdings well-diversified, and made in liquid securities? (Section 5.0)
   ☑ Yes   ☐ No
   If no, please explain.

2. Has the firm engaged in short selling, use of leverage or margin and/or investments in commodities?
   ☐ Yes   ☑ No
   If yes, please explain.
   The Global Multi Sector Plus strategy does not engage in short selling, employ leverage or margins.
CASH & EQUIVALENTS

1. Does the firm directly invest in short term fixed income investments?
   ✗ Yes    ☐ No

   If yes, do the investments comply with the policies? (Section 11.0)
   ✗ Yes    ☐ No

   If no, please explain.
GLOBAL FIXED INCOME PORTFOLIOS

1. State the percentage of the portfolio held in each of the following types of securities (please sub-total each by region) (Section 11.3):

The following table shows the sector weightings for the SamCERA portfolio as of June 30, 2013. Please note the specific sector weightings for the categories listed above are not available.

2. Is the firm monitoring its active investment management decisions relative to the Retirement Association’s investment benchmark? (Section 6.3)

☐ Yes ☒ No

If no, please explain.

There is no benchmark that perfectly captures Franklin Templeton Global Multi Sector Plus' benchmark unconstrained approach to global fixed income investing. The Barclays Capital Multiverse Index benchmark is used for performance comparison, the calculation of risk statistics, but not for portfolio construction. While it is recognized that the strategy will be compared to a benchmark for performance and risk measurement, from a portfolio construction standpoint, the strategy is benchmark unconstrained. The indifference to the benchmark implies an absolute return approach whereby the strategy will invest only in countries or securities that are deemed attractive.
4. Please list any holdings that are below investment grade or not-rated (Section 11.3(b))
   Please refer to Appendix 2: *Below Investment Grade List*.

5. Excluding U. S. Government and Agency bond holdings, did any individual bond issue represent more than 5% of the market value of the portfolio? (Section 11.3(b))
   ☐ Yes          ☒ No
   Please specify the bond issue and percentage amount.

   At the time of purchase, was there any single industry, based on NAICS codes, which represented more than 15% of the market value of the account? Please specify the name of the industry and percentage amount.
   ☐ Yes          ☒ No

6. What percentage of the portfolio is held in Rule 144A securities? (Section 11.3(c))
   The percentage of 144A securities held in the account as of June 30, 2013 is 16.79%.

INVESCO Core Real Estate – June 30, 2013

Compliance Certification Statement
San Mateo County
Employees’ Retirement Association

In accordance with the Investment Objectives and Policy Statement, the following compliance worksheet will be completed by each of SamCERA’s investment managers on a semi-annual basis. These statements must be e-mailed to SamCERA’s office (Investments@samcera.org) by Monday, July 15, 2013.

General Compliance Issues

1. Are SamCERA’s market benchmarks in the respective asset class areas acceptable to the firm? (Section 6.3) Yes/No: ___ If no, please explain.

2. Has the firm’s insurance coverage been sustained? (Section 19.4(c)) Yes/No: ___ If no, please explain.

3. Does the firm consider any of SamCERA’s investment objectives unreasonable? (Section 6.0) Yes/No: ___ If yes, please explain.

4. Have there been any significant portfolio developments, major changes in firm ownership, organizational structure and personnel? (Section 19.4(j)) Yes/No: ___ If yes, please explain.

5. Have there been any changes in the firm’s investment approach? (Section 19.4(e)) Yes/No: ___ If yes, please explain.

6. Have there have been any industry or regulatory disciplinary actions taken against the firm? (Section 19.4(a)) Yes/No: ___ If yes, please explain.

Investment Manager Guidelines

1. Are portfolio holdings well-diversified? (Section 5.0) Yes/No: ___ If no, please explain.

2. Has the firm used leverage? Yes/No: ___ If yes, please explain.

   Yes. The maximum leverage amount for the Fund is 35%. As of March 31, 2013, the Fund’s leverage was 20.7%.
Cash & Equivalents

1. Does the firm directly invest in short term fixed income investments? Yes/No: ___ If yes, do the investments comply with the policies? (Section 11.0) Yes/No: ___ If no, please explain.

Real Estate Portfolios

1. Is the portfolio diversified as to region, property type, industry, and economic base? (12.3(a)2) Yes/No ___ If no, do the investments comply with the policies?

2. Is the portfolio achieving a total time-weighted rate of return, net of fees, which equals or exceeds, the NFI ODCE index? (12.2) Yes/No ___ If no, please explain.

The Fund’s net returns exceed the net NFI ODCE index on a 3-year, 5-year and since inception basis.

3. Does the core fund concentration exceed 40% (by value) in any single property type or 35% in any single metropolitan statistical area, determined as of the date of the acquisition of the property? (12.3(a)2) Yes/No ___ If yes, please explain.

4. Is the portfolio leverage within the 35% of overall loan to value guideline (12.3(d)) Yes/No ___ If no, please explain.

TO: Board of Retirement
FROM: Michael Coultrip, Chief Investment Officer

Staff Recommendation:

Background:
This preliminary report is intended to provide a high-level view of the portfolio and its trends. It is not intended to provide short-term performance upon which the Board would act. As discussed previously, preliminary performance estimates are now included for Angelo Gordon’s PPIP, AQR’s risk parity, and AQR’s hedge fund portfolios. The quarterly performance metrics are not yet available for the Angelo Gordon STAR Fund and our private equity and real estate portfolios. The performance for these portfolios will be reflected in the quarterly performance report generated by SIS.

The attached performance report now shows both net and gross of fee returns for the total plan on page one, with net composite returns (pages 2-3) and net manager returns (pages 4-8) also shown.

Discussion:
The fund’s net preliminary return for June was -2.1%, while the preliminary trailing twelve month return (and fiscal-year return ending June 2013) was +13.5% net (+13.8% gross). The twelve-month net return is higher than SamCERA’s Total Plan Policy Benchmark return of 12.7% and above the Actuarial Assumed Earnings Rate of 7.50%. As a reminder, SamCERA should expect performance to vary substantially from that of the Total Plan Policy Benchmark in the initial stages of its private equity implementation.

June was a risk-off month as stocks, bonds, and commodities were all down due to market fear around the Federal Reserve’s plans to ‘taper’ their bond purchases as conditions warrant. This led to a substantial increase in interest rates, with the yield on the 10 year bond higher by 36 basis points, bringing the combined yield increase over May and June to 82 basis points. This in turn led to an unwinding of levered ‘risk-on’ bets in emerging markets and credit markets.

Economic activity continued to muddle along in June, with continued strength in the housing sector offset by lackluster jobs data and a downward revision in the final GDP estimate for the 1st quarter.
The S&P 500 was down -1.3% during the month. While most domestic equity indices were down across the board, smaller-capitalization stocks outperformed their larger-cap peers (but were still down on the month).

International equity indices were also lower on the month, with developed markets (as measured by MSCI EAFE) down by −3.5% and emerging markets down by -6.3%.

As a result of higher across-the-board rates and wider credit spreads, the general fixed income market declined -1.6%. Riskier assets fared worse, with high yield bonds down -2.6% and emerging market bonds down -5.0% on the month.

Commodities were down -4.7% on continued concerns around lower demand coming from weaker global economic activity. The rout in gold continued in June, with gold prices down -12%, resulting in a -27% loss for the year as investors placed less of a premium on the ‘crisis insurance’ role that gold has traditionally offered.

Attachments:

SIS Market Update
State Street Performance Report
U.S. EQUITY

The Federal Reserve said risks to the outlook for the U.S. economy and job market have eased since last fall, but said it would keep buying bonds given the still high level of unemployment.

Domestic equity markets were lower across the board in June, with large cap stocks leading the decline. The Russell 1000 Growth Index was down -1.88% for the month and the Russell 1000 Value Index was down -0.88%. The Russell 2000 Growth Index was down -0.62% and the Russell 2000 Value was down -0.41%. The S&P 500 Index ended the month down -1.34%. The Russell 3000 Index was up +14.06% through the first two quarters of calendar year 2013.

The S&P 500 Index has a trailing P/E ratio of 18.4 and a forward 12-month estimate P/E ratio of 14.6 and dividend yield of 2.1%.

Corporate merger highlights for the month included: Dell’s board of directors unanimously recommended an offer from Michael Dell and Silver Lake Partners to take the company private for $24.4 billion; Heinz received all regulatory approvals needed to sell itself to Berkshire Hathaway and private equity firm 3G Capital for $23.2 billion; AstraZeneca will buy U.S. respiratory drug specialist Pearl Therapeutics for $1.15 billion; Travelers will buy Dominion of Canada General Insurance Co. for about $1.1 billion; Google is finalizing a deal to acquire Israeli based online mapping company Waze for $1.3 billion; Business information provider IHS plans to acquire R.L. Polk, owner of Carfax, for $1.4 billion; Softbank agreed with Sprint Nextel to raise its offer for the U.S. wireless carrier to $21.6 billion to fend off a counter bid by Dish Network; Apollo Tyres will acquire Cooper Tire & Rubber for $2.5 billion; Gannett will buy TV station owner Belo for $2.2 billion in a deal that will make Gannett the USA’s fourth largest owner of major network affiliates; U.S.-bill acquire Germany’s largest cable operator Kabel Deutschland for $10 billion; U.S. based Royalty Pharma dropped a hostile bid worth up to $8 billion for Irish drug maker Elan; Rosneft plans to sign a deal to supply China with oil worth $60 billion, according to Vladimir Putin, as ties between Russia and China become tighter; Tenet Healthcare will buy smaller rival Vanguard Health for $1.7 billion; and, LifeLabs Medical Laboratory will acquire rival CML HealthCare in a deal valued at about $900 million.

FIXED INCOME

The Commerce Department reported that gross domestic product expanded at 1.8% annual rate in the 1st quarter, revised down from a previously estimated 2.4% pace. The quality of growth was also poorer, with final sales, a measure of momentum, revised down from 1.8% to 1.2%, as lower consumer spending and business fixed investment easily offset higher housing, government purchases and net exports.

The economy added 195,000 jobs in June, however this figure was not enough lower the unemployment rate which remains at 7.6%, according to the Bureau of Labor Statistics. The core consumption deflator, the Fed’s favorite measure of inflation, rose 0.1% in May, leaving the year-over-year increase unchanged at 1.1%, well below the Fed’s 2.0% target.

The yield on the bellwether 10-year Treasury note soared to 2.52% at the close of June, up sharply from 2.16% at the close of May. At month-end, the 30-year bond yield was 3.52% with the 3-month T-bill remaining at 0.04%. The Barclays Capital US Aggregate Index was down by -1.55% in June reflecting the rise in yields. Non-US Bonds were down again with the JPM Non-US GBI Unhedged falling -0.32% and the JPM Emerging Markets Bond Index + down -5.30% for the month. US High Yield bonds followed suit as the Merrill Lynch HY Master II Index was down by -2.64%. Longer dated bonds were also down for the month with the U.S. Government Long Index falling -3.30%.

On the economic front, the following key data was released in June:

THE GOOD

*The Commerce Dept. reported that construction spending rose 0.5% in May, compared with April, when spending rose by 0.1%.
*New orders for durable goods jumped 3.6% in May, following an upwardly revised 3.6% increase in April.
*The federal government ran a budget deficit of $512 billion from October 2012 through June 2013, according to CBO’s estimates. That amount is almost $400 billion less than the shortfall recorded during the same period last year because revenues have risen significantly, while the government’s spending has declined.
*The Conference Board’s consumer confidence index jumped to 81.4 in June, the best reading since January 2008 and up from 74.3 in May.
*The median price of new homes rose to $263,000, up 3.3% from a year ago.
*The number of people who signed contracts to buy U.S. homes jumped in May to the highest level in six years.
*Personal income rose a slightly faster than expected 0.5% in May.

THE NOT SO GOOD
*The 30-year fixed mortgage rate surged to 4.46%, the highest rate in two years.
*The U.S. trade gap swelled more than 12% to $45.0 billion in May, the biggest month-to-month increase in two years.
*U.S. consumers increased their debt in May by a seasonally adjusted $19.6 billion, up from a $10.9 billion gain in April and the largest amount in a year.
*The Institute for Supply Management reported that its index of service sector growth for June fell to 52.2 from 53.7 in May, its lowest level since February 2010.
*The Univ. of Michigan’s consumer sentiment index fell 0.4 points to 84.1, still hovering near its six-year high.
*The Markit U.S. manufacturing purchasing managers index was 51.9 in June, the slowest rate of growth since last October and down from a reading of 52.3 in May.

NON-U.S. MARKETS
Recent economic data suggested that the British economy is recovering more robustly than had been thought. Indices of activity in manufacturing and services increased by the fastest rate in two years; a measure of business confidence was at its highest level since 2007; and a survey of credit conditions found a rise in demand for mortgages. Sober heads suggest the recovery is fragile and point to the lack of investment.

The Eurozone PMI rose 0.4 points to 48.7, still a bit below the 50.0 mark that differentiates between expansion and contraction but well up from last summer’s low of 44.0 to the highest since February 2012.

Unemployment across the 17 European Union countries that use the euro hit another all-time high, rising 0.1% to 12.1% in May. April’s unemployment rate was initially estimated to be 12.2%, but was revised down to 12.0% thanks to new data, particularly from France.

Broad money growth for the overall Eurozone continues to slow. M3 grew just 2.9% year-over-year in May, the sixth time that it has decelerated over the last seven months.

Japan’s all-industry activity index – one of the more reliable cyclical indicators – rose 0.4% to 96.7 in April, suggesting that the economy is recovering from its export-led swoon in the second half of last year.

China’s trade surplus fell 14.0% in June as imports and exports both dropped unexpectedly, suggesting a further slowdown in the Chinese economy.

Non-U.S. equities were lower in May. The MSCI ACWI Ex-U.S. was down -4.30% (US dollars) in June. Developed stocks (EAFE) were down -3.53% while Emerging Markets lost -6.32% for the month.

CONCLUSION
Markets have shuddered at simply the talk of the US Federal Reserve tapering quantitative easing programs. Bond funds tracked by popular data providers have dumped massive amounts of bonds and even emerging market debt funds saw record redemptions. Spreads in Latin American, eastern European and Asian names whipsawed violently. Bid-ask spreads in China – one of the more liquid sovereigns – doubled.

Three Fed officials tried to calm investors by assuring them the Fed won’t start trimming its bond purchases until the economy has strengthened. They emphasized that any pullback in quantitative easing will hinge on the economy, not a calendar date.

Even with central banks playing down the effect of their statements and actions, it seems likely that further volatility lies ahead.

TO: Board of Retirement
FROM: Michael Coultrip, Chief Investment Officer
SUBJECT: Discussion and Approval of Asset Classes/Mixes to be used in Asset Liability Study Simulations

Staff Recommendation:
Approve asset classes and portfolio mixes to be used in Asset Liability simulations.

Background:
In May the Board approved initiating a new Asset Liability Study to assess potential new asset classes, incorporate updated capital market assumptions and liability profiles, and to analyze new portfolio combinations.

Discussion:
Marcel Gesell and Patrick Thomas from SIS will review asset-liability basics, summarize the capital market assumptions to be used in the study, and present various asset classes/mixes for Board approval to be used in the next phase of the study.

Asset Liability Study Timeline:
August Board meeting: Review asset-liability simulation results and identify potential revised asset mix scenarios.
September Board meeting: If necessary, review additional asset mix scenarios and recommendations.
October Board meeting: Approve revised asset mix. Complete update of Investment Policy Statement.

2013 Asset-Liability Study Part II
July 23, 2013

Marcel Gesell, CFA
Vice President

Patrick Thomas, CFA
Senior Vice President
Study Progress

I. Introduction (complete!)
II. Asset Allocation (today)
III. Asset-Liability Integration
Possible Policy Objectives

- **Things to Achieve**
  - 100% Funded Status
  - Low Cost/Average Contribution Rate
  - Assumed Earnings Rate Return (Currently 7.5%)
  - Intergenerational Equity

- **Things to Avoid**
  - Minimum Funded Status Over the Short-Term
  - High Cost/Average Contribution Rate
  - Large Changes in Contribution Rates Over Short-Term
  - Significant Negative Cash Flow or Liquidity Problems

- **Unacceptable Outcomes**
  - Funded Status?
  - Contribution Level?
  - Changes in Contribution Level?
Risk Options

FUNDING RATIO

LOW

“Let’s not put our cushion at risk – let’s protect it.”

“With our cushion, we can afford to take a risk.”

RISK TOLERANCE

HIGH

“We don’t dare let things get worse, even if it means locking in the problem.”

“The markets are our only chance to dig out of this hole. We have to take that chance even at the risk of deepening the hole we’re in.”
Asset/Liability Modeling

- **Asset Simulations**
  - Monte Carlo – 1000 “Random” Investment Outcomes Per Year

- **Liability Simulations/Contribution Determinations**
  - Based on Range of Investment Results
  - Annual Valuation for Range of Outcomes
  - Year-by-Year, NOT Straight-Line Projection
Impact of Asset Allocation on Investment Risk

Manager Selection (5%-10%)

Manager Structure (10%-15%)
Style/Cap Tilts/Active/Passive

Asset Allocation (80%-90%)
Target Policy Mix

Asset Allocation is the primary driver of investment results.

SamCERA Target Allocations

- Public Equity: 53%
- Fixed Income: 22%
- Alternatives: 14%
- Risk Parity: 6%
- RE: 5%

SamCERA A-L Study Part II, 7/23/2013
Asset Mix Optimization*

- Three Inputs (In Order of Importance)
  - Return (Geometric*; Annual Growth Rate)
  - Risk (Standard Deviation Around Expectation)
  - Correlation (Degree to Which Assets Move Together)

- Determining Inputs
  - How Are You Going to Use Them? Tactically or Strategically?
  - Extrapolate Trends, Mean Reversion* or Full History?

- Output
  - Certain Assets Are Difficult to Price and Model in Mean Variance Optimization
  - Efficient Frontier* — Lowest Level of Risk Per Unit of Return; Highest Available Return Per Unit of Risk

* See Appendix for Glossary of Terms
How Do We Measure Investment Risk?

Distribution of 70/30 Portfolio Annual Returns 1926 - 2009

- Mean = 9.1
- One standard deviation = 15.0

Return vs. Number of Years

Graphing the Optimizations
Request

Committee approval to use these asset mixes in asset-liability simulations?
Next Steps

I. Introduction (complete!)
II. Asset Allocation (complete!)
III. Asset-Liability Integration
Definitions

**STRATEGIC ASSET ALLOCATION**

The discipline used to determine which assets and what proportion among those assets meet an investor's cash flow requirements, planning horizon, and attitude toward risk.

**EXPECTED RATE OF RETURN**

The expected value or mean of a probability distribution of returns. In our case, the expected return is the compounded annual return which is the same as the geometric mean. After tax expected return nets out the expected income and capital gains taxes paid by the trust.

**STANDARD DEVIATION**

A statistical measure of the degree to which an individual value in a probability distribution tends to vary from the mean of the distribution. The square root of the variance. When returns are normally distributed, an individual return will fall within one standard deviation of the mean about two-thirds of the time. For example, if a portfolio had an expected return of 5% and an expected risk (standard deviation) of 13, then:

- **One Standard Deviation**
  - 68% of the time, returns can be expected to fall between −8.0% and +18%

- **Two Standard Deviations**
  - 95% of the time, returns can be expected to fall between -21% and +31%

Standard deviation is a useful historical measure of the variability of return earned by an investment portfolio. In performance measurement, it is generally assumed that a larger degree of dispersion implies that greater risk was taken to achieve the return.
Definitions

**CORRELATION COEFFICIENT**

Correlation coefficient (r) is a measure of the degree of correlation between two quantities or variables, such as the rates of return on stocks and on bonds. A negative coefficient of correlation indicates an inverse or negative relationship, whereas a positive value indicates a direct or positive relationship. The range of values is from -1 to +1 inclusive. A zero (0) value indicates that no correlation exists. Correlation coefficients are useful in asset class identification and portfolio diversification.

![Correlation Coefficient Diagram](image-url)
Glossary

- **Asset Allocation** – (1) The way investments are distributed and weighted among different asset classes. (2) The distribution of investments among categories of assets, such as equities, fixed income, cash equivalents, and real estate.

- **CAPM** – Capital Asset Pricing Model. A system of equations that describes the way prices of individual assets are determined in efficient markets, that is, in markets where information is freely available and reflected instantaneously in asset prices. According to this model, prices are determined in such a way that risk premiums are proportional to systematic risk, measured by the beta coefficient, which cannot be eliminated by diversification. CAPM provides an explicit expression of the expected returns for all assets. Basically, the model holds that if investors are risk averse, high-risk stocks must have higher expected returns than low-risk stocks. CAPM maintains that the expected return of a security or a portfolio is equal to the rate on a risk-free investment plus a risk premium.

- **Correlation** – A relationship between two quantities, such that when one changes, the other does. A measure (ranging in value from 1.00 to -1.00) of the association between a dependent variable (fund, portfolio) and one or more independent variables (index). Correlation is a measure, not necessarily of causality, but rather of the strength of a relationship. A correlation coefficient of 1.00 implies that the variables move perfectly in lockstep; a correlation coefficient of -1.00 implies that they move inversely in lockstep; and a coefficient of 0.00 implies that the variables as calibrated are uncorrelated.

- **Efficient Frontier** – A set of optimal portfolios, one for each level of expected return, with minimum risk.

- **Expected Return** -- Estimate of the return of an investment or portfolio from a probability distribution curve of all possible rates of return; statistically, it is the mean (either geometric mean or arithmetic mean) of the distribution or the "most likely" outcome.

- **Factor Model** – Regression-based mathematical calculation used to determine the extent to which macroeconomic factors or other explanatory variables affect the value or price movement of a specific security or portfolio.
Glossary

- **Geometric Return** – Similar to the arithmetic mean, which is what most people think of with the word "average", except that instead of adding the set of returns and then dividing the sum by the number of return observations (N), the numbers are multiplied and then the Nth root of the resulting product is taken. Also known as compound return.

- **Mean Reversion** – Statistical phenomenon stating that the greater the deviation of a given observation (e.g. a quarterly or annual return) from its mean, the greater the probability that the next measured observation will deviate less far. In other words, an extreme event is likely to be followed by a less extreme event.

- **Monte Carlo Simulation** – Uses stochastic processes to simulate the various sources of uncertainty that affect the value of the instrument, portfolio or investment in question, and calculates a representative value or distribution of possible outcomes given the simulated values of the underlying inputs.

- **Optimization** – Process of determining the portfolio composition such that expected return is maximized for a given risk level, or risk is minimized for a given expected return level. Other optimizations could target risk of shortfall, maximization of Sharpe ratio, or minimization of tracking error.

- **Sharpe Ratio** – A ratio of return to volatility, useful in comparing two portfolios or stocks in terms of risk-adjusted return. The higher the Sharpe Ratio, the more sufficient are returns for each unit of risk. It is calculated by first subtracting the risk free rate from the return of the portfolio, then dividing by the standard deviation of the portfolio.

- **Treasury Inflation-Protected Securities (TIPS)** – Inflation-indexed bonds issued by the U.S. Treasury. The principal is adjusted to the Consumer Price Index (CPI), the commonly used measure of inflation. The coupon rate is constant, but generates a different amount of interest when multiplied by the inflation-adjusted principal, thus protecting the holder against inflation. TIPS are currently offered in 5-year, 10-year and 20-year maturities. Beginning in February 2010, the U.S. Treasury will once again offer 30-year TIPS bonds.
July 23, 2013

TO: Board of Retirement

FROM: Michael Coultrip, Chief Investment Officer

SUBJECT: Discussion and Approval of Clifton Overlay Manager Investment Guidelines

Staff Recommendation:
Review and approve Clifton investment guideline parameters.

Background:
During the May 2013 Board meeting the Clifton Group was chosen by the Board to provide overlay investment management services for SamCERA, including total fund cash equitization, manager cash equitization, and portfolio rebalancing.

Given the unique nature of this mandate, even though the Chief Executive Officer has the authority to execute any and all documentation to implement this strategy, staff thought it prudent to obtain the Board’s approval for the Clifton Group Exhibit B Investment Guidelines of the Investment Management Agreement.

Discussion:
There are five discussion points that staff would like to address with the Board:

1) Appendix A – Cash Securitization – Fund Level: Asset classes included in the overlay program.
2) Appendix A – Cash Securitization – Fund Level: Treatment of private equity allocation.
3) Appendix A – Position Monitoring: Inclusion of 10% gross overlay position threshold of total plan assets.
4) Appendix B – Exposure Maintenance Including Rebalancing: Rebalancing methodology
5) Appendix B – Exposure Maintenance Including Rebalancing: Rebalancing bands

Attachments:
A. Exhibit B: Clifton Investment Guidelines
Exhibit B

Guidelines

**Benchmark**: Custom benchmark based on Investment Strategy

**Investment Objectives and Guidelines:**

SamCERA may seek to securitize fund level cash in a manner consistent with the stated benchmark(s) and methodology as defined in Appendix A. To the extent possible, SamCERA will notify MANAGER in advance of any material cash flows into or out of fund accounts which are used to determine required overlay positions.

SamCERA may seek to securitize cash held in designated manager portfolios as defined in Appendix A. Cash will be securitized as specified in Appendix A. SamCERA will notify MANAGER in the event changes to the manager cash overlay component are desired.

SamCERA may seek to adjust market exposures or to rebalance the fund’s liquid asset class exposures. The specifics of how portfolio exposure changes or how rebalancing moves will be made are defined in Appendix B.

SamCERA may seek to manage gaps in market exposure resulting from transition events including, but not limited to: A) change in managers, B) change in asset allocation, C) fund contribution or distributions, D) or other related temporary fund disruptions. The specific parameters related to each “transition event” are defined in Appendix C. Each transition event will be reviewed individually and clear written instructions must be provided to MANAGER by SamCERA before each transition MANAGER is asked to participate.

**Portfolio Monitoring**

On a daily basis, MANAGER will seek to obtain relevant information from State Street Global Services (“Custodian”) regarding the market value of the SamCERA’s designated cash and/or external manager portfolios (“Information”) involved in the Investment Strategy. In the case of commingled funds (e.g. mutual funds) or other assets where a daily market value is not available, a proxy pricing methodology may be established for the designated portfolio as defined in Appendix D.

Subject to the foregoing, where electronic interfacing is reasonably available for the purposes set forth herein, MANAGER will be responsible for establishing a communication link and electronic interface methodology enabling the transfer of Information from the Custodian. SamCERA acknowledges and agrees that MANAGER will rely on Information provided by these methods without further investigation or confirmation. From time to time, such communication link may be unavailable due to system outages or other technical issues outside of MANAGER’s reasonable control, which include, but are not limited to internet problems, hardware or software issues. In the event that Information cannot be
transferred on any given day, regardless of the reason, MANAGER will attempt to receive Information through an alternative method. SamCERA will reasonably assist MANAGER in obtaining Information.

If, as part of the Investment Strategy, MANAGER is required to monitor SamCERA assets beyond Overlay Portfolio, MANAGER will review the asset data in an attempt to verify its accuracy but it makes no assurances in this regard.

Execution Guidelines

In accordance with these guidelines, MANAGER has the authority to execute trades which are intended to achieve Investment Strategy objectives and are consistent with the structure as described herein.

A Daily Tracking Report (“DTR”) will be generated by MANAGER using information as described above, subject to certain limitations. If transactions are not executed due to uncontrollable events (e.g. trading halts), the MANAGER will contact SamCERA to discuss alternatives.

A margin pool will be established in a designated Custodian account for MANAGER to provide the initial and variation margin necessary to support and manage overlay positions required by all Investment Strategies. The size of the margin pool will be a function of the size of overlay positions as well as SamCERA’s desire to increase the level of overall fund liquidity. MANAGER is responsible for providing SamCERA’s representative(s) with an estimate of the initial margin required to support the overlay positions as specified by the exchange on which the overlay positions are traded; recommended variation margin, or liquidity buffer, required to meet ongoing mark-to-market obligations; and margin pool level for the Investment Strategy on a daily basis via Investment Manager’s website: www.theMANAGERgroup.com. MANAGER will seek to contact SamCERA’s representative if the margin pool moves to a level requiring the addition of variation margin or if margin pool balance has grown to a level estimated to be significantly beyond recommended levels.

While margin is regarded as a form of leverage, SamCERA agrees that PIOS® is not regarded as a levered strategy as positions are managed to align with underlying collateral. However, due to market factors, timing differences, and/or actions taken by SamCERA outside the control of the Investment Manager; or during periods of trading activity by MANAGER required to achieve Overlay Program objectives, there may be periods where the notional value of the Overlay Portfolio exceeds that of the underlying collateral.

Permissible Instruments:

The permissible instruments for the Investment Strategy include:

- Domestic and international equity futures
- Domestic and international fixed income futures
- Commodity futures
- Foreign currency futures
- Exchange Traded Funds (ETFs)
- U.S. Treasury Securities
MANAGER will have discretion to employ permissible instruments to seek to achieve the Investment Strategy(ies) consistent with the Investment Objectives and consistent with these guidelines. SamCERA recognizes that this process may produce tracking error with the Benchmark(s).

Notification Procedures:

SamCERA acknowledges that Investment Manager’s positions may be directly related to the underlying physical investments of the fund. Therefore it is critical that SamCERA notify MANAGER prior to any material changes in the fund’s underlying physical positions. These changes could include, but are not limited to: distributions, contributions, physical rebalancing or reallocations, and manager terminations/additions.

All investment-related items will be provided by SamCERA to MANAGER by email to: TCG@TheCliftonGroup.com. For all actions deemed actionable or substantive, SamCERA should not consider an email received until MANAGER responds with an email confirmation. If SamCERA does not receive the confirmation email, SamCERA must call MANAGER at 612.870.8800. SamCERA is responsible for informing Investment Manager, at its earliest opportunity, of any changes in any managers, manager capital allocations or when asset class assignments are revised.

Reporting:

In addition to the reporting requirement set forth in Section 3, the MANAGER will provide the SamCERA with the following:

- If desired by SamCERA, a DTR summarizing the fund’s allocations, manager values, overlay positions, and other key Investment Strategy parameters. SamCERA will be able to access the DTR through Investment Manager’s website: www.theCliftonGroup.com.
- A monthly accounting report reconciled to SamCERA’s Custodian statement.
- Access to key employees of Investment Manager’s team to address questions or clarify activity.
- Annual performance reviews, or more frequently at SamCERA’s request.

Special Considerations and Risks:

Market Risk: The potential that the market moves in an adverse manner causing a loss.

Liquidity Risk: To the extent the overlay position generates a loss in excess of the margin balance or collateral available, the fund will require liquid assets to satisfy any outstanding commitments or experience liquidation of positions.

Margin Pool Risk: The fund may experience losses on the margin pool in addition to potential losses on the index market exposure overlaying these assets.

Options Risks: Client has received, read and understood the Characteristics and Risks of Standardized
Options published by The Options Clearing Corporation which includes option sensitivity risk. Unlike a futures-based hedge which immediately removes market exposure on a one-for-one basis, options contracts with time remaining before expiration are less sensitive to changes in market prices. Therefore, prior to expiration, the gain (loss) in the value of the hedge positions will likely be less than the loss (gain) in the underlying portfolio.

**OCC Counterparty Risk:** The Options Clearing Corporation ("OCC") guarantees that all obligations of the contracts that the OCC clears are fulfilled. The OCC and the options markets have broad discretion in their rules to take a variety of actions in particular circumstances and no party should assume that the OCC or other option market participant will exercise its discretion in a particular way in any particular circumstance. The OCC may experience a negative credit event that would limit or eliminate its ability to satisfy any outstanding obligations to the Account Assets thus causing a loss to the Client.

**Futures Clearinghouse Counterparty Risk:** The Futures Clearinghouse guarantees that all obligations of the contracts that the Futures Clearinghouse clears are fulfilled. The Futures Clearinghouse and the futures markets have broad discretion in their rules to take a variety of actions in particular circumstances and no party should assume that the Futures Clearinghouse or other futures market participant will exercise its discretion in a particular way in any particular circumstance. The Futures Clearinghouse may experience a negative credit event that would limit or eliminate its ability to satisfy any outstanding obligations to the Account Assets thus causing a loss to the Client.

**Information Risks:** As described above, Investment Manager will maintain index market exposures based on designated values provided by one or more third party (ies). The Investment Manager cannot verify these values but will rely on this information as being reflective of true fund values. If actual fund values are different from the values provided by such third parties, losses may result from over or under exposure to the desired index.

**Benchmark Exposure Risk:** In the implementation of the Investment Strategy(ies), Investment Manager believes there may be tracking error between the actual Overlay Portfolio and benchmark allocations described in these Guidelines. For example, futures contracts may not exist for certain indices. To attempt to track such index results, a blend of futures contracts is utilized. This blend of futures contracts may or may not track the performance of the actual index. This is a form of tracking error. Tracking error could be material. Other sources for tracking error may include, among others:

- Execution value versus previous day's closing index value
- Change in relative futures premiums
- Imprecise benchmark replication
- Mid-day information flows
- Time differences between futures and local market closes
- Transaction and synthetic financing costs

**Tracking Error:** Exposure Maintenance using the PIOS® synthetic index approach, by gaining or reducing exposure to various asset classes, will modify the systematic or market risk associated with Client’s total
fund. The non-systematic risk, or tracking error that the individual managers exhibit relative to the asset class benchmark, is not changed by application of PIOS®. Trading error related to Exposure Maintenance component may create significant losses to the Client.

**Leverage Risk:** Notional exposure in excess of portfolio capital or fund collateral may produce a significant loss to the fund. Futures, options, swaps, and related derivative instruments have the potential to create leverage. In certain situations, Client’s Overlay Portfolio, on a temporary or permanent basis, may be exposed to leverage in part by having a notional value of overlay positions which is more than the value of the underlying margin pool which may produce a significant loss the fund. Leverage introduces special risks and will change the volatility of Client’s underlying assets (manager portfolios). If the Overlay Portfolio does create leverage, adverse moves in the overlay positions can require Client to post additional margin beyond those amounts initially deposited. Failure to maintain sufficient margin may result in the closing out of overlay positions in a manner not consistent with these Guidelines.

**Market Exposure Timing:** In order to achieve anticipated cash level change or desired risk exposure, Investment Manager may trade at the market close one business day before anticipated each level change or other market exposures changes. To the extent that any unanticipated change occur after trades are executed and before other adjustments are made, trades may need to be reversed and Client may experience an unexpected economic outcome.

(Signature page follows)
There can be no assurance Client will achieve its objective through the use of PIOS®. For all Investment Strategies, Investment Manager seeks to execute transactions on a best efforts basis but makes no assurances in this regard. Past performance does not guarantee future results. Investment Manager does not warrant any rate of return or level of tracking error relative to the Benchmarks.

CASH SECURITIZATION – Fund Level

Client will designate specific fund level cash accounts to the overlayed by Investment Manager. These assets will be overlaid as described below:

<table>
<thead>
<tr>
<th>Asset Class</th>
<th>Target %</th>
<th>Benchmark Index</th>
</tr>
</thead>
<tbody>
<tr>
<td>Domestic Equity Large Cap</td>
<td>40.74%</td>
<td>Russell 1000</td>
</tr>
<tr>
<td>Domestic Equity Small Cap</td>
<td>10.19%</td>
<td>Russell 2000</td>
</tr>
<tr>
<td>International Equity</td>
<td>22.08%</td>
<td>MSCI ACWI ex US</td>
</tr>
<tr>
<td>Fixed Income</td>
<td>26.99%</td>
<td>Barclay’s Aggregate</td>
</tr>
<tr>
<td></td>
<td>100%</td>
<td></td>
</tr>
</tbody>
</table>

The Private Equity asset class target has been allocated proportionally across Domestic Equity Large Cap and Domestic Equity Small Cap based upon the unadjusted target allocation for each asset class. The remaining asset class targets (Commodities, Risk Parity, Hedge Funds, & Real Estate) have been allocated proportionally across Domestic Equity Large Cap, Domestic Equity Small Cap, International Equity, and Fixed Income based upon the unadjusted target allocation for each asset class.

CASH SECURITIZATION – Manager Level

Investment Manager will invest Manager cash on a best efforts basis in the asset classes as described below. It is Client’s responsibility to communicate to Investment Manager which managers should be included in the manager cash overlay for each asset class.

<table>
<thead>
<tr>
<th>Asset Class</th>
<th>Benchmark Index</th>
</tr>
</thead>
<tbody>
<tr>
<td>Domestic Equity Large Cap</td>
<td>Russell 1000</td>
</tr>
<tr>
<td>Domestic Equity Small Cap</td>
<td>Russell 2000</td>
</tr>
<tr>
<td>International Equity</td>
<td>MSCI ACWI ex US</td>
</tr>
</tbody>
</table>

POSITION MONITORING

Clifton will monitor the overlay position size on a best effort basis, and will notify the Client in the event that the gross index overlay positions, excluding any transition exposure requested by Client, exceed 10% of total fund assets.
EXPOSURE MAINTENANCE INCLUDING REBALANCING

<table>
<thead>
<tr>
<th>Asset Class</th>
<th>Target %</th>
<th>Benchmark Index</th>
</tr>
</thead>
<tbody>
<tr>
<td>Domestic Equity Large Cap</td>
<td>28.00%</td>
<td>Russell 1000</td>
</tr>
<tr>
<td>Domestic Equity Small Cap</td>
<td>7.00%</td>
<td>Russell 2000</td>
</tr>
<tr>
<td>International Equity</td>
<td>18.00%</td>
<td>MSCI ACWI ex US</td>
</tr>
<tr>
<td>Fixed Income</td>
<td>22.00%</td>
<td>Barclay’s Aggregate</td>
</tr>

</tr>
<tr>
<td>Risk Parity</td>
<td>6.00%</td>
<td>N/A</td>
</tr>
<tr>
<td>Hedge Funds</td>
<td>3.00%</td>
<td>N/A</td>
</tr>
<tr>
<td>Real Estate</td>
<td>5.00%</td>
<td>N/A</td>
</tr>
<tr>
<td></td>
<td>100%</td>
<td></td>
</tr>
</tbody>
</table>

It is Client’s responsibility to establish and revise as necessary the asset class categories.

The Private Equity asset class will be considered fully invested at target levels with the difference between the long term target allocation and the actual allocation being allocated proportionally across the Domestic Equity Large Cap and Domestic Equity Small Cap asset classes.

The Commodities, Risk Parity, Hedge Funds, & Real Estate asset classes will be considered fully invested at target levels with the difference between the long term target allocation and the actual allocation being proportionally allocated across Domestic Equity Large Cap, Domestic Equity Small Cap, International Equity, & Fixed Income.

As an example, the calculations for the Adjusted Target Allocations are shown in the table below for the following hypothetical asset class imbalances:

1) If the actual allocation to Private Equity is 6%, and the target allocation is 8%, the difference (2%) is allocated as shown in the Proportional Adjustment #1 column.

2) If the actual allocations to Commodities, Risk Parity, Hedge Funds, & Real Estate are 16%, and the total target allocation is 17%, the difference (1%) is allocated as shown in the Proportional Adjustment #2 column. For example, the adjustment to Fixed Income is equal to \( \frac{22\%}{75\%} = 0.29\% \).

<table>
<thead>
<tr>
<th>Asset Class</th>
<th>Unadjusted Target Allocation</th>
<th>Proportional Adjustment #1</th>
<th>Proportional Adjustment #2</th>
<th>Adjusted Target Allocation</th>
</tr>
</thead>
<tbody>
<tr>
<td>Domestic Equity Large Cap</td>
<td>28.00%</td>
<td>1.60%</td>
<td>0.38%</td>
<td>29.98%</td>
</tr>
<tr>
<td>Domestic Equity Small Cap</td>
<td>7.00%</td>
<td>0.40%</td>
<td>0.09%</td>
<td>7.49%</td>
</tr>
<tr>
<td>International Equity</td>
<td>18.00%</td>
<td></td>
<td>0.24%</td>
<td>18.24%</td>
</tr>
<tr>
<td>Fixed Income</td>
<td>22.00%</td>
<td></td>
<td>0.29%</td>
<td>22.29%</td>
</tr>
<tr>
<td><strong>Total</strong></td>
<td><strong>75.00%</strong></td>
<td><strong>2.00%</strong></td>
<td><strong>1.00%</strong></td>
<td><strong>78.00%</strong></td>
</tr>
</tbody>
</table>
Investment Manager will monitor fund asset allocations relative to the following variation bands:

<table>
<thead>
<tr>
<th>Asset Class</th>
<th>Proportional Variation Band %</th>
<th>Rebalancing Approach</th>
</tr>
</thead>
<tbody>
<tr>
<td>Domestic Equity Large Cap</td>
<td>± 5.0% of Adjusted Target Allocation</td>
<td>Futures Based</td>
</tr>
<tr>
<td>Domestic Equity Small Cap</td>
<td>± 5.0% of Adjusted Target Allocation</td>
<td>Futures Based</td>
</tr>
<tr>
<td>International Equity</td>
<td>± 5.0% of Adjusted Target Allocation</td>
<td>Futures Based</td>
</tr>
<tr>
<td>Fixed Income</td>
<td>± 5.0% of Adjusted Target Allocation</td>
<td>Futures Based</td>
</tr>
</tbody>
</table>

Investment Manager is authorized to adjust overlay positions back to adjusted targets, after fund asset class exposures have exceeded one or more exposure variation bands as monitored and estimated by Investment Manager. When rebalancing positions are implemented, asset class short exposure may be initiated.

FROM: Lilibeth Dames, Investment Analyst

SUBJECT: Report on Value Equity Manager Annual Reviews (Barrow Hanley, Mondrian and The Boston Company)

Staff Recommendation:
Review the report on the annual review of SamCERA’s Value Equity Managers.

Background:
On June 6th, SamCERA staff and consultant held annual review meetings in SamCERA’s office for our value equity managers.

Each meeting lasted approximately 1.5 hours, and consisted of a firm/organizational update, investment process review, performance review and attribution, and current positioning/market outlook.

Discussion:
Barrow Hanley’s Diversified Large Cap Value Equity product, which employs a bottom-up value investment strategy, was reviewed first. Next, Mondrian’s All Countries World ex-US strategy, which is a value-oriented international equity approach, was reviewed. Lastly, The Boston Company’s US Small Cap Value Equity strategy was reviewed. This strategy conducts a bottom-up fundamental research style approach. Trading philosophy and transaction costs were reviewed and discussed.

There were no significant concerns identified during the portfolio reviews. Attached you will find meeting notes from SIS summarizing the findings from these annual reviews.

Product Description
Barrow Hanley takes a bottom up value approach to equity investing. They seek to buy stocks that exhibit all three of the following characteristics: price/earnings and price/book ratios below the market, and dividend yield above the market (with the S&P 500 representing the market). Their view is that a portfolio that emphasizes low price/book and high dividend yield stocks will provide some protection in down markets and participation in improving economic cycles. In addition to their basic valuation criteria, Barrow Hanley is also looking for profitable companies with earnings growth greater than the market. After the quantitative screening process, Barrow Hanley’s equity research team conducts qualitative analysis of candidate investments. This involves forecasting ROE 5-years out and treating this forecast as the basis for earnings, book value and dividend yield projections for the same five year period. These projections are used as inputs into a dividend discount model and relative return model. Stocks that appear to be attractively valued according to both of these models comprise the firm’s buy list. The portfolio managers construct the portfolio with 70-90 of the buy list names. Securities are weighted approximately equally, with core positions in the range of 1.5%. Sector weightings are limited to 35% (at cost) and industry weightings are limited to 15%. Stocks are generally held for three to four years, resulting in average turnover of 25% - 35%.

Meeting Notes

Organization
Assets at BHMS are now $75 billion. Of this, $2 billion is invested in the Diversified Large Cap Value strategy. The strategy has been attracting some new clients and some flows from existing clients.

BHMS continues to repurchase its equity from its parent company, Old Mutual. Employees currently own 22% of the equity, and the expectation is that by this time next year they will own 25%. Employee ownership is broad based with 43 of 74 employees owning equity.

Vanguard has been a client for 20 years and has $28 billion invested with BHMS. BHMS’s fee schedule applies to all of its clients, including Vanguard.

Mike asked about the use of soft dollars. According to Mark Giambrone, some clients limit the use of soft dollars, but almost no clients prohibit them from using soft dollars.

Investment Team
In the firm’s 34 year history, they have never lost an investment professional to a competitor. Next year, Bob Chambers, one of the firm’s portfolio managers, is planning to retire. The firm has hired three new analysts in the

Strategic Investment Solutions, Inc.
past year. Two were recruited externally, but one was been with BHMS for seven years in operations and trading.

**Investment Strategy**

The Diversified Large Cap Value Equity strategy is a 70 stock portfolio that takes the best ideas from BHMS's Large Cap Value and Mid Cap Value Equity strategies. The basic approach is to buy solid companies experiencing temporary problems. Generally they are looking for companies that can grow faster than the market, earn reasonable returns, have clean balance sheets and pay a dividend. The team’s experience in understanding what steps companies need to take to solve their problems is the primary source of value added. An essential step in the process is meeting with company management to hear how they plan to address their issues. If BHMS is not convinced that the management team has a good strategy, they move on. The process does not consider price momentum or earnings momentum.

The structure of the portfolio and the investment team allows for deep research. With a portfolio of 70 stocks, 25% turnover, and a research team of more than 20 analysts and portfolio managers, they do not need to generate a large number of new ideas.

**Performance & Positioning**

2012 was a difficult environment for BHMS and for active management generally. Only 14% of the stocks in the S&P 500 outperformed the index. The success of active management in the large cap value space tends to be cyclical.

As of the end of May, for the trailing one-year period the strategy returned 33.31%, which was 60 bps ahead of the benchmark on a gross basis. Technology has been an area of difficulty for the portfolio. They are invested in the sector because valuations are low and cash flows are solid. But it is not clear that low P/E and high dividend yield is an effective approach to investing in the technology sector. One stock in the sector that really has worked well for BHMS is IBM.

BHMS owns both Carnival and Royal, and these cruise operators have detracted materially from performance. These stocks are so beaten down that BHMS has added slightly to their positions.

Overall, they have increased the concentration of the portfolio because they believe that correlations, which have been high, are declining. They have also been selling some of the higher yielding names in the portfolio that have appreciated and no longer look cheap.

The portfolio is approximately neutral weighted in financials, but within financials overweight the consumer side of lending and underweight REITs and brokers. Although they will own REITs at appropriate prices, they don't want to own them at the current valuations.

SIS Representative(s)
Jonathan Brody

Client Representative(s)
Mike Coultrip (CIO), David Bailey (CEO)

Product Description
Mondrian is a value-oriented, defensive manager whose investment philosophy is based on the principle that investments must be evaluated for their fundamental long-term value. The firm’s philosophy involves three stated investment objectives: 1) provide a rate of return meaningfully greater than the client’s domestic rate of inflation, 2) structure client portfolios that preserve capital during protracted international market declines, and 3) provide portfolio performance that is less volatile than benchmark indices and other international managers. Mondrian applies typical value screening criteria to a universe of 1,500 stocks, from which 500 are selected for more detailed work. Through fundamental research, and the deliberations of the Investment Committee, the universe is further reduced to a list of 150 stocks. The investment team conducts detailed fundamental analysis on the remaining stocks, a process which includes applying the firm’s dividend discount model consistently across all markets and industries. Mondrian also uses a purchasing power parity model to give an accurate currency comparison of the value of the stocks under consideration. The firm will only consider buying stocks in countries with good investor protection practices and relatively simple repatriation procedures. A computer based optimization program is employed in the portfolio construction process. Mondrian’s portfolio holds 80-125 issues.

Meeting Notes

Organization
Mondrian currently manages $68 billion. The ACWI ex US strategy is $4 billion and is closed to new accounts. Net flows at the firm have been positive, with strong client interest particularly in Emerging Markets Small Cap and Emerging Market Debt. There has been gradual geographical diversification of the firm’s client base. In the past, 90% of Mondrian’s assets were managed for U.S. based clients. That number has declined to 75%.

Mondrian is 100% employee owned with approximately half the employees owning equity and no single employee with more than 15%. The firm continues to pay down the debt associated with the employee buyout, which has declined from $400 million to $300 million.

The emerging markets portion of the strategy is invested in a Delaware mutual fund sub-advised by Mondrian. The representative from Delaware, Kimberly Aspenleider, stated that there have been no recent organizational changes at Delaware since they were acquired by Macquarie.

Investment Team
In April 2013 Bob Akester, an emerging markets portfolio manager, retired from Mondrian on his 65th birthday.
Mondrian pre-announced this in 2012 and has been planning the transition for some time. They have also recently hired an additional research person for emerging markets small cap.

**Investment Strategy**

Mondrian employs a long term dividend discount model for all of the firm’s equity strategies. The approach focuses on long term dividend growth after inflation. For each company they conduct a scenario analysis, looking at expected, best and worst case outcomes. The emphasis is on the downside risk and they prefer a narrow, to a broad, range of outcomes. They are looking for at least a 5% real return from owning a stock for the long term.

The DDM is constructed with 10 years of detailed forecasts and then a long term assumption out to year 50. The discount rate used is 5% and is not adjusted for risk because this is captured in the scenario analysis.

The research process involves company meetings in which discussion with management focuses on long term strategy. They will also meet with strategists and central bankers in order to learn more about the prospects of a given local market. Mondrian conducts PPP analysis on currencies in order to be able to bring everything into a common currency for comparison purposes. They will hedge currencies defensively when the analysis identifies extreme over-valuation.

The approach yields a portfolio with lower volatility than the benchmark and most peers. The emphasis is on capital preservation and excess return is usually generated by outperforming in declining markets.

**Performance & Positioning**

In 2012 Mondrian protected well when the market declined, but participated less on the upside than they would have expected. Two thirds of the underperformance for the year is attributable to sector allocation, particularly the underweight to financials and overweight to telecom. But stock selection was also challenged with names such as TESCO disappointing market expectations and lagging the benchmark.

Mondrian is not making large country bets currently because their expectations are relatively narrowly clustered across countries. But they are overweight France and Japan, because they have found bottom up opportunities in these countries. Mondrian is also slightly overweight the emerging markets because of attractive relative valuations.

They have had a full position in Japan for a number of years because of opportunities in the export oriented companies. Mondrian’s view is that Abenomics has mostly just increased the range of outcomes in Japan.

Mondrian is slightly overweight the Eurozone and they have found some attractive values, particularly in France and Spain. Their view is that investors have sold these markets indiscriminately, without much attention to the bottom up circumstances of individual companies. Northern Europe, however, looks expensive.

The Australian dollar exposure remains hedged.

Because Mondrian has been cautious about the economic environment since the financial crisis, they have had full allocations to defensive sectors such as consumer staples and health care. And they continue to have a large underweight to financials. Although they have been looking at some opportunities, overall they expect negative earnings growth for banks.
Manager Representative(s)
Joe Corrado (PM), Jerry Navarrete (Client Service)

SIS Representative(s)
Jonathan Brody

Client Representative(s)
Mike Coultrip (CIO), David Bailey (CEO), Lilibeth Dames (Analyst)

Product Description
The Boston Company’s approach to small cap value investing is to conduct bottom-up fundamental research in an effort to add value through security selection. The investment process seeks to identify the stocks of companies which have compelling valuations and business fundamentals, as well as a catalyst for positive change. The appropriate valuation metrics for an individual company can vary depending on industry. Ideas are generated from company meetings, industry contacts and team’s internal research. The universe of domestic small-cap equity securities is quantitatively screened for valuation, business health and earnings revisions. In addition, they also screen/track operating income and EBITDA estimate revisions. Once candidates for investment are identified, individual stock weights are determined by portfolio risk, liquidity, and analyst conviction. Normally, portfolios will contain between 120-150 holdings (from a short list of 500 securities), with a maximum individual security weighting of 5%, though most are less than 3%. Securities will typically be in the $100 million - $2 billion market cap range at time of purchase. Generally, sector exposure is limited to no more than 2X the index weight with a maximum overweight of 10 percentage points and a maximum underweight of half that of the index. The goal is for portfolios to be close to fully invested at all times, with cash typically below 5%. Any stock down 20% from the purchase price is reviewed. In addition, portfolios are reviewed on a regular basis for unintended risk. Positions are sold when any one of the three investment criteria (valuation, fundamentals, catalyst) breaks down.

Meeting Notes

Organization
TBC’s firm-wide assets are $44 billion. In 2012 they did not bring on many new clients. Assets in the U.S. Small Cap Value Equity strategy are $2.3 billion. Because they believe their capacity to be approximately $2.5 billion, the product is effectively closed to new accounts.

Under Bart Grenier, who is in his second year as CEO of the firm, TBC has made a big push to become more of a global firm and move to a global research platform. The central research platform has shifted from covering only U.S. large cap companies, to covering large cap companies globally. This change does not have a great impact on the small cap value team, but they do participate in global sector meetings.

Investment Team
The three most senior members of the team, Joe Corrado, Ed Walters and Stephanie Brandaleone, have been managing the product together for more than 15 years, since their days at Standish, Ayer & Wood. These three each have more than 20 years of investment experience.
Investment Strategy

The approach is bottom up and value oriented. Portfolio construction is relatively benchmark sensitive. This is particularly the case when it comes to sector weightings which, with the exception of financials which is a 10% underweight, are quite close to the benchmark.

It is the responsibility of each analyst covering a sector to develop a screening process for his or her universe. The idea is to look for stocks trading at below median valuations with above median prospects. Analysts need to be able to answer the question “when is this stock going to work?” They are looking for company specific catalysts. The process involves many company meetings.

Portfolio turnover is generally in the range of 70%. But because they trade around positions, name turnover is generally closer to 50%. Although positions are generally sold when they hit the $3 billion market cap level, there are currently a couple of names in the $3 - $3.5 billion range. This strategy generally will not buy stocks with market caps above $2 billion.

The portfolio holds approximately 140 names, many of which have market caps below $1 billion. Joe Corrado observed that there has been a continuous decline in liquidity in the small cap market, particularly at the lower end of the market cap spectrum. Their approach to trading is not to seek to buy a security at a particular price, but to build a position over time. The tendency is to buy stocks after they have bottomed and have already begun to tick up. They may spend weeks or months, building a position ten basis points at a time. This makes their trading costs look very high. Joe estimated that their impact cost at 150 basis points.

Performance & Positioning

The underweight to financials is primarily due to an underweight position in REITs. The portfolio actually has material exposure to banks. In general this portfolio is overweight healthcare because it has such a small representation in the benchmark. The weighting in consumer discretionary tends to fluctuate some because of the cycle of consumer sentiment. Most of the other sectors are close to neutral.

The portfolio is currently underexposed to yield. This is primarily a function of not owning REITs or the higher yielding utilities.

Stock selection in technology has been a big driver of performance.
TO: Board of Retirement

FROM: Lilibeth Dames, Investment Analyst

SUBJECT: Report on Growth Equity Manager Annual Reviews (Baillie Gifford Overseas and Chartwell Investment Partners)

Staff Recommendation:
Review the report on the annual review of SamCERA’s Growth Equity Managers.

Background:
On July 9th, SamCERA staff and consultant held annual review meetings in SamCERA’s office for our growth equity managers.

Each meeting lasted approximately 1.5 hours, and consisted of a firm/organizational update, investment process review, performance review and attribution, and current positioning/market outlook.

Discussion:
Staff and consultant first reviewed Baillie Gifford’s EAFE Plus Focus portfolio. The product is a fundamental growth strategy, organized primarily by regional teams with research contributions from four global sector groups. Chartwell’s Small Cap Growth Equity strategy was reviewed next. This strategy seeks to invest in stocks with solid fundamentals that are well positioned for rapid growth. Recent changes in the investment analyst team were discussed, including the departure of the group’s consumer analyst.

There were no significant concerns identified during the portfolio reviews. Attached you will find meeting notes from SIS summarizing the findings from both annual reviews.

Attachments:

Baillie Gifford Overseas Ltd

Manager Representative(s)
Anne-Marie Gillon (Client Service), Richard Gall (Client Service)

SIS Representative(s)
Jonathan Brody

Client Representative(s)
Mike Coultrip (CIO), Scott Hood (Assistant Executive Officer)

Product Description
EAFE Plus Focus is a fundamental growth strategy. Research is organized primarily by regional teams, and each member of the EAFE Plus Focus Portfolio Construction Group is a member of a different regional team. Four global sector groups also contribute research. Baillie Gifford conducts approximately 2000 company meetings annually both in Edinburgh and onsite. Companies are evaluated on their growth opportunity relative to the average company, their ability to execute on that opportunity, and the degree to which probability of future success is already valued by the market. Baillie Gifford’s basic philosophy is that share prices ultimately follow earnings. They believe that the stock market has a recurring tendency to under-appreciate the value of long-term compound growth. The process seeks to add value through use of proprietary fundamental research to identify companies exhibiting some combination of sustained above average growth and attractive financial characteristics. The portfolio generally holds 80-100 stocks. This strategy can invest opportunistically in the emerging markets, but historically this exposure has been below 10%.

Meeting Notes

Organization
Baillie Gifford remains an independent partnership with no external owners. Currently there are 39 full time partners. Over the past year the firm has experienced growth in assets, clients and staff. There have been ten additions to the investment team in the past year, which is a slightly higher than the normal rate of growth. Baillie Gifford generally hires people toward the beginning of their career, often recent graduates. The recruiting strategy focuses on hiring people who are inquisitive, and not necessarily people with degrees in finance. For the first two years at the firm, these trainees rotate among different investment functions. Baillie Gifford has also recently hired four new client service trainees. These people tend to come in with a bit more experience.

In April the area of Edinburgh where Baillie Gifford is headquartered experienced a power outage. The back-up generators provided by the building’s owner functioned for the trading group, but power was out for the remainder of the firm for approximately three hours. Baillie Gifford has a back-up site with 150 seats located 20 miles from Edinburgh which was fully functional and could have been used by the firm if the outage had continued.

Baillie Gifford has dedicated resources for ESG and corporate governance research. The firm employs six corporate governance/ESG analysts who conduct research on the firm’s holdings and communicate that research to the investment team. In connection with this, they mentioned that they had engaged with Olympus and made several public announcements regarding the company and its governance.

Date of meeting: 7/9/2013
Location: SamCERA Office

Strategic Investment Solutions, Inc.
Investment Team
There have been no recent changes to the four member portfolio construction group that oversees the EAFE Plus Focus strategy.

Investment Strategy
The investment philosophy and process remains unchanged. Baillie Gifford seeks to identify companies with strong long term growth prospects and take substantial positions in them. The investment horizon is at least 3-5 years. Baillie Gifford summarizes their investment criteria with the following four questions:
Will this company be significantly larger in five years?
Are management sensible guardians of our clients' capital?
Why is this growth not reflected in the current share price?
What would make us sell?

With approximately $5.5 billion in the strategy, Baillie Gifford believes that they still have ample capacity remaining in International Focus. According to their calculations, less than 5% of SamCERA's portfolio is illiquid. Assuming a participation rate of no more than 25% of average daily volume in any stock, and using the last 30 days trading as the current benchmark for market liquidity, the SamCERA portfolio could be liquidated in nine days with 96% of the portfolio could being liquidated in the first day. Mike Coultrip requested that they calculate this using a more conservative 20% of average daily volume assumption.

The Focus strategy is the only international equity strategy open to new clients at Baillie Gifford. The strategy was recently selected by Harbor Capital to sub-advice a mutual fund. Harbor has reserved additional capacity.

Baillie Gifford has recently requested that clients approve changes to their internal guidelines. They would like to raise the country guideline from +/- 6% relative to the index, to +/- 10%. They also request eliminating the industry (but not the sector) constraint entirely and raising the individual stock limit from +/- 4% to +/-5%. These changes would have no impact on the constraints specified in SamCERA's IMA. Baillie Gifford will continue to adhere to SamCERA's limit of 5% in any one issuer.

Performance & Positioning
The strategy is approximately 200 basis points ahead of the benchmark from the inception of SamCERA's account through the end of May. June was a difficult month, and it is expected that the since-inception excess return will be lower as of the end of June.

Anne-Marie and Richard reviewed a number of holdings that have contributed to performance and some that have detracted. Among the contributors is Asos, a UK based online fashion retailer, which has performed well, but still has potential for more growth. Finnish elevator company Kone has also been a contributor and remains attractive to Baillie Gifford because of the sticky customer base and servicing model. Another holding that has done well recently, and from which SamCERA has benefited is Olympus. The stock was punished due to an accounting scandal, but has been performing under new management. Baillie Gifford likes the endoscope, but not the camera, business.

Detractors from performance include Li & Fung and Kazakhmys. Li & Fung functions as an intermediary between manufacturers and retailers. Recently they have been under pressure because of weaker structural demand. Baillie Gifford regards this as temporary and they have been buying more shares. Kazakhmys is a UK listed copper producer whose 20% stake in another company caused a decline in its stock price. The investment team is still discussing this.
holding.

Recent new positions include Imagination Technologies and Trade Me. Imagination Technologies produces chips designed for specific Apple and other devices. Trade Me is an e-commerce company focused on the New Zealand market.
Chartwell Investment Partners

Manager Representative(s)
John Heffern (PM), Mike McCloskey (Marketing) [Via conference call]

SIS Representative(s)
Jonathan Brody

Client Representative(s)
Mike Coultrip (CIO), Scott Hood (Assistant Executive Officer)

Date of meeting: 7/9/2013
Location: SamCERA Office

Product Description
Chartwell seeks to invest in stocks with solid fundamentals that are well positioned for rapid growth. These businesses typically demonstrate strong increases in earnings per share. The strategy involves initiating positions opportunistically when stocks are attractively valued. Chartwell’s style falls somewhere between the momentum-oriented small growth managers on the aggressive end of the spectrum, and the more defensive growth-at-a-reasonable price managers. Portfolios contain 50-70 stocks with market capitalizations between $200 million and $2.5 billion at purchase. Meetings with management are an important part of the investment process.

Meeting Notes

Organization
Chartwell's firm-wide assets were approximately $6.2 billion as of the end of the second quarter. Recent growth has been driven both by market appreciation and by new business. Demand has been quite strong both for the firm's small cap value product and for a niche short duration high yield strategy. Small Cap Value is quite close to closing to new client accounts.

Chartwell currently has 48 employees.

There have been no recent changes in the firm's ownership structure. All the members of the Small - Mid Cap Growth team have equity in the firm.

Investment Team
After only a few months at Chartwell, David Neiderer, the group's consumer analyst, left the firm. According John Heffern, David had been with Chartwell for such a short period of time that he had had virtually no impact on the portfolio. John's explanation for the departure was that the demands of the job, and the travel involved, were more than David had anticipated. He left to join Conestoga, another Philadelphia area small cap manager. John Heffern will take over responsibility for the consumer sector.

We spent some time discussing David's departure because he is the fourth consumer analyst to depart from the firm since 2009. John provided a different explanation for each of the departures, but also hypothesized that generally there have been so many promising companies in this space that it is possible that analysts covering it have been somewhat overwhelmed.

Strategic Investment Solutions, Inc.
Chartwell's founder, Ed Antoian, is also listed as covering consumer and healthcare stocks for the group. But his role is really more as a generator of ideas, rather than as an analyst who maintains coverage of portfolio holdings. Ed also manages a hedge fund, but the rest of the Small - Mid Growth team has no involvement with the hedge fund. Chartwell does not market this fund and most of the investors are Ed's family and friends. This arrangement has been in place since the founding of the firm.

The Small - Mid Growth team also hired an additional analyst to cover technology a few months ago, Kevin Shea.

**Investment Strategy**

Assets in the strategy are approximately $1.3 billion. Chartwell believes that they have capacity for an additional $500 million. John Heffern has discretion to decide at what level to close the product. He is not yet, at the current level of assets, feeling constraints on liquidity or trading.

The basic investment philosophy and process is unchanged. Chartwell takes the view that earnings drive stock price performance. They look to invest in companies with growing revenue, margins and profits. The portfolio is constructed to have characteristics similar to the benchmark. The idea is to beat the benchmark by owning companies with catalysts and superior execution. Face-to-face meetings with company managements are a central component of the research process. Team has met with approximately 175 companies in the past two months.

Turnover tends to be in the 70%-135% range. A portion of this turnover are trims and adds as positions converge and diverge from target prices.

Although the process has not changed fundamentally, it has been tightened up since 2008. Decision making responsibility is now more centralized in the portfolio manager. Analysts have less direct control over the portfolio. The team has become more disciplined about establishing and maintaining target prices. Coverage responsibility has also been made more precise so that there is now no ambiguity about who covers which stocks.

**Performance & Positioning**

John noted that the strategy has only had one year of poor performance since 2004, and that was 2008. Year-to-date through the day prior to the meeting, the portfolio is approximately 130 basis points behind the benchmark.
July 23, 2013

TO: Board of Retirement

FROM: Lilibeth Dames, Investment Analyst

SUBJECT: Presentation of Performance Report Concerning Certain Existing Alternative Investments (to be heard in Closed Session)

Staff Recommendation:

Staff recommends that the Board accept and review the performance report concerning certain existing alternative investments as of December 31, 2012.

Background:

In August 2010, the Board of Retirement approved the implementation of SamCERA's private equity program, with a target policy allocation of 8.0%. At the December 2012 board meeting, Faraz Shooshani of SIS provided a report of SamCERA's private equity program as of June 30, 2012. Today, Mr. Shooshani will be present to provide a confidential due diligence report of these assets as of December 31, 2012.

Discussion:

As of December 31, 2012, SamCERA's private equity portfolio had a total market value of $44.6 million. For calendar year 2012, SamCERA committed to five new funds for a total of $103 million. This brought the sum of private equity funds in the portfolio to nine with $163 million in committed capital.

Mr. Shooshani will review the performance report concerning certain existing alternative investments under closed session which will be provided to the board under a separate confidential memo.
July 23, 2013

TO: Board of Retirement

FROM: Michael Coultrip, Chief Investment Officer

SUBJECT: Report on Alternative Investment Transaction (to be heard in Closed Session, C3)

Staff Recommendation:
Staff recommends the Board review and accept the report for the purchase of alternative investment Cevian Capital II.

Background:
Pursuant to Resolution 12-13-04, which authorizes the Chief Executive Officer, in consultation with the Board Chair or Vice Chair, and one member of the Investment Committee, to make investment decisions for alternative investments of $25 million or less if such decision must be made prior to the date of the next regularly scheduled Board meeting, the CEO authorized an investment into a private equity opportunity in order to make the fund’s closing on July 1st. Given that the July Board meeting is after the close date, Resolution 12-13-04 was utilized to execute an investment in the fund.

Discussion:
On June 24th, the Chief Executive Officer, consistent with Resolution 12-13-04, called an ad-hoc conference call to discuss a potential private equity opportunity. Present on the call were the Board Vice Chair (Natalie Kwan Lloyd), two members of the Investment Committee (Michal Settles & Lauryn Agnew), Staff (David Bailey, Mike Coultrip, Brenda Carlson, and Lilibeth Dames), and SIS (Faraz Shooshani).

In closed session, Faraz Shooshani (SIS) will provide a confidential due diligence report of this purchase.
TO: Board of Retirement

FROM: Michael Coultrip, Chief Investment Officer

SUBJECT: Discussion and Approval of Proposed Alternative Investment
(to be heard in Closed Session, C4)

Staff Recommendation:
Staff recommends the Board consider the alternative investment opportunity, and if approved,
adopt a resolution authorizing the Chief Executive Officer to execute all necessary paperwork to
perfect the investment and to take all actions necessary to initiate, implement, and monitor the
investment.

Background:
The Board has received a confidential due diligence report concerning an alternative
investment opportunity. The information contained in this report is confidential pursuant to

Discussion:
The investment would offer the opportunity to participate in a portfolio of middle market
growth companies.

Faraz Shooshani (SIS) and a representative from the general partner will present this agenda
item, including an oral review of the firm and investment process.

Attachments:
A. Recommendation of Alternative Investment Opportunity
B. Presentation Book on Alternative Investment Opportunity
July 23, 2013

To: Board of Retirement

From: Chezelle Milan, Retirement Senior Accountant
Mabel Wong, Finance Officer

Comment: The attached preliminary statements fairly represent SanCERA's Financial Statements.

Statement of Fiduciary Net Assets

SanCERA's Net Assets Held in Trust for Pension Benefits as of month end totaled $2,738,665,391.

Statement of Changes in Fiduciary Net Assets

Net assets held in trust for pension benefits decreased by approximately $59M million, month over month. The decrease is due to the market depreciation in assets for the month of June 2013.

The following reports are attached to this agenda item:

Mabel Wong, Finance Officer

Subject: Preliminary 4th Quarter Budget Report

**DISCUSSION**

SamCERA's budget consists of three components, a professional services budget authorized by Government Code §31596.1, an administrative budget and a technology budget authorized by Government Code §31580.2.

**Professional Services Budget** - *Attachment One* provides an overview of the accrued professional services expenditures. Investment management fees are driven by contractual agreements and based on total assets under management. Fees for the actuarial services, investment consulting services and global custodian services are based on services detailed in the contractual agreements. The preliminary annualized aggregate professional services fee as of June 30, 2013, is approximately 45.8 basis points versus the expected fee of 55.6 basis points. Actual to budget expenditures are on track as projected.

**SamCERA’s Administrative Budget** – The adopted administrative budget by category, versus the preliminary fiscal expenditures is shown in the table below.

*Attachment Two* provides a review of the line item administrative appropriations versus the preliminary expenditures. Year-to-date through the fourth quarter, SamCERA expended 78.3% of the approved appropriations. Under **Salaries & Benefits** SamCERA budgets all positions and benefits. Savings reflect vacancies during the year. Under **Services & Supplies** the association budgets all overhead and operational expenditures. This year’s budget has not allocated any appropriation for **Capital Assets**.

### SamCERA’s Administrative Budget

</tr>
<tr>
<td>Total</td>
<td>$5,391,800</td>
<td>$4,220,865</td>
</tr>
</tbody>
</table>
Attachment Three provides a review of the line item technology appropriations versus the preliminary expenditures. Staff has selected LRWL, Inc. as the consultant to assist SamCERA in its information technology modernization project and BCS Systems, Inc. for electronic content management project. Work is progressing on both projects and expenses will be realized on appropriations that fall under IT Infrastructure.

PROFESSIONAL SERVICES BUDGET: Government Code §31596.1 states that, "The expenses of investing its money shall be borne solely by the system. The following types of expenses shall not be considered a cost of administration of the retirement system, but shall be considered a reduction in earnings from those investments or a charge against the assets of the retirement system as determined by the board:

(a) The costs, as approved by the board, of actuarial valuations and services rendered pursuant to §31453.
(b) The compensation of any bank or trust company performing custodial services.
(c) When an investment is made in deeds of trust and mortgages, the fees stipulated in any agreement entered into with a bank or mortgage service company to service such deeds of trust and mortgages.
(d) Any fees stipulated in an agreement entered into with investment counsel for consulting or management services in connection with the administration of the board's investment program, including the system's participation in any form of investment pools managed by a third party or parties.
(e) The compensation to an attorney for services rendered pursuant to §31607 or legal representation rendered pursuant to §31529.1."

The board has entered into the following contracts pursuant to §31596.1:

<table>
<thead>

(1) The Actuary, Custodian and Investment Consultant are compensated on a flat fee basis. Fees on this schedule are fees expressed in basis points (or fractions thereof) and utilize total assets while the Investment Manager calculations utilize assets under management.
(2) The calculation utilizes a market value of $2,755 million.

The contractual fee schedule for investment managers appears on the following page.

To: Board of Retirement

From: David Bailey, Chief Executive Officer

Subject: Adoption Of Resolution Reaffirming SamCERA’s Conflict Of Interest Code

Staff Recommendation

Staff recommends that the Board approve a resolution reaffirming SamCERA’s Conflict of Interest Code.

Background

In September 2011 and March 2012, the Board approved significant revisions to the SamCERA Conflict of Interest Code to assure compliance with the most recent versions of Government Code §87300 and §87306.5, and California Fair Political Practices Commission (“FPPC”) Regulation 18730.

Staff now recommends that the Board reaffirm the current Conflict of Interest Code. No changes to the code are recommended.

Every other year, the FPPC sets the annual gift limit. The gift limit effective for calendar year 2013 and 2014 is $440. That means that Board members and designated filers are prohibited from receiving a gift or gifts totaling more than $440 in a calendar year from certain sources. For Board members, the prohibition is applicable to gifts from any source, although there are exceptions (for example, gifts from family members). The reportable limit remains $50 aggregate per calendar year from any single source, unless an exception applies.
WHEREAS, the Board has adopted a Code of Fiduciary Conduct which requires, among other things, that Trustees, the Chief Executive Officer, other SamCERA staff, Consultants, Investment Managers and other professionals retained by the Board shall comply with the provisions of the California Constitution; the Political Reform Act of 1974, as amended and all other laws pertinent to the conduct of public pension fund fiduciaries; and

WHEREAS, Government Code §87300 mandates the adoption of a Conflict of Interest Code by independent public agencies; and

WHEREAS, the Board, by Resolution 96-97-03, adopted the Conflict of Interest Code provisions of the California Fair Political Practices Commission (FPPC) Regulation 18730; and

WHEREAS, Government Code §87306.5 mandates that the Board review its designation of employees and disclosure categories from time to time. Therefore, be it

RESOLVED that the Board hereby instructs the Chief Executive Officer to provide annual disclosure Form 700s to all trustees and all individuals in the Designated Positions. Each individual receiving said form must file the original Form 700 with the Chief Executive Officer who must make and retain a copy and forward the original to the County Clerk. Form 700 must be filed at the times and on the forms prescribed by law. Failure to file statements on time may result in penalties, including but not limited to late fines. Be it further

RESOLVED that the Board hereby instructs the Chief Executive Officer to implement a program to provide reasonable assurance that foreseeable potential conflict of interest situations will be disclosed and prevented and to provide each affected person with a clear and specific statement of his or her duties under the Conflict of Interest Code. Be it further

RESOLVED that the Board hereby instructs the Chief Executive Officer to supply the necessary forms and manuals, to monitor timely and complete filing compliance, to take action regarding late filings and to report apparent violations of the Conflict of Interest Code to the Board.

RESOLVED that the Board hereby defines SamCERA's List of Designated Individuals and Disclosure Categories per FPPC Regulation 18730, to read as follows:
The Fair Political Practices Commission (FPPC) has adopted a regulation (2 Cal. Code of Regs. 18730), which contains the terms of a standard conflict of interest code, which may be amended from time to time. The terms of 2 Cal. Code of Regs. 18730, and any amendments to it duly adopted by the FPPC, are hereby incorporated into this Conflict of Interest Code.

Each person holding any position listed below must file FPPC Form 700--Statement of Economic Interests disclosing the kinds of financial interest shown for the designated employee’s position. Statements must be filed at the times and on the forms prescribed by law. Failure to file statements on time may result in penalties including but not limited to late fines. Each person holding a position who must file Statements of Economic Interest in accordance with Government Code section 87200 et seq and California Code of Regulations shall file in accordance with those statutes, with the proviso that the original statements will be filed with SamCERA and with a copy to the County Clerk. The County Clerk does not need to forward the Statement of Economic Interest to the Fair Political Practices Commission.

**LIST OF DESIGNATED POSITIONS AND APPLICABLE DISCLOSURE CATEGORIES**

**Government Code section 87200 filers:** the following positions which manage public investments for purposes Government Code section 87200, shall, in addition to the disclosures required by Government Code section 87200 et seq, and California Code of Regulations, disclose:

<table>

</tbody>
</table>

*“Investment Consultants” are those investment managers and investment consultants who have been determined by the Chief Executive Officer to perform the same or substantially the same functions as SamCERA’s Chief Investment Officer, which includes, but is not limited to directing or approving investment transactions, formulating or approving investment policies, and establishing guidelines for asset allocation. “Other Consultants” are those contractors who have been determined by the Chief Executive Officer to perform the functions of a SamCERA employee who pursuant to California Code of regulations section 18700 (a)(2) are required to file statements of economic interests. The Chief Executive Officer shall further determine the applicable disclosure categories.
SAN MATEO COUNTY EMPLOYEES' RETIREMENT ASSOCIATION

Board of Retirement

DESCRIPTION OF FINANCIAL DISCLOSURE CATEGORIES

**Category 1:** Persons in this category shall disclose all interest in real property within the boundaries of the County of San Mateo or within two miles outside the boundaries of the County of San Mateo and property located within two miles of any land owned or used by SamCERA. Persons are not required to disclose property, such as a home or vacation cabin, used exclusively as a personal residence.

**Category 2:** Persons in this category shall disclose all business positions, investments in, or income (including gifts and loans) received from business entities that manufacture, provide or sell service and/or supplies of a type utilized by SamCERA.

**Category 3:** Persons in this category shall disclose all business positions and investments in business entities that are the type in which SamCERA’s trust funds may be invested (include securities, real estate and business entities), all income (including gifts and loans) from such business entities, and all interests in real estate co-owned with or purchased from such SamCERA business entities.

**Category 4:** This category includes those investment consultant firms (“consultant”) under contract with SamCERA that have been determined by the Chief Executive Officer to have a requirement to file. Such consultant shall designate those employees who have influence over the investment decisions pertaining to SamCERA’s portfolio. Employees designated by the consultant will disclose all investments in business entities that are the type in which SamCERA’s portfolio may be invested by that consultant (including securities, real estate and business entities) which may foreseeably be materially affected by their decision making on behalf of SamCERA, all income (including gifts and loans) from such business entities, and all interests in real estate co-owned with or purchased from such SamCERA business entities.

The following positions manage Public Investments for purposes of Section 87200 of the Government Code:

- Trustees and Alternate Trustees
- Chief Executive Officer
- Chief Investment Officer
TO: Board of Retirement
FROM: David Bailey, Chief Executive Officer
SUBJECT: Approval SamCERA’s 2013-14 Strategic Plan Update

Staff Recommendation
Staff recommends the Board approve the attached update to the SamCERA Strategic Plan.

Background
The Strategic Plan is the product of staff’s annual retreat and subsequent discussions. It represents the best thinking of staff regarding those tasks that staff should undertake during the 2013-14 fiscal year in order to fulfill the mission and goals of SamCERA.

Mission: SamCERA exists to serve as loyal fiduciary for its members and as prudent administrator of the retirement system.

Goals:
- Provide caring, fair, accurate, timely and knowledgeable professional services and information to members and other stakeholders.
- Prudently manage the assets in order to appropriately fund the actuarial liabilities of the retirement system to ensure the ability to pay all earned benefits while minimizing the costs to employers.
- Constantly improve the effectiveness of SamCERA’s services and the efficiency of its operations.

This year’s document is an update to the Strategic Plan, rather than a full redraft. The update mainly concerns the Action Matrix, which is a list of the tasks to be undertaken.

Each of the tasks in the SamCERA Action Matrix is tied to the achievement of one of the above goals. Please see the Executive Summary in the attached Strategic Plan Update for a summary of the major tasks today associated with these goals.
San Mateo County Employees’ Retirement Association

Strategic Plan

2013-14 Update
Executive Summary
This is an update of SamCERA’s Strategic Plan, which was first developed for the 2005-06 fiscal year. This update covers the fiscal year 2013-14.

This update includes this summary and the Action Matrix, which lists and describes the projects staff will pursue during the year.

All the steps in the strategic planning process leading up to the writing of this report were conducted as in past years. All staff held a retreat in March 2013 and reviewed the Mission and Goals and discussed the strengths, weaknesses, opportunities and threats facing SamCERA. Staff reviewed annual statistics, point-of-service survey results and Employee Engagement Survey results. The Action Matrix below was developed as an outcome of these discussions.

During the 2013-14 fiscal year, SamCERA will continue to pursue its three major goals, all of which are derived from and consistent with SamCERA’s Mission and Goals statement.

Asset Management Goal
Prudently manage the assets in order to appropriately fund the actuarial liabilities of the retirement system to ensure the ability to pay all earned benefits while minimizing the costs to employers.

Major projects under this goal include continuing to prudently build out the private equity portfolio, completing an Asset Liability Modeling study, and assuring that SamCERA properly implements new Government Accounting Standards Board statements.

Customer Services Goal
Provide caring, fair, accurate, timely and knowledgeable professional services and information to members and other stakeholders.

Over the coming years, meeting this goal will involve providing input to the Enterprise Content Management (ECM) and Pension Administration Software System (PASS) vendors in order to assure that the new systems provide users and members with new tools that improve efficiency, accuracy and customer service.

Operations Goal
Constantly improve the effectiveness and efficiency of SamCERA’s operations.

This will include taking the next steps to upgrade SamCERA’s core technologies. It will also include
modernizing the SamCERA website to allow more efficient updates of information and beginning the process of securing sufficient SamCERA office space for the foreseeable future.

Each goal has a number of specific projects designed to help achieve it. Some projects were developed during the 2013 Board/Staff Retreat. Others arose from the 2013 All Staff Retreat. Still others are carried over from prior years.

The 2013-14 plan is SamCERA’s eighth under the Government Finance Officers Association Strategic Planning approach. There are now 41 projects for the staff to initiate and/or complete during the 2013-14 fiscal year. That said, the count of 41 tasks broadly understates the tasks ahead for the staff during the next few years as SamCERA embarks on its Technology Modernization Project.

During the previous plan year, the staff completed 25 projects. Projects that were not completed but still relevant were moved to the 2013-14 Plan. In the previous 8 years, staff completed a total of 151 projects, all over and above their day-to-day duties.

Conclusion

This update of the SamCERA Strategic Plan builds on the work of past plans beginning in 2005 and continues the efforts to improve operations, financial management, and customer services.

By pursuing the tasks summarized in this plan, SamCERA will move forward with the need to modernize its technology, further diversify its assets, and improve communications and services to members.

By achieving the goals of this plan, SamCERA will continue to fulfill its mission:

*To serve as loyal fiduciary for its members and as prudent administrator of the retirement system.*
San Mateo County Employees’ Retirement Association
Board of Retirement

July 23, 2013

To: Board of Retirement

From: David Bailey, Chief Executive Officer
       Mabel Wong, Retirement Finance Officer

Subject: Approval of Amendments to Resolutions Providing Signature Authority for SamCERA Manual Checks

Staff Recommendation

Staff recommends that the Board amend the provisions setting forth signatures required on certain checks drawn on the retirement fund as set forth in Resolution 95-96-16 adopting SamCERA’s Internal Controls Policy and as set forth in Resolution 95-96-15 implementing Assembly Bill 1021.

Summary

The recommended changes will end the use of the Board Secretary’s signature stamp as one of three signatures needed to approve SamCERA manual checks. Instead, the signature of the Assistant Executive Officer must be provided, along with that of the CEO and the County Controller, for approval of all such checks.

Background

Government Code §31590 (a) provides in pertinent part that: “All warrants, checks, and electronic fund transfers drawn on the retirement fund shall be signed or authorized by at least two board officers or employees, designated by the board or by the treasurer if designated by the board.”

In April 1994, the Board adopted its Delegation of Authority to the Chief Executive Officer. In that delegation of authority, the Board reserved unto itself all powers regarding the approval of the system of internal controls. (The adoption of the attached resolution retains such authority with the Board.) In February of 1996, the Board adopted two resolutions. One established the Internal Controls (Resolution 95-96-16), which currently provides that:

“5. All other checks drawn on the retirement fund shall bear the signature of the Chief Executive Officer or a staff member he has delegated and the facsimile signature of the Board Secretary & County Controller in accordance with Government Code §31590 & Board Resolution 95-96-15.”

Resolution 95-96-15 implemented the provisions of Assembly Bill 1021 regarding the financial authority and functions of the Board and which, among other items, delegated signature authority
to the Chief Executive Officer, Board Secretary and Controller “for the functions specified in Government Code §31590.”

Discussion
The type of checks impacted by the recommended change are mostly refunds to members who are withdrawing their accounts or to their beneficiaries in the event of death—about 12 per month. Lost checks and stale-dated checks are re-issued with manual checks. These average about 3 per month.

Staff recommends that for checks drawn on the retirement fund, other than for retirement payroll, rather than using the facsimile signature of the Board Secretary in addition to the signature of the Chief Executive Officer, the policy should be amended to provide that signatures be required of both the Chief Executive Officer and Assistant Executive Officer.

It is anticipated that in the vast majority of cases, both the CEO and AEO will be available to sign the manual checks. In the event that one or the other is unavailable, the resolution allows that one of the signatures must be “original,” the other can be a facsimile with written authorization from the signatory. Each signatory will retain the stamp of the other in a locked drawer. The use of a stamp will be authorized for use by the owner, either the Chief Executive Officer or the Assistant Chief Executive Officer, upon receipt of written authorization from the signatory. The Retirement Finance Officer will be copied on all authorizations. The facsimile of the Controller’s signature will continue to be required on these checks.

The proposed language revising the signature requirement is set forth in the attached amendments to Resolution 95-96-15 and Resolution 95-96-16.
SAN MATEO COUNTY EMPLOYEES' RETIREMENT ASSOCIATION
Internal Controls - Disbursements from the Retirement Fund
RESOLUTION 95-96-16, as amended

THIS RESOLUTION, adopted by the Board of Retirement (Board)
of the San Mateo County Employees' Retirement Association (SamCERA),adopts Internal Controls for the disbursement of monies from the Retirement Fund.

WHEREAS, Government Code §31520 vests the management of the Association in the Board; and
§31525 empowers the Board to adopt regulations; and

WHEREAS, Government Code §31590 provides specific guidance for disbursements from the Retirement Fund; and

WHEREAS, Section 17 of Article XVI of the Constitution of the State of California states that the retirement board of a public pension or retirement system shall have plenary authority and fiduciary responsibility for the administration of the system; and

WHEREAS, The Board has appointed a Chief Executive Officer pursuant to Government Code §31522.2 and has resolved to delegate specific powers and duties to the Chief Executive Officer, including the duty to provide for an effective system of internal controls; and

WHEREAS, The Chief Executive Officer has recommended the following controls to help assure that the assets of the Fund cannot be compromised. Therefore be it

RESOLVED that the Chief Executive Officer will implement the following internal controls for the disbursement of moneys from the retirement fund.

1. The retirement payroll checks shall bear the signature of the County Controller. The Board delegates safekeeping of the retirement payroll check stock to the County Controller.

2. Changes to the retirement payroll may only be performed by designated retirement staff.

3. SamCERA shall utilize the accounts payable system of the County Controller for operational expenditures. The accounts payable checks are from the Controller’s check stock and shall bear the signature of the County Controller.

4. Preparation and approval of operational expense documents transactions may only be performed as referred to below.

5. All other checks drawn on the retirement fund shall bear the signature of the Chief Executive Officer or a staff member he has delegated and the facsimile signature of the Board Secretary & County Controller in accordance with Government Code §31590 & Board Resolution 95-96-15.

5. In accordance with Government Code §31590 and Board Resolution 95-96-15, all other checks drawn on the retirement fund shall bear the signature of both the Chief Executive Officer and the Assistant Executive Officer. One of the signatures can be a facsimile with written authorization from the signatory. The facsimile signature of the County Controller will also be on the checks.

6. The Board delegates safekeeping of the blank check stock to the Retirement Finance Officer. The Chief Investment Finance Officer is hereby prohibited from initiating or granting final approval for retirement disbursements via check stock. Blank check stock shall not be released to a staff member authorized to approve disbursements. The Chief Investment Finance Officer shall maintain a log, which documents inventory released, date, amount, stated intent of the disbursement and require a signature or initial from the staff member receiving the blank stock.
7. The County Controller shall not honor any journal entries, claims, purchase orders, transmittals, appropriation transfer requests, or other charges against the retirement fund without the written or electronic approval of the Chief Executive Officer or, in his absence, his designee.

8. The Treasurer shall not honor any claims, transmittals, or other charges against the retirement fund without the approval of the Chief Executive Officer or, in his absence, his designee.

9. The Chief Executive Officer's or, in his absence, his designee's approval shall be evidenced by his signature or initials on the document initiating the transaction. The document may be any standard form, including, but not limited to, a register authorizing electronic funds transfers.

10. Pursuant to his Delegation of Authority, the Chief Executive Officer shall delegate to staff the task of preparing the documents and transactions referred to above, and shall supervise and audit staff's work.

11. Pursuant to his Delegation of Authority, the Chief Executive Officer may delegate to the County Controller the task of reconciling the bank statement to SamCERA’s general ledger. The Controller shall provide SamCERA with a timely outstanding checks reconciliation report. SamCERA’s staff shall promptly resolve any discrepancies. The Retirement Finance Officer shall supervise and audit the bank reconciliation process.

12. The Chief Executive Officer and his designee are hereby prohibited from having access to check stock or performing the functions required to prepare any and all documents and transactions which allow disbursement of moneys from the retirement fund, but shall audit the work of others prior to granting approval. Document approval is specified in number 9 above. Check approval from the blank stock will be further evidenced by the appropriate signature and affixing the facsimile signature of the Board Secretary prior to forwarding it to the County Controller for his signature.

13. The Board delegates safekeeping of the Board Secretary's facsimile signature to the Chief Executive Officer.

14. The Board delegates safekeeping of the Chief Executive Officer’s facsimile signature stamp to the Assistant Executive Officer and delegates safekeeping of the Assistant Executive Officer’s signature stamp to the Chief Executive Officer. Each stamp shall be kept by the delegated keeper in a locked drawer. Each stamp may be used for the approval of manual checks upon receipt of authorization from the signatory by the keeper.

15. Pursuant to his Delegation of Authority, the Chief Executive Officer shall report to the Board regularly on matters of significance related to the Association’s Internal Controls.

ADOPTED by unanimous vote, February 22, 1996
AMENDED, by unanimous vote, March 28, 1996
AMENDED, by unanimous vote, March 27, 2001
AMENDED by unanimous vote, May 28, 2002
AMENDED by unanimous vote, April 22, 2003
SAN MATEO COUNTY EMPLOYEES' RETIREMENT ASSOCIATION

Implementation of Assembly Bill 1021

RESOLUTION 95-96-15

THIS RESOLUTION, adopted by the Board of Retirement (Board) of the San Mateo County Employees' Retirement Association (SamCERA), implements the provisions of Assembly Bill 1021.

WHEREAS, Section 17 of Article XVI of the Constitution of the State of California states that the retirement board of a public pension or retirement system shall have plenary authority and fiduciary responsibility for the investment of monies and administration of the system; and

WHEREAS, Chapter 584, Statutes of 1995 (Assembly Bill 1021), empowers the Board to delegate functions to the treasurer or other entity authorized by the board. Therefore, be it

RESOLVED that the Board hereby designates the financial records of SamCERA to be the official books of record for the functions specified in Government Code §§31588, 31589 and 31599. Be it further

RESOLVED that the Board hereby designates signature authority to the following two positions: Chief Executive Officer and the Assistant Executive Officer and (2) designates the County's paying agent bank as paying agent for the functions specified in §31590. Be it further

RESOLVED that the Board hereby designates the fiduciaries under contract to SamCERA and the California Local Agency Investment Fund, to carry out the functions specified in §§31595.1 and 31596, subject to coordination of their activities by the Retirement Administrator-Chief Executive Officer pursuant to his Delegation of Authority. The Board designates the Treasurer to safely keep and invest funds on deposit with the County, pending transfer by the Retirement Administrator-Chief Executive Officer to one of the Board's contract fiduciaries or the Local Agency Investment Fund pursuant to his Delegation of Authority. Be it further

RESOLVED that the Board hereby reserves unto itself responsibility for filing annual financial statements with the county auditor and board of supervisors, for the relevant functions specified in §§31597, 31597.1 and 31597.2. Be it further

RESOLVED that the Board hereby designates the Retirement Administrator as the other entity authorized by the Board for the functions specified in §§31452.5, 31452.6, 31452.65, 31485.6 and 31628.

ADOPTED by unanimous vote, February 22, 1996
Attest:
July 23, 2013

Agenda Item 7.6

TO: Board of Retirement

FROM: Tariq Ali, Chief Technology Officer

SUBJECT: Update on Information Technology Project Progress

Staff Recommendation

Staff recommends that the board accept staff’s oral report on the status of current IT Projects.

Background

The Chief Technology Officer, Tariq Ali will introduce the newest addition to the IT Staff and provide a brief update on current projects and goals for the coming year including the SamCERA.org website; Web Member Services updates; IT Infrastructure upgrades; Accounting software upgrade; Board packet management software.

Will Morrow from LRWL will provide a status update on the IT Modernization Project including updates on the Electronic Content Management effort; Pension Administration Software System procurement; Data Cleansing; Investments Business Process Re-engineering; and Change Management.

Enterprise Content Management

• Scope
  – Phase 1 (Benefits)
    • Implement Autonomy Worksite, Kofax Capture, and BCS iConnect for SamCERA
    • Provides capability to scan all incoming paper documents, store them in electronic member folders, and retrieve them from PensionGold
  – Phase 2
    • Analyze the ECM needs for other SamCERA departments (Executive, Legal, Investments, Finance, Board)
  – Backfile Conversion
    • Convert all paper member records into PDF files and loaded into ECM solution

• Status
  – Phase 1
    • UAT complete
    • August implementation
  – Phase 2
    • Scheduled for 8/5 through 9/20
  – Backfile
    • Onsite work complete
    • Overall 51% complete
PASS Procurement

• Scope
  – Develop & Publish RFP
  – Award Contract
    • Vendor Questions
    • Proposers Conference
    • Evaluate Proposals
    • Product Demonstrations & Presentations
    • Customer Site Visits
    • Recommendation to CEO
    • CEO Announcement
    • Protests
    • Contract Negotiation
    • Board Approval

• Status
  – RFP Released June 17
  – 39 vendor questions from four vendors resulted in five RFP amendments
  – Proposers’ Conference July 11 with 6 vendors
  – Second round of questions due July 29
  – Proposals due August 29
  – CEO announcement 10/29
  – Board approval 12/16

PASS Project planned to begin January 2014 and finish late 2016
Data Cleaning

• **Scope**
  - Led by LRWL, quantify and resolve known data quality issues that cannot be assigned to the PASS vendor (16 of the 20 identified)

• **Status**
  - Data Team and infrastructure setup has started
  - Prioritization of data issues will follow
Investments BPR

• **Scope**
  - Analyze and make recommendations for improvement for 4 Investments business processes

• **Status**
  - As-is document delivered
  - To-be sessions being scheduled
Change Management

• Scope
  – Phase 1: Plan and Assess
  – Phase 2: Internal Change Readiness
  – Phase 3: External Stakeholders

• Status
  – Phase 1
    • Readiness report delivered
  – Phase 2
    • Meeting in June was held to plan for implementation of Phase 1 recommendations
  – Phase 3
